Help-Our-Planet-Earth (HOPE) Paul Watterworth,2015-09-01 Robert walked towards the hospital emergency entrance. The smell of death was overpowering. Many of the cars blocking the ambulance entrance had their lifeless occupants slumped over the steering wheels or their heads propped against the car windows. The sliding doors were propped open by more bodies of virus casualties. Robert looked deeper into the dark hospital and turned around. The hospital was not receiving more patients. Jillian stared over the city of Hong Kong from the eighteenth floor of the luxury hotel. Although it was the middle of the day, the entire city was dead. Not a car, boat or person was moving. The hotel had no water, phone or electricity. Despair washed over her as she thought of her children. She prayed that her two boys survived the virus. The problem was that they were a very large ocean away. Adapting to the new world was difficult. Finding and protecting your family was an even greater challenge.

Jumping the Picket Fence Lydia Dean,2019-05-24 What happens when you let go of fear, follow your inner voice and trust in something greater? Lydia Dean is at the top of her game professionally and personally, yet she is also on the verge of an emotional breakdown. She persuades her husband, John, to leave their comfortable life in Florida and take their young family on an inspirational journey around the world. The family initially settles in a quiet village in the South of France where they discover the joys of leading a simpler life. Lydia's childhood dreams of humanitarian work take her further from the comforts of home as she ventures into shelters for children across India; through the jungles of Costa Rica, Southeast Asia, and Venezuela; and to China where the Deans adopt their third child. Motivated by the simple ideal that small, personal actions can make a difference, Lydia and a passionate team launch GoPhilanthropic Foundation, a non-profit devoted to partnering with community-based organizations providing access to education, healthcare, and basic human rights in marginalized communities around the world. Magical and entertaining, painfully raw and unsettling,

Lydia Dean's book offers a beautifully balanced mixture of travel memoir, soul searching, and non-profit building. The story ultimately becomes about what each of us can experience if we take a risk and jump our own fences. Lydia Dean-founder of GoPhilanthropic Travel and co-founder of GoPhilanthropic Foundation-currently resides in Provence, France.

Rock Fences of the Bluegrass Carolyn Murray-Wooley,Karl Raitz,2014-07-11 Gray rock fences built of ancient limestone are hallmarks of Kentucky's Bluegrass landscape. Why did Kentucky farmers turn to rock as fence-building material when most had earlier used hardwood rails? Who were the masons responsible for Kentucky's lovely rock fences and what are the different rock forms used in this region? In this generously illustrated book, Carolyn Murray-Wooley and Karl Raitz address those questions and explore the background of Kentucky's rock fences, the talent and skill of the fence masons, and the Irish and Scottish models they followed in their work. They also correct inaccurate popular perceptions about the fences and use census data and archival documents to identify the fence masons and where they worked. As the book reveals, the earliest settlers in Kentucky built dry-laid fences around eighteenth-century farmsteads, cemeteries, and mills. Fence building increased dramatically during the nineteenth century so that by the 1880s rock fences lined most roads, bounded pastures and farmyards throughout the Bluegrass. Farmers also built or commissioned rock fences in New England, the Nashville Basin, and the Texas hill country, but the Bluegrass may have had the most extensive collection of quarried rock fences in North America. This is the first book-length study on any American fence type. Filled with detailed fence descriptions, an extensive list of masons' names, drawings, photographs, and a helpful glossary, it will appeal to folklorists, historians, geographers, architects, landscape architects, and masons, as well as general readers intrigued by Kentucky's rock fences.

Heart of Darkness Joseph Conrad,2023-11-21 Heart of Darkness is often considered the world's best short novel. The book serves as a bridge between the 19th century and modernism, an adventure tale revolving around the ambiguity of themes such as truth, morality, and evil. Joseph Conrad witnessed the European exploitation of the Congo with his own eyes. He once sailed up the Congo River himself to locate a countryman at a trading station deep within the country – even though this man wasn't named Kurtz. The goal and enigma of the journey have become synonymous with this name, one of the most unforgettable fictional characters of our time. JOSEPH CONRAD [1857–1924] was born in Ukraine to Polish parents, went to sea at the age of seventeen, and ended his career as a captain in the English merchant navy. His most famous work is the novella Heart of Darkness [1899], adapted into a film by Francis Ford Coppola in 1979 as Apocalypse Now.
