Inspector Skills Stephen A. Van Note,2014 Inspector Skills is the first text to focus on the “other” skills that are essential for success as a construction inspector. These “soft skills” are the non-technical traits and behaviors that enhance an inspector’s ability to interact with

others and to successfully carry out his or her job duties. Inspector Skills aims to raise awareness of the importance of soft skills and to provide guidance toward recognizing and improving those skills. When coupled with the technical knowledge of codes and construction practices, developing effective soft skills elicits cooperation, generates respect and credibility, and improves the image of inspectors and code safety departments. Inspector Skills was written for construction inspectors in all disciplines and will also benefit students, permit technicians, plan reviewers and building officials. -- Publisher's description.
