Interactive Business Communities Mitsuru Kodama, 2016-05-23 Innovation in technology and services was once the result of specialist knowledge developed within a single corporation; now, a single focus on the development of new products and services is no longer enough. In *Interactive Business Communities*, Mitsuru Kodama shows how a new business approach can enable managers to access, share and integrate diverse knowledge both inside and outside the corporation using Boundary Networks to operate across more formal organizational and knowledge boundaries at all levels. Drawing on his studies of large corporations in America and the Far East, Mitsuru, shows how different companies have already started to take this path. He explains the kind of networks and strategic partnerships that have emerged and gives practical guidelines on how to begin forming in-house business communities and extending this to interactive business communities with customers and other organizations. This book is a valuable resource for business educators and researchers, and senior executives responsible for strategy, particularly in high-tech industries, will find insights and ideas to tackle 21st century market and business discontinuities.

The SAIC Solution Dr. J. Robert Beyster, 2007-03-31 Can an employee-owned company succeed? Here is the inside story of one that thrived and grew to become a significant force in the nation's scientific and technical markets. In 1969, Dr. J. Robert Beyster founded Science Applications International Corporation (SAIC) with a unique vision of creating an employee-owned organization run according to 12 principles of success that encourage entrepreneurship and accountability. Today, SAIC has grown from a handful of scientists to over 43,000 employees—most of whom hold company equity—and more than \$8 billion in annual revenue, a steadily rising stock price, and top rankings as a contractor to government and business organizations. In this book, Dr. Beyster tells the story of SAIC, and offers valuable lessons to entrepreneurs and managers on how to build a company in which loyalty to values goes hand in hand with success. Dr. J. Robert Beyster (La Jolla, CA) is the founder of Science Applications International Corp. (SAIC). He served as CEO and chairman of the company for 35 years. Beyster continues to promote innovation and employee ownership through his Foundation for Enterprise Development and the Beyster Institute at the Rady School of Management at the University of California, San Diego. Peter Economy (La Jolla, CA) is Associate Editor of Leader to Leader, the award-winning publication for the Leader to Leader Institute, and a bestselling author of titles such as The Management Bible (0-471-70545-4) and Enterprising Nonprofits: A Toolkit for Social Entrepreneurs (0-471-39735-0).
