I Learn from Children Caroline Pratt,2014-06-16 The memoir of an innovative American educator and the remarkable school she built—"a lucid presentation of what progressive education can accomplish" (The New York Times). Over a century ago, American educator Caroline Pratt created an innovative school that fosters creativity and independent thought by asking the provocative question: "Was it unreasonable to try to fit the school to the child, rather than . . . the child to the school?" A strong-willed small-town schoolteacher who ran a one-room schoolhouse by the time she was seventeen, Pratt came to viscerally reject the teaching methods of her day, which often featured a long-winded teacher at the front of the room and rows of miserable children sitting on benches nailed to the floor. In this "persuasive presentation of progressive education," Pratt recounts how she founded what is now the dynamic City and Country School in New York City, invented the "unit blocks" that have become a staple in classrooms around the globe, and played an important role in reimagining preschool and primary-school education in ways that are essential for the tumultuously creative time we live in today (Kirkus Reviews).

The Yule Lads Brian Pilkington,2001 Inspired by the book of verses by Jóhannes úr Kötlum, Yuletide is coming, that tells the story of Grýla and her children, the 13 Yule lads: Stekkjarstaur, Giljagaur, Stúfur, Þvörusleikir, Pottasleikir, Askasleikir, Hurðaskellir, Skyrgámur, Bjúgnakrækir, Gluggagægir, Gáttapfur, Ketkrókur, and Kertasníkir. Each of the Yule lads sets off from the family home in the Highlands and travels on foot over the mountains, making their individual appearances one after the other, on the thirteen nights before Christmas.

Reading Development and Teaching Morag Stuart,Rhona Stainthorp,2015-12-07 This textbook will prove invaluable to teacher educators, teachers, educational psychologists, and any professional who is involved with teaching children to read. It provides a detailed examination of the processes that are involved in achieving fluent word reading skills and ability to comprehend written texts. Understanding these processes and their development empowers teachers to select appropriate, evidence-based teaching strategies and thus teach children more effectively. The book is in four parts: Part 1 provides the reader with a Tutorial Review covering essential knowledge about language, and presenting the two dimensions of the Simple View of Reading. Part 2 concentrates on the word reading dimension, with chapters on processes in skilled word reading, the development of these processes, and practical advice on research validated teaching methods to develop children's word reading skills. Part 3 turns to the language comprehension dimension, with chapters on the comprehension of oral and written language, and on teaching reading comprehension. Part 4 introduces the reader to assessment practices and methods of identifying children with difficulties in either or both dimensions of the Simple View, and considers children with word reading difficulties and children with specific comprehension difficulties, describing effective evidence-based interventions for each type of difficulty.

Energy Branding Friðrik Larsen,2017-06-10 Demonstrating the potential of building strong brands in the energy sector, this book explores the challenges of shifting the perception of energy from a commodity business into a consumer brand. Energy suppliers are increasingly being met with skepticism, indicating the need for a greater focus on marketing and branding in the energy industry. The author examines both perspectives of energy as a commodity business and a consumer brand, as well as the perception of energy consumers across Europe. Topics discussed include green energy, the liberalisation of the electricity industry, and the relationship between consumers and executives in the energy market. One of the first of its kind, this book offers a unique and innovative study of the development of branding in the energy industry, and sheds light on future marketing strategies.

Mom Jokes Lisa Beth Johnson,Phoebe Bottoms,2021-03-09 The authors of Okay, Boomer deliver much-needed one-liners, puns, lists, and real-life tweets to lighten the load—and life—of moms everywhere. Moms need their laughs just as much as anyone, especially when they have to relieve the stress of cranky kids, oblivious spouses, and the challenges of balancing work and family while keeping it all together—at least on the surface! Mom Jokes is a collection of more than 300 snarky, sassy, and witty jokes for moms, such as . . . Every Mother's Day my children make me breakfast in bed. Good thing I taught them how to make bottomless mimosas. What's the difference between me when I'm nine months pregnant and a supermodel? Nothing, because my husband values his life. The good thing about going back to work after having kids is that you have your mom boss voice perfected. I thought my seven-year-old was mature enough to feed our goldfish—and he is—he just isn't mature enough to know they don't eat peanut butter and jelly sandwiches. From family life and the daily grind to food and entertainment, this collection of jokes nails the ups and downs of motherhood, giving moms light-hearted moments to get through the heavy lifting.

Play and Child Development Joe L. Frost,Sue Clark Wortham,Robert Stuart Reifel,2012 A textbook for undergraduate and graduate courses in Play; also appropriate as a supplement for Child Development and Early Childhood Education courses. With significantly expanded discussions on key topics, this text ties play directly to child development. Addressing the full spectrum of play-related topics, including age-group chapters, its coverage is quite comprehensive and blends research, theory, and practical applications. Play and Child Development, Fourth Edition, is arranged to guide students through topics leading to a comprehensive understanding of play intended to help prepare them for guiding children's play in a number of contexts: preschools, elementary schools, park systems, and research programs. The text is developmentally-based, providing basic information about historical, theoretical, and practical approaches to promoting development through integrated play and learning approaches across various age or developmental levels. The book analyzes play theories and play therapy; presents a history of play; and discusses current play trends. It explores ways to create safe play environments for all children, and how to weave play into school curricula. Finally, the authors examine the role of adults in leading and encouraging children's natural tendencies toward learning by playing. Special coverage includes a full chapter on play and children with disabilities, and the value of field trips in supporting learning.

You're History Lesley Chow,2021-03-09 Raucous, sensual and sublime: how twelve pioneering female artists rewrote the rules of pop. From Kate Bush to Nicki Minaj, from Janet Jackson to TLC and Taylor Swift, pop's greatest female pioneers are simply strange: smashing notions of taste and decorum, and replacing them with new ideals of pleasure. Instead of rehashing biographies, Lesley Chow dives deep into the music of these groundbreaking performers, identifying the ecstatic moments in their songs and finding out what makes them unique. *You're History* is a love letter to pop's most singular achievements, celebrating the innovations of women who are still critically underrated. It's a ride that includes tributes to Chaka Khan, Rihanna, Neneh Cherry, Sade, Shakespears Sister, Azealia Banks, and many more... “The slim, sharp book considers a range of female artists from Janet Jackson and Taylor Swift to TLC and Nicki Minaj, a group that the Australian cultural critic Chow views as ‘outliers, marking moments where the culture might have swerved to incorporate their influence, but somehow contrived not to.’” — New York Times summer reads
