- Hundreds of challenging practice questions
- Leading-edge exam preparation software, including a test engine and the entire book on PDF
- Authoritative instruction on all revised Programmer exam objectives, including:
 - Declarations, initialization and scoping
 - Flow control
 - API contents
 - Concurrency
 - Object-oriented concepts
 - Collections and generics
 - Language fundamentals
- Detailed discussion of the key topics included in the Developer exam, including:
 - Swing components and events
 - Layout managers
 - Enhancing and extending the database
 - Writing the network protocol
 - Building the database server
 - Connecting the client and server

Ejb 3 Developer Guide Michael Sikora, 2008-05 This book is a fast-paced tutorial that explores the key features of EJB 3 with many accompanying examples. This book is not a complete reference guide, but a concise exploration of EJB 3's core elements. This book is primarily aimed at professional developers who already have a working knowledge of Java. Enterprise architects and designers with a background in Java would also find this book of use. Previous experience of working with Java is essential and knowledge of relational databases is desirable. As this book is an introduction to EJB 3, it is aimed at those who are new to EJB 3. As the new version of EJB is so radically different from the previous version (EJB 2.x), the book is suitable for and should be of interest to those who have had experience working with EJB 2.x. The text makes it clear where the differences between the versions of EJB lie, although they are not explored in detail.

GUI Design Shan ben tu shu, 2015 As technology has rapidly advanced, so too has the way we use and interact with it. Gone are the days of flat black backgrounds dotted with blocky green text; now, users expect a massive range of colors, layouts, and fonts to be used to entertain and assist

them in their daily lives. GUI Design assembles the best of recent graphic user interface for a collection that provides practical encouragement for those new to the world as well as inspiration for experienced designers. The book gathers Twitters Vine video creation app for Windows phones, the vulgar-yetamusing Authentic Weather app, an application designed to help tourists follow the physical and ideological path of the Iron Curtain, and more to showcase programs that balance information flow with user experiences and highlight the creativity, inspiration, and expressive techniques used in their design. The projects within demonstrate the increasingly significant role of user interfaces in both design and our everyday lives in the modern world.

Adobe Flash Catalyst CS5 Classroom in a Book Adobe Creative Team,2010-05-13 This official training guide from Adobe will teach readers all they need to know to create rich interactive experiences with Flash Catalyst CS5, Adobe's exciting new interaction design tool. Flash Catalyst CS5 lets designers create real Adobe Flash and Adobe AIR applications without having to learn ActionScript. Using step-by-step instructions in projects that progressively build skills, readers of this

Classroom in a Book will learn how to prepare and import artwork from applications such as Adobe Photoshop and Fireworks into Catalyst, and then add interactive functionality in a familiar interface and with tools that are intuitive to use. Readers will learn how libraries let them organize and reuse assets, how to use layers to view and control objects, how to work with pages and states to create interactive components, how to add transitions and action sequences, and how to work with video and sound. Readers will also learn to incorporate Flash files from other applications and use Flash Builder to extend their projects' functionality. The companion CD provides users with all the sample files they need to complete all the projects. “The Classroom in a Book series is by far the best training material on the market. Everything you need to master the software is included: clear explanations of each lesson, step-by-step instructions, and the project files for the students.” —Barbara Binder, Adobe Certified Instructor, Rocky Mountain Training Classroom in a Book®, the best-selling series of hands-on software training workbooks, helps you learn the features of Adobe software quickly and easily. Classroom in a Book offers what no other book or training program does—an official training series

from Adobe Systems Incorporated, developed with the support of Adobe product experts. Note from the publisher: FREE Adobe Flash Catalyst CS5.5 updates are available for this title. Simply register your product at www.peachpit.com/register and you will receive the updates when they become available.
