*China's One Belt One Road Initiative* Tai Wei Lim, Henry Hing Lee Chan, Katherine Hui-Yi Tseng, Wen Xin Lim, 2016-07-28 Chinese President Xi Jinping launched the Silk Road Economic Belt component of the One Belt One Road (OBOR) initiative at Kazakhstan in 2013. OBOR is a development strategy and framework that focuses on connectivity and cooperation among countries primarily in Eurasia. It consists of two main components, the land-based Silk Road Economic Belt (SREB) and ocean-going Maritime Silk Road (MSR). This book studies the equilibrium or balance between overland and maritime trade routes of OBOR. This book has two major sections. The interpretive section examines contemporary media narratives related to the OBOR initiative and how contemporary commentators appropriate narratives about historical events related to the maritime Silk Road to interpret current policy agendas and legitimize diplomatic or economic exchanges. In terms of institutional studies, the chapters related to Asian Infrastructure Investment Bank (AIIB) will look at the issues facing the Bank in its quest in forming a new world platform for multilateral development financing. The other section, the empirical case study of the publication highlights the fact that Euro-China High Speed Rail (HSR) and Central Asia-China HSR are not viable at the moment as passenger volume is not sufficient to justify the HSR line. This section examines the overland route of the OBOR and looks at recent Chinese HSR history and conventional sub-high speed rail technology development, and identifies technical &

economic criteria determining the appropriate technology for a certain line. The chapter in this section will use the developed criteria to analyze the various rail linkage projects currently under study in the OBOR framework, highlight the economic, bureaucratic and geo-political challenges that these projects likely face and lay down conditions that will determine the outcome of these projects.

*Xi Jinping's 'Chinese Dream'* Prashant Kumar Singh, 2022-12-30 Singh analyses the influence of Xi's 'Chinese Dream' on China's foreign relations and security postures. Xi Jinping's rise has led to a paradigm shift in many aspects of China's domestic and international politics. A key element of this has been the ideological vision shorthanded as the 'Chinese Dream', combining elements of nationalism, Confucian ideology, and economic expansionism. Singh evaluates the various changes in China's nominally communist ideology in the post-Mao era, with an emphasis on the implications for China's economic and security relations with other countries. He particularly focusses on China's approach to South Asia and the Indian Ocean Region, key elements of China's strategy. An insightful guide to understanding the direction of China's foreign and security policy, and especially its impact on India-China relations.

*China's New World Order* Li, Hak Y., 2021-12-03 This discerning book examines China's newly developed soft-intervention policy towards North Korea, Myanmar and the two Sudans by examining China's diplomatic statements and behaviours. It

also highlights the Chinese soft-intervention policy in economic manipulation and diplomatic persuasion in the recent generations of Chinese leadership under Hu Jintao and Xi Jinping.

### **China's Big Power Ambition Under Xi Jinping**

Suisheng Zhao, 2024 This collection focuses on two sets of forces. One is China's domestic politics and economic incentives and disincentives. The other is China's geo-political and geo-economic interests. These forces have both motivated and constrained China's big power ambition.

**Middle Class Shanghai** Cheng Li, 2021-05-11 The United States may be headed toward a disastrous conflict with China unless Washington updates its understanding of contemporary Chinese society. After four decades of engagement, the United States and China now appear to be locked on a collision course that has already fomented a trade war, seems likely to produce a new cold war, and could even result in dangerous military conflict. The current deterioration of the bilateral relationship is the culmination of years of disputes, disillusionment, disappointment, and distrust between the two countries. Washington has legitimate concerns about Beijing's excessive domestic political control and aggressive foreign policy stances, just as Chinese leaders believe the United States still has futile designs on blocking their country's inevitable rise to great-power status. Cheng Li's *Middle Class Shanghai* argues that American policymakers must not lose sight of the expansive dynamism and diversity in present-day China. The caricature of the PRC as a monolithic Communist apparatus set on exporting

its ideology and development model is simplistic and misguided. Drawing on empirical research in the realms of higher education, avant-garde art, architecture, and law, this unique study highlights the strong, constructive impact of bilateral exchanges. Combining eclectic human stories with striking new data analysis, this book addresses the possibility that the development of China's class structure and cosmopolitan culture—exemplified and led by Shanghai—could provide a force for reshaping U.S.-China engagement. Both countries should build upon the deep cultural and educational exchanges that have bound them together for decades. The author concludes that U.S. policymakers should neither underestimate the role and strength of the Chinese middle class, nor ostracize or alienate this force with policies that push it toward jingoistic nationalism to the detriment of both countries and the global community. With its unique focus, this book will enlighten policymakers, scholars, business leaders, and anyone interested in China and its increasingly fraught relations with the United States.

**People, Communities, and the Catholic Church in China** Cindy Yik-yi Chu, Paul P. Mariani, 2020-01-02  
This book explores the Chinese Catholic Church as a whole as well as focusing on particular aspects of its activities, including diplomacy, politics, leadership, pilgrimage, youths, and non-Chinese Catholics in China. It discusses Sino-Vatican relations and the rationale behind the decisions taken by Pope Francis with regard to the appointment of bishops in China. The book also

examines important changes and personalities in the Chinese Church, the Catholic organizations, and the Catholic communities in the Church, offering a key read for researchers and graduate students studying the Chinese Catholic Church, the Church in Asia, and religion in contemporary China.

*Chinese Social Media* Shuhan Chen, Peter Lunt, 2021-04-02 This book examines the social media experiences of middle class Chinese adolescents. Their enthusiasm for self-expression online, their mediated social relations (guanxi) with family, friends, classmates and colleagues are analysed in the context of China's modernity.

The Power of Relationalism in China Leah Zhu, 2018-02-15 In the 21st century, China has become impossible to ignore. At the same time, a vast array of perceptions and judgments of China's actions and future have arisen. The confusion, Leah Zhu postulates, is explained by decades of traditional modus operandi, which began in the Maoist Era and misconceives China as a 'collectivist' culture. This book, however, seeks to re-explore thousands of years of China's history to demonstrate the country's adherence to an alternative principle, 'relationalism'. Tracing the pervasive power of 'relationalism' before and after Maoism, it examines the major aspects of Chinese culture, including politics, sociology, psychology and diplomacy. In doing so, it reveals the power of 'relationalism' as the core frame of reference behind contemporary Chinese beliefs and practices. Furthermore, armed with this newly established framework, this book ultimately

provides a helpful analysis of China's past political, economic, and judiciary reforms and of how they are faring under the control of the current regime. Featuring extensive evidence and analysis of Chinese culture from ancient rites through to the 21st century, this book will be invaluable to students and scholars of Chinese culture, politics and society. It will also appeal to social scientists and sociologists more broadly.

**Contemporary Chinese Discourse and Social Practice in China** Linda Tsung, Wei Wang, 2015-10-09  
Significant socio-political changes in China have had great impact on Chinese discourse. Changes to the discourse have become an increasing focus of scholarship. This book examines contemporary Chinese discourse and social practice in China with a focus on the role that language plays in the on-going transformation of Chinese society. With a view to producing new insights into the interdependence between discourse and social practice, this volume explores how discourse has been changing in a context-dependent way; how social practice can lead to shifts in the use of discourse; and how identities and attitudes are constructed through language use. Largely based on empirical studies, this book indicates that Chinese discourse has not only been an integral part of social change, but also Chinese discourse itself is changing, reflecting ideologies, values, attitudes, identities and social practice. The book is a great resource for scholars in diverse disciplinary studies including linguistics, communication, education, media and political

studies concerning contemporary China.

Challenges to China's Economic Statecraft Yi Edward Yang, 2019-08-09 This book presents a comprehensive assessment of China's economic statecraft and its challenges. The contributors explore the various factors and dynamics that determine the effectiveness of China's effort to turn its wealth into global power.

The Chinese Pursuit of Happiness Becky Yang Hsu, Richard Madsen, 2019-09-24 What defines happiness, and how can we attain it? The ways in which people in China ask and answer this universal question tell a lot about the tensions and challenges they face during periods of remarkable political and economic change. Based on a five-year original study conducted by a select team of China experts, *The Chinese Pursuit of Happiness* begins by asking if Chinese citizens' assessment of their life is primarily a judgment of their social relationships. The book shows how different dimensions of happiness are manifest in the moral and ethical understandings that embed individuals in specific communities. Vividly describing the moral dilemmas experienced in contemporary Chinese society, the rituals of happiness performed in modern weddings, the practices of conviviality carried out in shared meals, the professional tensions confronted by social workers, and the hopes and frustrations shared by political reformers, the contributors to this important study illuminate the causes of anxiety and reasons for hope in China today.

**Justice** Flora Sapio, Susan Trevaskes, Sarah Biddulph, Elisa Nesossi, 2017-07-27 Claims about a

pursuit of justice weave through all periods of China's modern history. But what do authorities mean when they refer to 'justice' and do Chinese citizens interpret justice in the same way as their leaders? This book explores how certain ideas about justice have come to be dominant in Chinese polity and society, and how some conceptions of justice have been rendered more powerful and legitimate than others. This book's focus on 'how' justice works incorporates a concern about the processes that lead to the making, un-making and re-making of distinct conceptions of justice. Investigating the processes and frameworks through which certain ideas about justice have come to the political and social forefront in China today, this innovative work explains how these ideas are articulated through spoken performances and written expression by both the party-state and its citizenry.

### **China's Change: The Greatest Show On Earth**

Peyman Hugh, 2018-03-12 China's Change injects timely, original ideas into the world's most important, if confused, debate over how to manage the twin challenges of anaemic economic growth and accelerating global disruption. Change is the cry from the US to Europe, Asia to Australasia. The snag is the West has no playbook to help. China however, to regain control of its future, has regularly reinvented itself by understanding change's nature through traditional philosophy. This book argues it is time to Look to China but stresses China's approach to managing change only supplies the process not individual policies: the how not the what. Policies have to be created

locally. In managing change, traditional thought is China's X-Factor, the key to China's record-breaking economic transformation. To grasp this, China's Change provides an understanding of China's past, present and future through its philosophy, history, economics, business, politics, prospects and impact in a way that no other book has done. Two big global questions are answered. Can other countries, firms and individuals find paths out of their dim twilight by adapting China's change process? Can China continue to create one-third of world growth, more than the US, EU and Japan combined, to help cure the last decade's global economic malaise? China's roadmap for change enables anyone to navigate growing global disruption. Ironically China's process is built on such ignored-in-the-West ideas as long-term thinking, clear priorities, gradualism and non-ideological pragmatism that earlier powered two centuries of Western economic dominance. If the West and rest of Asia learn from China to manage change, the next global surprise could be another turning of the tables. There is no end to history, only more turns of the wheel: for now China's Change is again the Greatest Show on Earth. Contents: China and an Increasingly Disrupted World Change, the Chinese Principle and the Greatest Show on Earth History, Philosophy, Strategy and Governance 20 Essential Ideas for Life, Family, Business and Government Pivots of Change Managing Change: China's X-Factor The Overseas Connection Wen's Xun and Wenzhou Theatre Battling within the Party for Change Why Many Misunderstand China Why China's Economy is

**The Zoomorphic Imagination in Chinese Art and Culture** Jerome Silbergeld,Eugene Y. Wang,2016-10-31 China has an age-old zoomorphic tradition. The First Emperor was famously said to have had the heart of a tiger and a wolf. The names of foreign tribes were traditionally written with characters that included animal radicals. In modern times, the communist government frequently

referred to Nationalists as “running dogs,” and President Xi Jinping, vowing to quell corruption at all levels, pledged to capture both “the tigers” and “the flies.” Splendidly illustrated with works ranging from Bronze Age vessels to twentieth-century conceptual pieces, this volume is a wide-ranging look at zoomorphic and anthropomorphic imagery in Chinese art. The contributors, leading scholars in Chinese art history and related fields, consider depictions of animals not as simple, one-for-one symbolic equivalents: they pursue in depth, in complexity, and in multiple dimensions the ways that Chinese have used animals from earliest times to the present day to represent and rhetorically stage complex ideas about the world around them, examining what this means about China, past and present. In each chapter, a specific example or theme based on real or mythic creatures is derived from religious, political, or other sources, providing the detailed and learned examination needed to understand the means by which such imagery was embedded in Chinese cultural life. Bronze Age taotie motifs, calendrical animals, zoomorphic modes in Tantric Buddhist art, Song dragons and their painters, animal rebuses, Heaven-sent auspicious horses and foreign-sent tribute giraffes, the fantastic specimens depicted in the Qing Manual of Sea Oddities, the weirdly indeterminate creatures found in the contemporary art of Huang Yong Ping—these and other notable examples reveal Chinese attitudes over time toward the animal realm, explore Chinese psychology and patterns of imagination, and explain some of the

critical means and motives of Chinese visual culture. The Zoomorphic Imagination in Chinese Art and Culture will find a ready audience among East Asian art and visual culture specialists and those with an interest in literary or visual rhetoric. Contributors: Sarah Allan, Qianshen Bai, Susan Bush, Daniel Greenberg, Carmelita (Carma) Hinton, Judy Chungwa Ho, Kristina Kleutghen, Kathlyn Liscomb, Jennifer Purtle, Jerome Silbergeld, Henrik Sørensen, and Eugene Y. Wang.

Dreadful Desires Charlie Yi Zhang, 2022-02-07 In Dreadful Desires Charlie Yi Zhang examines how the Chinese state deploys affective notions of love to regulate the population and secure China's place in the global economy. Zhang shows how the state frames love as a set of desires that encompass heteronormative intimacy, familial and communal attachment, upward mobility, and private property ownership. These desires—as circulated in performance in the nationalistic ceremony, same-sex romantic fan fiction, the wildly popular reality television dating show *If You Are the One*, and the cult of patriarchal personality around Xi Jinping—are explicitly based in oppressive systems of gender, class, and sexuality. Zhang contends that such desires connect love to economic survival and gender normativity in ways that underwrite Chinese neoliberalism at the expense of individual flourishing. By outlining how state-framed forms of love create desires that cannot be fulfilled, Zhang places China at the forefront of using affective attachments to nation, leader, and family in the global shifts toward exploitation and authoritarianism.

*China and Multilateralism* Yuan Feng, 2020-04-30

This book thoroughly analyzes China's political ideas regarding the international order and their reflection in China's engagement in multilateralism. It introduces the debates and discussions that take place among Chinese intellectuals in the study of international relations as an important part of non-western international relation theories, generating reflections on the convergences and divergences between China's political ideas and Europe-centric perspectives. With a focus specifically on China's main bilateral and multilateral relations in its principal regions of interest – East Asia and Central Asia – the book also examines China's relationship with the United States, Russia, and the European Union, and the One Belt One Road initiative drawing on a mixture of primary and secondary Chinese language sources, extensive interviews with Chinese officials, academics, and think tanks. This book will be of key interest to scholars and students of Chinese politics/studies, foreign policy analysis, Asian studies, and international relations.

### **Language Ideology and Order in Rising China**

Minglang Zhou, 2018-12-18 This text considers contemporary China's language ideology and how it supports China as a rising global power player. It examines the materialization of this ideology as China's language order unfolds on two front, promoting Putonghua domestically and globally, alongside its economic growth and military expansion. Within the conceptual framework of language ideology and language order and using PRC

policy documents, education annals, and fieldwork, this book explores how China's language ideology is related to its growing global power as well as its domestic and global outreaches. It also addresses how this ideology has been materialized as a language order in terms of institutional development and support, and what impact these choices are having on China and the world. Focusing on the relationship between language ideology and language order, the book highlights a closer and coherent linguistic association between China's domestic drive and global outreach since the turn of the century.

*Aging Welfare and Social Policy* Tian-kui Jing, Stein Kuhnle, Yi Pan, Sheying Chen, 2019-04-16  
This perceptive volume presents conceptual, theoretical, and empirical approaches to social policy analysis comparing China and Nordic countries in their treatment of the elderly. An international panel of experts offers valuable policy insights into issues of housing, community care, family care, pensions and social security, and mental health as China translates and adapts Western examples, particularly those set by Norway, Sweden, and Finland. The book contrasts shared issues in the contexts of economic history, accountability and service improvements, and sustainability while also examining specifically Chinese problems such as care gaps between urban and rural elders. Coverage also considers the centrality of aging policy in China as the nation works toward its long-term goal of eradicating poverty. Included among the topics: Building a welfare system with Chinese characteristics: from

a residual type to moderate universalism. "Aging in community": historical and comparative study of aging welfare and social policy. Sweden: aging welfare and social policy in the 21st century. Policy responses to aging: care services for the elderly in Norway. China's elderly care policy and its future trends. Aging Welfare and Social Policy will interest professionals and researchers addressing questions of Chinese and comparative social policy, health psychologists, and sociologists focused on family, youth, and aging.

China's Achilles' Heel Srikanth

Thaliyakkattil, 2019-06-24 This book analyses Chinese discourse on Indian attitudes towards the Belt & Road Initiative (BRI), and argues that the Indian discourse is becoming one of the biggest hurdles to China creating its own narrative about China's rise in Asia and beyond. In doing so, it spans across the themes of the power struggle between China and US, China and India, the Chinese perception of India, China-South Asia relations, the China-US- India strategic triangle and the success and failures of BRI. The first part of the book focuses on the Chinese thinking behind the launch of the BRI and addresses questions related to the purpose of this initiative and ways in which it will facilitate China's rise as a superpower. Subsequently the book addresses how effective or ineffective India's challenge is and how it is negatively affecting China's BRI.

The Souls of China Ian Johnson, 2018-03-06 One of the Best Books of the Year: The Economist, The Christian Science Monitor China is in the midst of one of the world's great spiritual awakenings:

some 300 million Chinese currently practice a faith, while tens of millions more follow personal gurus, populist masters and New Age sages. This astonishing revival began in 1982 when the Communist Party pledged to allow what it thought would be a small-scale practice of religion under government supervision. But the faithful have expanded far beyond the Party's expectations: Today, China's cities and villages are filled with new temples, churches, and mosques as well as cults, sects and politicians trying to harness religion for their own ends. Fueling this resurgence is a popular desire to rediscover a moral compass in a society driven by naked capitalism. For six years, Pulitzer Prize-winning writer Ian Johnson lived for extended periods with three religious communities: the underground Early Rain Protestant congregation in Chengdu, the Ni family's Buddhist pilgrimage association in Beijing, and yinyang Daoist priests in rural Shanxi. Johnson distills these experiences into a cycle of festivals, births, deaths, detentions, and struggle that reveals the hearts and minds of the Chinese people—a great awakening of faith that is shaping the soul of the world's newest superpower.
