Towards Sustainable Food Production in Africa Morris Fanadzo,Nothando Dunjana,Hupenyu Allan Mupambwa,Ernest Dube,2023-07-10 This edited book is focused on Sustainable Development Goal 2. It offers a comprehensive and topical collection of practices, technologies and innovations in the field of sustainable food production and security under a changing climate. It is a one-stop handbook for farmers, researchers, extensionists, policy makers and other stakeholders seeking to identify and disseminate best fit technologies for local and regional landscapes. It offers an understanding of the challenges, risks and uncertainties as well as opportunities to foster productive and sustainable food production. Smallholder farming and agriculture in general is facing a serious threat from climate change that has resulted in erratic and unpredictable rainfall and increased temperatures, among other abiotic stresses. These climate change induced pressures have reduced productivity mainly among the smallholder farmers, who are critical in driving the attainment of sustainable development goals like SDG 2, 12 and 13. The objective of the book is to document effective and practicable practices and technologies that can be adopted by smallholder African farmers as mitigation measures against the effects of climate change. This book is of interest to researchers, agricultural scientists, climate change scientists, capacity builders and policymakers.

The Gift of Self Maria Pia Campanella,2015-07-01 These pages were written by one hand and many hearts ... by separated spouses faithful to the sacrament because they are convinced this total gift of self is not an anachronism imposed by the Church to be accepted with patient resignation, but a path of sanctification lived out in the joyous paradox of the Gospel. This book, besides offering numerous points for reflection on the theme of separation, proposes a true and proper path subdivided into stages for groups of people who, living with the suffering of a spouse's separation, wish to remain faithful to the sacrament of their marriage. Among the many suggested prayers and meditations, one in particular, the renewal of the Yes, has captured the attention of many churches both at home and abroad. The Marriage Vows Renewal, included in the last stage, is promulgated by the Pontifical Council of the Family. The United States Conference of Catholic Bishops published a recommendation for the book on their Marriage Resource Center: The greatest strength of Campanella's book is her articulation of the vocation of the separated person to live out his or her marriage vows as a particular witness of God's eternal love for fallen humanity, and the practical path she offers to the realization of this call. Although she does not include personal details of her own situation, it is apparent that Campanella has walked this path herself. This imbues a sense of hope and inspiration to the reader.
