My Return Jack Henry Abbott,Naomi Zack,1987 My Return is sure to provoke intense public discussion and controversy. The author, Jack Henry Abbott, is now serving a fifteen-years-to-life sentence for the 1981 stabbing of Richard Adan, a young night manager of the Binibon Cafe on Manhattan's Lower East Side. Only six weeks before killing Adan, Abbott had been paroled from Marion Federal Prison in Illinois at the age of thirty-seven. While in prison, he had become well known as a promising writer, encouraged in his work by Norman Mailer and other New York literati. Abbott's In the Belly of the Beast was released at the time of his parole and was widely heralded as a major literary achievement. Except for a short-lived escape from prison in 1971, Abbott had been incarcerated in one institution or another since he was thirteen years old. His parole placed him in another potentially violent environment, but one that had a completely different set of rules. He has consistently maintained that he thought Richard Adan was carrying a knife and that his attack on Adan was the result of that perception. Naomi Zack, who has a Ph.D. in philosophy from Columbia University, became interested in the Abbott case while doing research for a film on the victims of crime and of the criminal justice system. She is convinced that Abbott was unfairly convicted by an outraged public opinion inflamed by sensational treatment in the media. My Return is Jack Abbott's and Naomi Zack's story of the death of Richard Adan, the ensuing trial, and Abbott's return to prison. It is comprised of The Death of Tragedy, a play based on the actual court records; an illustrated appendix giving stage directions and the background of the issues and people involved; and Men of Letters, a collection of Abbott's essays on a variety of topics - religious, philosophical, historical, and literary - including an autobiographical account of his tragic life. It is an absorbing and undeniably fascinating work. Although it is his story, Jack Henry Abbott receives no royalties or any other remuneration from the publication of this book.

Creating Strategic Value through Financial Technology Jay D. Wilson, Jr.,2017-04-17 Lessons in innovation from key FinTech trends and successes Creating Strategic Value through Financial Technology explores the growing Financial Technology (FinTech) industry to provide insight on how traditional financial institutions and FinTech companies can boost innovation and enhance valuation in a complex regulatory environment. In plumbing the depth and breadth of several niches within in the FinTech sector, author Jay Wilson uncovers key themes that have contributed to the industry's success; in this book, he maps them together to provide useful guideposts for investors, entrepreneurs, and traditional institutions looking to facilitate growth as technology and financial services collide. With an expert's perspective on FinTech history and outlook, certain trends and examples of value-enhancing strategies stand out. FinTech niches covered include: payments, crowdfunding, alternative/marketplace lending, the blockchain, and technology solutions in the context of banking, insurance, and investment companies. There is no denying the growing importance of technology in the financial services industry, and the FinTech sector offers valuable solutions for a diverse array of financial services providers and their customers. This book guides you through several niches of the FinTech sector, and highlights the most important takeaways from recent endeavors. Navigate the financial technology sector Enhance customer and product offerings Improve efficiency and cost structure Enhance profitability and company valuation from the intersection of technology and finance Innovation and customer preference is a key driver of FinTech's growth. Customers are demanding better value and convenience, and the organizations that provide it are reaping the rewards of growth. As financial regulations grow more and more complex, and customers are presented with more and more options, it is becoming imperative for traditional institutions to modernize processes and carve out a place in the future of financial services. Creating Strategic Value through Financial Technology provides a handbook for navigating that space, with practical guidance on how FinTech companies and traditional financial institutions can enhance profitability and valuation from the trends.

Content Strategy Rahel Anne Bailie,Noz Urbina,2013-01-15 If you've been asked to get funding for a content strategy initiative and need to build a compelling business case, if you've been approached by your staff to implement a content strategy and want to know the business benefits, or if you've been asked to sponsor a content strategy project and don't know what one is, this book is for you. Heads or Tails Jack Gantos,1994-06-01 From the Newbery Medal-winning author of Dead End in Norvelt, eight more hysterical semi-autobiographical Jack Henry stories about a sixth grader's trials and tribulations Jack's life is a crazy roller-coaster ride. At his fifth school in six years, he has a crackpot teacher who won't give him a break about his lousy handwriting and a secret crush who wants to be a policewoman. At home, he has a pesky little brother with a knack for getting hurt whenever Jack's supposed to be looking after him, a terror for an older sister, all sorts of weird neighbors, and, last but not least, ferocious alligators in the canal behind his house. Writing in his diary about his good days and bad days is one way Jack survives his up-and-down year. But he's also a kid who knows that life can go any which way at any given moment. He might as well flip a coin: heads he wins, tails he loses. What will turn up next? A Common Core title.

The Jack Henry Saga ... Complete David Shepard,2016-08-16 We first met Jack Henry in the story 'They don't know Jack'. We saw how the Lottery changed not only his life but his family and friends lives forever. We followed him through his adventures in 'Summer Heat' as he got to know his new wife, Abigail as their families joined together. Now we follow Jack through the last chapter in his saga as around every corner, a surprise awaits. Watch how his faith changes not only the people he meets but an entire nation, as he takes us on an unlikely run for the Presidency. Jack shows America why our forefathers chose the motto In God we Trust as our national motto and what God can do when he's asked to get involved. This is not a book about religion but rather a book about a man that faces the same everyday issues we all face. He knows God but comes to realize he is never alone. God is always there in every event in your life if you just take a second and listen for him.

Modeling for Decision Support in Network-Based Services Daniel Dolk,Janusz Granat,2012-01-11 This book originated from several recent workshops and related activities conducted by the IFIP Working Group 7.6 on Optimization-Based Computer Aided Modeling and Design. This group has been active for 20 years with the stated objective of developing "high-performance computer-aided systems to support modeling, decision analysis, optimization and multi-criteria decision making." Recently, the group has turned its attention to the application of modeling and optimization to service science, management and engineering (SSME). SSME is still a young research field searching for its theoretical underpinnings, and one which offers many opportunities for analytical modeling to not only advance the understanding, but also to help form the foundation of a new discipline. This book is the result of the group's introductory foray into the application of quantitative modeling to the nascent field of service science with special emphasis on the network aspects of services. The 11 papers presented are grouped into sections on Network Science, Computational and Analytical Modeling, and Knowledge Science. They showcase the value of modeling in a new and timely context and provide many seeds for further exciting research.
