*Imagining the Middle East* Matthew F. Jacobs, 2011 As its interests have become deeply tied to the Middle East, the United States has long sought to develop a usable understanding of the people, politics, and cultures of the region. In *Imagining the Middle East*, Matthew Jacobs illuminates how Ameri

**The Space of Opinion** Ronald N. Jacobs, Eleanor Townsley, 2011-10-06 While the newspaper op-ed page, the Sunday morning political talk shows on television, and the evening cable-news television lineup have an obvious and growing influence in American politics and political communication, social scientists and media scholars tend to be broadly critical of the rise of organized punditry during the 20th century without ever providing a close empirical analysis. What is the nature of the contemporary space of opinion? How has it developed historically? What kinds of people speak in this space? What styles of writing and speech do they use? What types of authority and expertise do they draw on? And what impact do their commentaries have on public debate? To describe and analyze this complex space of news media, Ronald Jacobs and Eleanor Townsley rely on enormous samples of opinion collected from newspapers and television shows during the first years of the last two Presidential administrations. They also employ biographical data on authors of opinion to connect specific argument styles to specific types of authors, and examine the distribution of authors and argument types across different formats. The result is a close mapping that reveals a massive expansion and differentiation of the opinion space. It tells a complex story of shifting intersections between journalism, politics, the academy, and the new sector of think tanks. It also reveals a proliferation of genres and forms of opinion; not only have the people who speak within the space of opinion become more diverse over time, but the formats of opinion-claims to authority, styles of speech, and modes of addressing publics- have also become more varied. Though Jacobs and Townsley find

many changes, they also find continuities. Despite public anxieties, the project of objective journalism is alive and well, thriving in the older, more traditional formats, and if anything, the proliferation of newer formats has resulted in an intensified commitment (by some) to core journalistic values as clear points of difference that offer competing logics of distinction and professional justification. But the current moment does represent a real challenge as more and different shows compete to narrate politics in the most compelling, authoritative, and influential manner. By providing the first systematic study of media opinion and news commentary, *The Space of Opinion* will fill an important gap on research about media, politics, and the civil society and will attract readers in a number of disciplines, including sociology, communication, media studies, and political science.

*Media in Postapartheid South Africa* Sean Jacobs, 2019-03-11 In *Media in Postapartheid South Africa*, author Sean Jacobs turns to media politics and the consumption of media as a way to understand recent political developments in South Africa and their relations with the African continent and the world. Jacobs looks at how mass media define the physical and human geography of the society and what it means for comprehending changing notions of citizenship in postapartheid South Africa. Jacobs claims that the media have unprecedented control over the distribution of public goods, rights claims, and South Africa's integration into the global political economy in ways that were impossible under the state-controlled media that dominated the apartheid years. Jacobs takes a probing look at television commercials and the representation of South Africans, reality television shows and South African continental expansion, soap operas and postapartheid identity politics, and the internet as a space for reassertions and reconfigurations of identity. As South Africa becomes more integrated into the global economy, Jacobs argues that local media

have more weight in shaping how consumers view these products in unexpected and consequential ways.

Please note: This is a summary & not the original book. Jane Jacobs' The Death and Life of Great American Cities examines the complex social and urban fabric of cities, emphasizing the importance of vibrant streets, diverse communities, and local self-governance. She critiques the failures of urban renewal, which often exacerbates safety and community issues by misunderstanding the role of public spaces and informal surveillance. Jacobs highlights the significance of eyes on the street, where businesses and pedestrian activity contribute to safety and community trust...

**Social Media, Parties, and Political Inequalities** Kristof Jacobs,Niels Spierings,2016-01-05 This book examines how social media have transformed politics in established democracies. Specifically, the authors examine the influence of the unique qualities of social media on the power balance between and within parties. They present a general theory as well as an in-depth case study of the Netherlands and compare it to the US and European democracies. The authors show how and why social media's introduction leads to equalization for some and normalization for others. Additional to national politics, Jacobs and Spierings investigate often-overlooked topics such as local and European

politics and the impact on women and ethnic minorities.

*Summary of Jane Jacobs's The Death and Life of Great American Cities* Everest Media,2022-03-27T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 Sidewalks and streets in cities serve many purposes besides carrying vehicles, and city sidewalks serve many purposes besides carrying pedestrians. These uses are bound up with circulation, but are not identical with it. #2 The public peace of cities is not kept primarily by the police. It is kept primarily by an intricate network of voluntary controls and standards among the people themselves, and enforced by the people themselves. #3 The problem of insecurity cannot be solved by spreading people out more thinly. The truth is that, being a city, Los Angeles is composed of strangers who are not all nice. thinning out a city does not make it safer from crime and fear of crime. #4 Within the same city, there are drastic differences in public safety. A well-used city street is safe, while a deserted city street is not. The reason is that a well-used city street is full of people, while a deserted city street is not.

Media,2022-05-10T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 I was eight years old and living on our family's small farm in northeastern Missouri when I saw Baron von Raschke on TV. He was a villainous German who resembled Freddy Krueger. I would later find out that professional wrestling, which evolved into what we know today as sports entertainment, had a significant impact on my life. #2 My parents got married shortly after high school. My father served in the Navy for ten years, seeing action during the Korean War on the aircraft carrier USS Antietam. He later switched services to the Air Force. #3 I was the family athlete, unlike my brother Bryan, who was a gifted mechanic. I never experienced the military lifestyle, but I did grow up on a farm in Missouri. The rock in the meadow near our house was a meteorite, and my parents wanted to send it to the University of Missouri. #4 I was mortified when I was in third grade, when I saw that my sister Becky had a cow named after her. She had graduated high school and was attending the University of Missouri at Columbia. She eventually earned a PhD in history.

**How to Think** Alan Jacobs, 2017-10-17 Absolutely splendid . . .

essential for understanding why there is so much bad thinking in political life right now. —David Brooks, New York Times *How to Think* is a contrarian treatise on why we're not as good at thinking as we assume—but how recovering this lost art can rescue our inner lives from the chaos of modern life. As a celebrated cultural critic and a writer for national publications like *The Atlantic* and *Harper's*, Alan Jacobs has spent his adult life belonging to communities that often clash in America's culture wars. And in his years of confronting the big issues that divide us—political, social, religious—Jacobs has learned that many of our fiercest disputes occur not because we're doomed to be divided, but because the people involved simply aren't thinking. Most of us don't want to think. Thinking is trouble. Thinking can force us out of familiar, comforting habits, and it can complicate our relationships with like-minded friends. Finally, thinking is slow, and that's a problem when our habits of consuming information (mostly online) leave us lost in the spin cycle of social media, partisan bickering, and confirmation bias. In this smart, endlessly entertaining book, Jacobs diagnoses the many forces that act on us to prevent thinking—forces that have only worsened in the age of Twitter, “alternative facts,” and information overload—and he also dispels the many myths we hold about what it means to think well. (For example: It's impossible to “think for yourself.”) Drawing on sources as far-flung as novelist Marilynne Robinson, basketball

legend Wilt Chamberlain, British philosopher John Stuart Mill, and Christian theologian C.S. Lewis, Jacobs digs into the nuts and bolts of the cognitive process, offering hope that each of us can reclaim our mental lives from the impediments that plague us all. Because if we can learn to think together, maybe we can learn to live together, too.

**Active Literacy Across the Curriculum** Heidi Hayes Jacobs, 2017-09-25 Help students become more confident and successful readers, writers, and thinkers in today's world. In this new edition of a bestseller, highly acclaimed author and speaker Heidi Hayes Jacobs offers practical ideas for closing the literacy gap by teaching classic literacies (reading, writing, speaking, and listening) along with essential new literacies (digital, media, and global). The expanded second edition features Heidi's latest work on the new literacies and provides enhanced versions of strategies designed to help educators integrate critical language skills into their daily operational curriculum. These strategies include: Revising and expanding the role of all teachers so that they see themselves as classical language and contemporary literacy teachers; Separating vocabulary into three distinctive types with distinctive instructional approaches to sustain and extend independent language development; Building creative and visual notetaking and sketchnoting strategies; Designing media projects for every class level and employing a consistent editing and revision policy for writing assignments; Using a formal approach to develop speaking skills through four discussion types to increase civil public discourse; Employing direct technical instruction that promotes the use of the human voice and body as a speaking and communication instrument; Using Curriculum Mapping to develop formal benchmark assessments for active literacy and new literacy cultivation in every subject and on every level. Each chapter is focused on a specific strategy and includes practical examples so you can easily implement the ideas, no matter what grade level or subject area you teach.

The Year of Living Constitutionally A.J. Jacobs, 2024-05-07 The New York Times bestselling author of *The Year of Living Biblically* attempts to follow the original meaning of the Constitution in search of answers to one of the most pressing issues of our time: How should we interpret America's foundational document? A.J. Jacobs learned the hard way that donning a tricorne hat and marching around Manhattan with a 1700s musket will earn you a lot of strange looks. In the wake of several controversial rulings by the Supreme Court and the on-going debate about how the Constitution should be interpreted, Jacobs set out to understand what it means to live by the Constitution. In *The Year of Living Constitutionally*, A.J. Jacobs tries to get inside the minds of the Founding Fathers by living as closely as possible to the original meaning of the Constitution. He asserts his right to free speech by writing his opinions on parchment with a quill and handing them out to strangers in Times Square. He consents to quartering a soldier, as is his Third Amendment right. He turns his home into a traditional 1790s household by lighting candles instead of using electricity, boiling mutton, and—because women were not allowed to sign contracts—feebly attempting to take over his wife's day job, which involves a lot of contract negotiations. The book blends unforgettable adventures—delivering a handwritten petition to Congress, applying for a Letter of Marque to become a legal pirate for the government, and battling redcoats as part of a Revolutionary War reenactment group—with dozens of interviews from constitutional experts from both sides. Jacobs dives deep into originalism and living constitutionalism, the two rival ways of interpreting the document. Much like he did with the Bible in *The Year of Living Biblically*, Jacobs provides a crash course on our Constitution as he experiences the benefits and perils of living like it's the 1790s. He relishes, for instance, the slow thinking of the era, free from social media alerts. But also discovers the progress we've made since 1789 when married women couldn't own property. Now more than ever, Americans need to understand the

meaning and value of the Constitution. As politicians and Supreme Court Justices wage a high-stakes battle over how literally we should interpret the Constitution, A.J. Jacobs provides an entertaining yet illuminating look into how this storied document fits into our democracy today.
