Fighters Over Malta Brian Cull,Frederick Galea,2018-08-17 All known combat claims and lossesMany personal accounts and memories of the battleIllustrated with new and rarely seen photographs Brian Cull and Frederick Galea’s definitive *Fighters over Malta: Gladiators and Hurricanes 1940-1942* is a highly-detailed account of the gallant band of RAF and Commonwealth pilots who flew in defence of Malta between June 1940 and April 1942, when help in the guise of Spitfires finally arrived. Most of the Hurricanes, which held this tiny outpost of the British Empire in the heart of Axis-dominated territory, had been flown from the decks of aircraft carriers or from bases in North Africa, while a handful of fighter pilots arrived by Sunderland flying boats or other aircraft in transit from the UK via Gibraltar. Many of these pilots were inexperienced and quickly paid the supreme price, particularly when Messerschmitt Bf 109 pilots of the elite 7/JG26 arrived in Sicily in early 1941, and later in the year when JG53 made their presence felt. Important personal diaries and journals have come to light, and these have been widely quoted to provide the atmospheric background and thoughts and hopes of Hurricane pilots who defended Malta. Not all diarists survived, but their impressions provide a fitting tribute to their courage, aspirations and fears. Much of the early period of the air defence of Malta is enhanced by the personal experiences of Flt Lt (then Sgt Plt) James Pickering AFC, who flew Hurricanes with 261 Squadron.

Italian Women at War Susan Amatangelo,2016-08-03 *Italian Women at War: Sisters in Arms* from Unification to the Twentieth Century offers diverse perspectives on Italian women’s participation in war and conflict throughout Italy’s modern history, contributing to the ongoing scholarly conversation on this topic. Part one of the book focuses on heroines who fought for Italy’s Unification and on the anti-heroines, or brigantesse, who opposed such a momentous change. Part two considers exceptional individuals, such as Eva Kühn Amendola, who combatted both with her body and her pen, as well as collective female efforts during the world wars, whether military or civilian. In part three, where the context is twentieth-century society, the focus shifts to those women engaged in less conventional conflicts who resorted to different forms of revolt, including active non-violence. All of the women presented across these chapters engage in combat to protest a particular state of affairs and effect change, yet their weapons range from the literal, like Peppa La Cannoniera’s cannon, to the metaphorical, like Letizia Battaglia’s camera. Several of the essays in this volume discuss fictional heroines who appear in works of literature and film, though all are based on actual women and reference real historical contexts. *Italian Women at War* furthers the efforts begun decades ago to recognize Italian women combatants, especially in light of the recent anniversary of the Unification in 2011 and global discussions regarding the role of women in the military. Its aim is not to glorify violence and war, but to celebrate the active role of Italian women in the evolution of their nation and to demystify the idea of the woman warrior, who has always been viewed either as an extraordinary, almost mythical creature or as an affront to the traditional feminine identity.

Reformation Europe, 1517-1559 Sir G. R. Elton,2016-08-09 A classic account of the Reformation, revealing the issues and preoccupations which seemed central to the age and portraying its leading figures with vigour and realism. The book is an analysis of the religious, economic, cultural and political history of Europe during the period of the Reformation. Author G. R. Elton examines the history of the period through the interrelationships between different forces in Europe at the time, such as the Holy Roman Emperor Charles V, the Papacy, reformers such as Martin Luther, John Calvin, Martin Bucer and Zwingli, and explores the resultant Counter-Reformation and the beginnings of European colonisation of other parts of the world such as South America. Its central focus is upon the conflict between Luther and Charles V. “A masterly survey by a fine historian. He has gone to great pains to understand and do justice to the theological side, and if political history is still his strength there is no doubt that this paperback in scholarship, perspective and information far outweighs in value and importance most of the hard-bound studies of the 16th century in the last fifty years.”—E. GORDON RUPP “It is extremely pleasant to welcome a new History of Europe series in which the inaugural volume is of such high merit. Dr. Elton sets himself a difficult task; the result is a book written with the bold, subtle, assured pen of an accomplished scholar.”—JOEL HURSTFIELD “Not since Ranke has any historian described the religious and political history of Central Europe during the Reformation with as much insight and authority.”—H. G. KOENIGSBERGER, *History* (London) “Dr. Elton has put all students in his debt by providing an up-to-date and highly readable account of the ecclesiastical, political, and social history of Europe during the vital years 1517 to 1559...This book can be unreservedly commended.”—C. W. DUGMORE, *The Journal of Ecclesiastical History*
