The "Calaveras" of Don Moisés Espino del Castillo Moisés Espino del Castillo,2015-04-30 This collection of “calaveras,” folk poetry in the Mexican tradition of Day of the Dead celebrations, satirizes public figures, reminding them that their time on earth is limited despite their fame. In addition to the replicas of the “calaveras” originally published in newspapers and magazines, this volume includes background information about this particular poetic genre, biographical information and interviews with Don Moisés and analysis of the poetry. No one escaped Espino’s eye, including Richard Nixon, Fidel Castro and Muhammad Ali! Compiled and edited by University of Texas at San Antonio professor Ellen Clark, this ebook contains Espino’s complete collection.

The Night Stalker Philip Carlo,2013-04-02 We've all got the power in our hands to kill, but most people are afraid to use it. The ones who aren't afraid control life itself.--Richard Ramirez Ten years after the murder spree that left thirteen people dead and paralyzed the city of Los Angeles with fear, his name is synonymous with Satanism, torture and sadistic murder. Yet despite the sensational nature of his crimes, no one has ever been able to tell the complex story of the killer whose seductive, brooding looks still draw women like moths to a flame--a man millions call the devil himself. Until Now. . . Painstakingly researched over three years, based on nearly one hundred hours of exclusive interviews with Richard Ramirez on California's Death Row, The Night Stalker is the definitive account of America's most feared serial murderer. From Ramirez's earliest brushes with the law to his deadliest stalking expeditions to the unprecedented police and civilian manhunt that resulted in one of the most sensational trails in California history, The Night Stalker is an eerie and spellbinding descent into the very heart of human evil. It is more than epic nonfiction at its brutally real-it is a true crime masterpiece.

Corregidor, The Rock Force Assault, 1945 E.M. Flanagan, Jr.,2012-12-05 The two-week battle for Corregidor was complicated by the American's gross underestimation of enemy strength: expecting a few hundred demoralized defenders, they encountered more than 6,000 Japanese soldiers and marines deployed in tunnels and caves, every man dedicated to the Bushido code that dictated a fight to the death. As the dust was settling, MacArthur himself came ashore and was greeted by the commander of the victorious U.S. Army troops. 'Sir, ' said Col. George Jones, 'I present to you the Fortress Corregidor' -- a stirring conclusion to a dramatic and well-told story. -- Publishers Weekly

Legacy of Silence Flo Fitzpatrick,2014-07-01 She can't imagine a life without music... Even as a little girl, Miranda Nolan loved to sing and dance, especially for her reclusive neighbor, a woman who was more like a second mother. She never expected to inherit her mentor's estate and to have to put her career as a performer on hold. Even more confusing, she's found herself settling affairs with co-claimant Russ Gerik, an interpreter who lost his hearing in a tragic bombing and struggles to find his way in a now-silent world. Unimaginable. As the two work together to catalog the possessions of—and understand—a woman shrouded in mystery, they forge a powerful connection. But how long can their bond last when it's not built on trust?

The U.S. Naval Institute on Naval Innovation John E Jackson,2015-11-15 The new Naval Institute Wheel Books provide important information, pragmatic advice, and cogent analysis on topics important to all naval professionals. Drawn from the U.S. Naval Institute’s vast archives, the series combines articles from the Institute’s flagship publication Proceedings, selections from the oral history collection, and Naval Institute Press books to create unique guides on a wide array of fundamental professional subjects. Technological changes are inevitable, often of great benefit, and they must be understood by all maritime leaders. Since the Navy’s beginnings, it has created, adapted, rejected, and sometimes grudgingly accepted new technologies. This entry into the Wheel Book series considers the nature of technological innovation in the U.S. Navy, and it discusses the manner in which the Navy is currently adopting new technologies like robotic and autonomous systems, CYBER, and LASERS.

Between the Fences Tony Hefner,2011-01-04 Something at the Texas detention facility is terribly wrong, and Tony Hefner knows it. But the guards are repeatedly instructed not to speak of anything they witness. In the Rio Grande Valley, one of the most poverty-stricken areas in the United States, good jobs are scarce and the detention facility pays the best wages for a hundred miles. The guards follow orders and keep quiet. For six years, Tony Hefner was a security guard at the Port Isabel Service Processing Center, one of the largest immigration detention centers in America, and witnessed alarming corruption and violations of basic human rights. Officers preyed upon the very people whom they are sworn to protect. On behalf of the 1,100 men, women, and children residing there on an average day, and the 1,500 new undocumented immigrants who pass through its walls every month, this is the story of the systematic sexual, physical, financial, and drug-related abuses of detainees by guards.
