**Chinese Law: Context and Transformation** Jianfu Chen, 2015-12-22 This book examines the historical and politico-economic context in which Chinese law has developed and transformed, focusing on the underlying factors and justifications for changes. It attempts to sketch the main trends in legal modernisation in China.

**Theaters of Desire: Authors, Readers, and the Reproduction of Early Chinese Song-Drama, 1300–2000 P.** Sieber, 2003-07-17 Blending a flair for textual nuance with theoretical engagement, *Theaters of Desire* not only contributes to our understanding of the most influential form of early Chinese song-drama in local and international cultural contexts, but adds a Chinese perspective to the scholarship on print culture, authorship, and the regulatory discourses of desire. The book argues that, particularly between 1550 and 1680, Chinese elite editors rewrote and printed early plays and songs, so-called Yuan-dynasty zaju and sanqu , to imagine and embody new concepts of authorship, readership and desire, an interpretation that contrasts starkly with the national and racially-oriented reception of song-drama developed by European critics after 1735 and subsequently modified by Japanese and Chinese critics after 1897. By analyzing the critical and material facets of the early song and play tradition across different historical periods and cultural settings, *Theaters of Desire* presents a compelling case study of literary canon formation.

Representing History in Chinese Media Gotelind Müller, 2007 Historical TV dramas are a highly popular genre in the People's Republic of China and an important, contested factor in shaping historical consciousness of the populace. The monumental TV drama *Zou xiang gonghe* made a stir when aired by China Central Television in the spring of 2003. Because of its unconventional representation of the historically critical time-span 1890-1917, the TV drama sparked a heated discussion in the print media as well as in the internet, and was ultimately taken off the program. This book aims at presenting a synopsis of the TV drama, analysing its background and impact on society.

*The Semantics of Chinese Music* Adrian Tien, 2015-01-14 Music is a widely enjoyed human experience. It is, therefore, natural that we have wanted to describe, document, analyse and, somehow, grasp it in language. This book surveys a representative selection of musical concepts in Chinese language, i.e. words that describe, or refer to, aspects of Chinese music. Important as these musical concepts are in the language, they have been in

wide circulation since ancient times without being subjected to any serious semantic analysis. The current study is the first known attempt at analysing these Chinese musical concepts linguistically, adopting the Natural Semantic Metalanguage (NSM) approach to formulate semantically and cognitively rigorous explications. Readers will be able to better understand not only these musical concepts but also significant aspects of the Chinese culture which many of these musical concepts represent. This volume contributes to the fields of cognitive linguistics, semantics, music, musicology and Chinese studies, offering readers a fresh account of Chinese ways of thinking, not least Chinese ways of viewing or appreciating music. Ultimately, this study represents trailblazing research on the relationship between language, culture and cognition.

**The Treatment of Cardiovascular Diseases with Chinese Medicine** Simon Becker,Bob Flaws,Robert Casañas,2005

The Treatment of Modern Western Medical Diseases with Chinese Medicine Bob Flaws,Philippe Sionneau,2001 This book is a textbook and clinical manual on the treatment of modern Western medical diseases with Chinese medicine. By modern Western medical diseases, we mean all the disease categories of Western medicine excluding gynecology and pediatrics. By Chinese medicine, we mean standard contemporary professional Chinese medicine as taught at the two dozen provincial Chinese medical colleges in the People's Republic of China. The two main therapeutic modalities used in the practice of this style of Chinese medicine are acupuncture-moxibustion and the internal administration of multi-ingredient Chinese medicinal formulas. Treatment plans for each disease discussed herein are given for each of these two main modalities.

*Chinese-Soviet Relations, 1937-1945* John W. Garver,1988-09-08 During the Sino-Japanese war of 1937-1945, the Chinese people suffered great degradation at the hands of the Japanese. The spectacle of China's debasement as well as the very real prospect of the restoration of alien rule incensed nationalist passions throughout China. As the military, economic, and political crises deepened, three different Chinese regimes emerged--the Chinese Communist Party (CCP), Chinese Nationalist Party or Kuomintang (KMT), and the pro-Japanese government headed by Wang Jingwei--all competing for nationalist legitimacy. Through an exhaustive and meticulous examination of available resources, John Garver here illuminates the complicated relationship between these different variants in Chinese nationalism and the Soviet Union during this period. In doing so, Garver elucidates the diplomacy of Chiang Kai-shek and the Chinese Nationalists, the inner history of Chinese Communist relations with the Soviet Union, and the intersection of these two themes within the larger context of international relations in East Asia and the world.

*Chinese Materia Medica* Xu Li, 2002 This clearly written, comprehensively indexed, and reader-friendly manual contains more than 350 monographs -- each describing the functions, indications, combinations, and applications of commonly used Chinese Materia Medica. Comprehensive monographs contain: details of main ingredients, taste and nature, channels entered, functions and indications, common dosage, precautions and contraindications. Unique tabular format lists provide at-a-glance accessibility. Summary tables in each chapter help you obtain quick overviews of the material covered. Unique coverage on toxicity and legal status. Comprehensive list of appendices and indices -- listings are by pinyin, pharmaceutical, and English names for easy reference.

**Routledge Handbook of Modern Chinese Literature** Ming Dong Gu, 2018-09-03 The Routledge Handbook of Modern Chinese Literature presents a comprehensive overview of Chinese literature from the 1910s to the present day. Featuring detailed studies of selected masterpieces, it adopts a thematic-comparative approach. By developing an innovative conceptual framework predicated on a new theory of periodization, it thus situates Chinese literature in the context of world literature, and the forces of globalization. Each section consists of a series of contributions examining the major literary genres, including fiction, poetry, essay drama and film. Offering an exciting account of the century-long process of literary modernization in China, the handbook's themes include: Modernization of people and writing Realism, romanticism and modernist aesthetics Chinese literature on the stage and screen Patriotism, war and revolution Feminism, liberalism and socialism Literature of reform, reflection and experimentation Literature of Taiwan, Hong Kong and new media This handbook provides an integration of biographical narrative with textual analysis, maintaining a subtle balance between comprehensive overview and in-depth examination. As such, it is an essential reference guide for all students and scholars of Chinese literature.

**A General Theory of Ancient Chinese** Lihong Jiang, Mingshan Ren, 2023-04-21 This book systematically outlines the development of ancient Chinese. Consisting of 20 chapters, the self-contained work presents macro-level discussions on a broad range of topics, including: philology, phonology, exegetics, certain words' special meanings, sentence types, the flexible use of words, different grammars in ancient and modern times, and rhetoric. Though chiefly focusing on vocabulary, the book also addresses grammar, and points out grammar problems that differ considerably from those in

modern Chinese, in addition to combining morphology and syntax. Further, unlike the majority of textbooks on the subject, it pays more attention to the rhetoric used in ancient Chinese literary works. Rather than simply analyzing linguistic phenomena, the book also (and more importantly) provides a meaningful approach to the study of ancient Chinese. Accordingly, it offers a valuable asset for researchers, graduate students, and everyone else who is interested in ancient Chinese.

Cancer Inhibitors from Chinese Natural Medicines Jun-Ping Xu, 2016-11-25 Nature is an attractive source of therapeutic and preventive compounds, and with such chemical diversity found in millions of species of plants, over 60% of currently used anticancer agents are derived from natural sources. Cancer Inhibitors from Chinese Natural Medicines summarizes new advancements in the experimental and clinical research of a selection of promising cancer inhibitors. It focuses on the latest scientific investigations of 238 Chinese herbs and discusses important aspects, including the types of inhibitors in the herbs, level of potency, mechanisms, and the advances in modification and formulation. Formulations from nano-particulates and immunotoxins in cancer inhibitors are also included in this comprehensive resource.

*The Political Structure of the Chinese Community in Cambodia* W. E. Willmott, 2021-01-07 This field study of organized Chinese life in Cambodia, past and present, takes its place in the growing sociological literature on the overseas Chinese and, in a sense, transcends it. For it relates its conclusions on the evolution the structure of the Cambodian Chinese community to the evidence from other overseas Chinese communities, and moves on to a comparison between overseas Chinese social organization and the organization of cities in China. Cambodia, the overseas Chinese, and traditional China all stand illuminated.

**Eminent Chinese of the Qing Period** Arthur W. Hummel Sr., 2018-01-01 Eminent Chinese of the Qing Period was first developed under the auspices of the US Library of Congress during World War II. This much-loved work, edited by Arthur W. Hummel Sr., was meticulously compiled and unique in its scope, and quickly became the standard biographical reference for the Qing dynasty, which lasted from 1644 to 1911/2. Amongst the contributors are John King Fairbank, Têng Ssû-yü, L. Carrington Goodrich, C. Martin Wilbur, Fêng Chia-shêng, Knight Biggerstaff, and Nancy Lee Swann. The 2018 Berkshire edition contains the original eight hundred biographical sketches as well as the original front and back matter, including the preface by Hu

Shih, a scholar who had been China's ambassador to the United States. An introduction by Pamela Crossley places this classic work in historical context, and discusses its origins, authors and editors, themes, style, and contemporary relevance. Chinese names in English have been converted to the pinyin transcription system (changing the book's title from Ch'ing to Qing), but the traditional Chinese characters have been retained. Additional materials added by Berkshire include a general bibliography, a Wade-Giles to pinyin conversion table, and a list of Qing dynasty emperors. Arthur W. Hummel Sr. (1884–1975) was a missionary, sinologist, and the first director of the Orientalia Division at the Library of Congress. Pamela Crossley is a professor at Dartmouth College and a specialist on the Qing empire and modern Chinese history, as well as the software author and scholarly editor of the ECCP Reader, a digital companion to the original Eminent Chinese of the Ch'ing Period.

Under Confucian Eyes Susan Mann, Yu-Yin Cheng, 2001-10-20 This important volume adds a significant number of new and unique materials for teachers at all levels of higher education to use in classroom and seminar discussion about the issues of gender, society, and religion in imperial China.—Benjamin Elman, author of *A Cultural History of Civil Examinations in Late Imperial China* The eighteen primary documents in this anthology, all of them translated for the first time, provide a rich array of sources on the lives of women in China's past. The anthology is important not only for the selection of documents but for the ways it suggests we can think about, and find sources about, women in China. It is must reading for scholars and students alike.—Ann Waltner, author of *The World of a Late Ming Visionary: T'an-Yang-Tzu and Her Followers*

**Evidence-based Clinical Chinese Medicine - Volume 21: Type 2 Diabetes Mellitus** Yuan Ming Di, Lu Sun, 2023-02-17 Type 2 diabetes mellitus is a chronic progressive disease characterised by hyperglycaemia. It affects many people around the world and creates burden for the individual as well as the economy. Chinese medicine can be used to support the management of Type 2 diabetes mellitus symptoms. Chapter 1 of the book summarises the conventional understanding of Type 2 diabetes mellitus, including aetiology, diagnosis and current available treatments. This book uses the 'whole evidence' approach to give an overview of the available evidence for Chinese medicine treatment for Type 2 diabetes mellitus, from classical literature to clinical evidence. Evidence from clinical studies are evaluated using high-quality and rigorous scientific methodology. Clinical trial literature of Chinese medicine treatments for Type 2 diabetes mellitus are described, with treatment modalities including Chinese herbal medicine, acupuncture and other Chinese medicine therapies. The findings are analysed and potential implications for clinical practice and research are explored. Experimental studies

that describe the potential mechanisms of action of key herbs are summarised. Current evidence of Chinese medicine for Type 2 diabetes mellitus is synthesised in the final chapter, and suggestions for contemporary clinical practice and future research are also offered. Targeted at clinicians and students of Chinese and integrative medicine, this book is a convenient reference that provides comprehensive synthesis of both classical and contemporary knowledge, which can support and be incorporated into their clinical practice.
