Optical Parametric Generation and Amplification Jing-Yuan Zhang,2019-01-22 This volume considers optical parametric generation and amplification (OPG/OPA), as a means for producing a tunable optical parametric device. It reviews the OPA/OPG systems using various crystals pumped by lasers at various frequencies with pulse duration ranging from picoseconds to femtoseconds. Part two covers the theoretical background for design of an OPA/OPG system, using two newly discovered nonlinear crystals. Experimental design considerations are discussed in section three, including the section of nonlinear crystals, pumping sources and optical configurations. In section four, the experimental results obtained are compared with the theoretical calculations.

Understanding China Through Comics Jing Liu,2013-02-14 2013 Independent Publishers Book Awards (IPPY) Bronze Medal for Graphic Novel (Drama/Documentary), and ForeWord Reviews Book of the Year Awards (BOTYA) 2012 Finalist in Graphic Novels (Adult Nonfiction). The labyrinth of Chinese history, with its dynasties and gigantic land mass, can put off the adventurer to this exotic land. We need help to explore and explain how this country came to be. Liu Jing has already provided guides to the earlier history of this country with his illustrated comic books. He continues to lead us on this expedition to discover what historical treasures lie beneath the dust of Chinese history. In this volume we discover the vibrant life of the middle period of the China story -- the Northern and Southern Song Dynasties. This formative period was racked by wars, but at the same time, and as we watch in these pages, it produced innovation, commerce, and cultural accomplishments that defined the Chinese nation. Dive into the history of this period. You will not be disappointed. -- David M Jacobson, historian, quarter-century resident of China, foreign expert for the Chinese Academy of Social Sciences and Northeast Normal University, and co-founder of SinoFile Information Services, Ltd. Understanding China through Comics includes 4 volumes: Volume 1: The Yellow Emperor through the Han Dynasty (ca. 2697 BC - 220 AD) Volume 2: The Three Kingdoms through the Tang Dynasty (220 - 907) Volume 3: The Five Dynasties and Ten Kingdoms through the Yuan Dynasty under Mongol rule (907 - 1368) Volume 4: The Ming and Qing Dynasties (1368 - 1911)

History, Present And Prospect Of World Traditional Medicine (In 2 Volumes) Yuandong Shen,2023-11-22 Traditional medicine plays a crucial role in maintaining health, diagnosing diseases, and providing treatment. The World Health Organization's Global Report on Traditional and Complementary Medicine 2019 highlights the increasing recognition of traditional and complementary medicine in national health systems worldwide. With its widespread availability and growing demand, traditional medicine contributes to the goal of universal healthcare by offering accessible, safe, and effective services. In this book, the authors seek to review and summarize the history, current state, and future potential of mainstream traditional medicine worldwide, as well as promote the integration of traditional and conventional medicine, serving as a valuable reference for policymakers, academic institutions, and stakeholders. This book encompasses nine chapters, covering Ayurveda, chiropractic, European Traditional Herbal Medicine, Greco-Arab and Islamic Herbal Medicine, Homeopathy, Japanese Kampo, Korean Medicine, Traditional Chinese Medicine, and Thai Medicine.

Along Alien Roads Tsun Yuan Chen,2018-02 Along Alien Roads is an autobiographical novel by a Chinese American surgeon. Beginning with his ancestors and spanning over a century of recent Chinese history, the author traverses a path from Asia to America, between straight and gay, love and inevitable continual change, while sustaining the core of an Eastern spirit. A finely woven tapestry of memories that takes the shape of a man who contains multitudes. Born to a family from Canton and Shanghai, a father in the Nationalist government, a mother who rode bareback in Siberia, her father a Chinese diplomat under the Czar and after the revolution. Exile in Taiwan, schooled in Japan . . . educated as an engineer at MIT, then as a physician, he shapeshifts from engineer to doctor, married man with children to gay man in Northern California to gay man in love with a woman. He is at once deeply Chinese and completely American; straight, gay, and bisexual he's lived each category without being defined by a category. Comfortable in his own skin, yet uneasy in the ways he is different and forever in exile. Chen's memoir is a wonder. Exquisitely written. Rich in detail. Deeply moving. - Michael Alenyikov (author of the award-winning novel *Ivan and Misha*)
