The Sino-Tibetan Languages Randy J. LaPolla, Graham Thurgood, 2016-12-08
There are more native speakers of Sino-Tibetan languages than of any other language family in the world. Our records of these languages are among the oldest for any human language, and the amount of active research on them has multiplied in the last few decades. Now in its second edition and fully updated to include new research, *The Sino-Tibetan Languages* includes overview articles on individual languages, with an emphasis on the less commonly described languages, as well as descriptions and comments on the subgroups in which they occur. There are overviews of the whole family on genetic classification and language contact, syntax and morphology, and also on word order typology. There are also more detailed overview articles on the phonology, morphosyntax, and writing system of just the Sinitic side of the family. Supplementing these overviews are articles on Shanghainese, Cantonese and Mandarin dialects. Tibeto-Burman is reviewed by genetic or geographical sub-group, with overview articles on some of the major groups and areas, and there are also detailed descriptions of 41 individual Tibeto-Burman languages, written by world experts in the field. Designed for students and researchers of Asian languages, *The Sino-Tibetan Languages* is a detailed overview of the field. This book is invaluable to language students, experts requiring concise, but thorough, information on related languages, and researchers working in historical, typological and comparative linguistics.

Chinese Cinderella Adeline Yen Mah, 2009-05-06 More than 800,000 copies in print! From the author of critically acclaimed and bestselling memoir *Falling Leaves*, this is a poignant and moving true account of her childhood, growing up as an unloved daughter in 1940s China. A Chinese proverb says, *Falling*

leaves return to their roots. In her own courageous voice, Adeline Yen Mah returns to her roots to tell the story of her painful childhood and her ultimate triumph in the face of despair. Adeline's affluent, powerful family considers her bad luck after her mother dies giving birth to her, and life does not get any easier when her father remarries. Adeline and her siblings are subjected to the disdain of her stepmother, while her stepbrother and stepsister are spoiled with gifts and attention. Although Adeline wins prizes at school, they are not enough to compensate for what she really yearns for - the love and understanding of her family. Like the classic Cinderella story, this powerful memoir is a moving story of resilience and hope. Includes an Author's Note, a 6-page photo insert, a historical note, and the Chinese text of the original Chinese Cinderella. Loanwords in the Chinese Language Shi Youwei,2020-12-30 A loanword, or wailaici, is a word with similar meaning and phonetic form to a word from a foreign language that has been naturalized in the recipient language. From ancient times, cultural exchanges between China and other countries has brought and integrated a myriad of loanwords to the Chinese language. Approaching the topic from a diachronic perspective, this volume is the first book-length work to chart the developmental trajectory, features, functions, and categories of loanwords into Chinese. Beginning with a general introduction to the Chinese loanword system, the author delves deeper to explore trends and standardization in Chinese loanword studies and the research landscape of contemporary loanword studies more generally. Combining theoretical reflections with real-life examples of Chinese loanwords, the author discusses not only long-established examples from the dictionary but also a great number of significant loanwords adopted in the 21st century. The author shows how the complexity of the Chinese loanword system is intertwined with the intricacies of the Chinese character system. This title will be an essential reference for students, scholars, and general readers who are interested in Chinese loanwords, linguistics, and language and culture.

The Formation of Chinese Civilization Kwang-chih Chang, Pingfang Xu, Liancheng Lu, Xu Pingfang, Shao Wangping, Zhang Zhongpei, Wang Renxiang, 2005-01-01 Paleolithic sites from one million years ago, Neolithic sites with extraordinary jade and ceramic artifacts, excavated tombs and

palaces of the Shang and Zhou dynasties--all these are part of the archaeological riches of China. This magnificent book surveys China's archaeological remains and in the process rewrites the early history of the world's most enduring civilization. Eminent scholars from China and America show how archaeological evidence establishes that Chinese culture did not spread from a single central area, as was long assumed, but emerged out of geographically diverse, interacting Neolithic cultures. Taking us to the great archaeological finds of the past hundred years--tombs, temples, palaces, cities--they shed new light on many aspects of Chinese life. With a wealth of fascinating detail and hundreds of reproductions of archaeological discoveries, including very recent ones, this book is an invaluable resource for anyone interested in Chinese antiquity and Chinese views on the formation of their own civilization.

Eminent Chinese of the Qing Period Arthur W. Hummel Sr.,2018-01-01 Eminent Chinese of the Qing Period was first developed under the auspices of the US Library of Congress during World War II. This much-loved work, edited by Arthur W. Hummel Sr., was meticulously compiled and unique in its scope, and quickly became the standard biographical reference for the Qing dynasty, which lasted from 1644 to 1911/2. Amongst the contributors are John King Fairbank, Têng Ssû-yü, L. Carrington Goodrich, C. Martin Wilbur, Fêng Chia-shêng, Knight Biggerstaff, and Nancy Lee Swann. The 2018 Berkshire edition contains the original eight hundred biographical sketches as well as the original front and back matter, including the preface by Hu Shih, a scholar

who had been China's ambassador to the United States. An introduction by Pamela Crossley places this classic work in historical context, and discusses its origins, authors and editors, themes, style, and contemporary relevance. Chinese names in English have been converted to the pinyin transcription system (changing the book's title from Ch'ing to Qing), but the traditional Chinese characters have been retained. Additional materials added by Berkshire include a general bibliography, a Wade-Giles to pinyin conversion table, and a list of Qing dynasty emperors. Arthur W. Hummel Sr. (1884-1975) was a missionary, sinologist, and the first director of the Orientalia Division at the Library of Congress. Pamela Crossley is a professor at Dartmouth College and a specialist on the Qing empire and modern Chinese history, as well as the software author and scholarly editor of the ECCP Reader, a digital companion to the original Eminent Chinese of the Ch'ing Period.

Key Debates in the Translation of Advertising Material Beverly

Adab, Cristina Valdes, 2016-04-01 Much has been written about the marketing aspects of promotional material in general, and several scholars (particularly in linguistics) have addressed questions relating to the structure and function of advertisements, focusing on images, rhetorical structure, semiotic functions, discourse features and audio-visual media, amongst other aspects of the genre. Not much, on the other hand, has been written within translation studies about the complexities involved in the transfer of an advertising message. Contributors to this volume explore various interdependent aspects of the interlingual and intercultural transfer of an advertising message. They emphasize features of culture specificity, of multi-medial semiotic interaction, of values and stereotypes, and most

importantly, they recommend strategies and approaches to assist translators. Topics covered include a critique of the Western-based approach to advertising in the context of the Far East; different perceptions of the concept of cleanliness in advertising texts in Italy, Russia and the UK; the Walls Cornetto strategy of internationalization of product appeal, followed by localization; the role of the translator in recreating appeal in different lingua-cultural contexts; what constitutes 'Italianness' in advertisements for British consumers; and strategies for repackaging France as a tourist destination.

Focus Manifestation in Mandarin Chinese and Cantonese Peppina Po-lun Lee, 2019-05-23 One prominent function of natural language is to convey information. One peculiarity is that it does not do so randomly, but in a structured way, with information structuring formally recognized to be a component of grammar. Among all information structuring notions, focus is one primitive needed to account for all phenomena. *Focus Manifestation in Mandarin Chinese and Cantonese: A Comparative Perspective* aims to examine from a semantic perspective how syntactic structures and focus adverbs in Mandarin Chinese and semantic particles in Cantonese conspire to encode focus structures and determine focus manifestation in Chinese. With both as tonal languages, Mandarin Chinese and Cantonese manifest different morpho-syntactic configurations to mark focus. A general principle governing focus marking in Mandarin Chinese and Cantonese is given in the book, which aims to give a better understanding on the underlying principles the two used to mark additive and restrictive meanings, and related focus interpretations. Particular attention is also drawn to the co-occurrence of multiple forms of restrictive and additive particles in Cantonese, including adverbs, verbal

suffixes and sentence-final particles. Linearity has shown to be an important parameter to determine how focus is structured in Cantonese. This book is aimed at advanced graduate students, researchers and scholars working on Chinese linguistics, syntax and semantics, and comparative dialectal grammar.
