Spider Trap Barry Maitland,2008-09-30 Skeletons are discovered in Cockpit Lane, a poor black area of South London. They lead DCI David Brock and DS Kathy Kolla on a dark and dangerous journey into the heart of a drug-riddled, secretive community.

Force Benedict Eric Carter,Anthony Loveless,2014-04-10 Second World War fighter pilot Eric Carter is one of only four surviving members of a secret mission, code-named 'Force Benedict'. Sanctioned by Winston Churchill in 1941 Force Benedict was dispatched to defend Murmansk, the USSR's only port not under Nazi occupation. If Murmansk fell, Soviet resistance against the Nazis would be hard to sustain and Hitler would be able to turn all his forces on Britain... Force Benedict was under the command of New Zealand-born RAF Wing Commander Henry Neville Gynes Ramsbottom-Isherwood, who led two squadrons of Hurricane fighters, pilots and ground crew which were shipped to Russia in total secrecy on the first ever Arctic Convoy. They were told to defend Murmansk against the Germans 'at all costs'. 'We all reckoned the government thought we'd never survive' - but Eric Carter did, and was threatened with Court Martial if he talked about where he'd been or what he'd done. Now he reveals his experiences of seventy years ago in the hell on earth that was Murmansk, the largest city north of the Arctic Circle. It will also include previously unseen photos and documents, as well as exploring - for the first time - other intriguing aspects of Force Benedict.

The Daily Stoic Ryan Holiday,Stephen Hanselman,2016-10-18 The beloved classic daily devotional of Stoic meditations—the only authorized print edition in the US and complete with a ribbon marker—with more than two million copies sold! Why have history's greatest minds—from George Washington to Frederick the Great to Ralph Waldo Emerson, along with today's top performers from Super Bowl-winning football coaches to CEOs and celebrities—embraced the wisdom of the ancient Stoics? Because they realize that the most valuable wisdom is timeless and that philosophy is for living a better life, not a classroom exercise. The Daily Stoic offers 366 days of Stoic insights and exercises, featuring all-new translations from the Emperor Marcus Aurelius, the playwright Seneca, or slave-turned-philosopher Epictetus, as well as lesser-known luminaries like Zeno, Cleanthes, and Musonius Rufus. Every day of the year you'll find one of their pithy, powerful quotations, as well as historical anecdotes, provocative commentary, and a helpful glossary of Greek terms. By following these teachings over the course of a year (and, indeed, for years to come) you'll find the serenity, self-knowledge, and resilience you need to live well.

Oileain David Walsh,2004 A wealth of information on the wildlife, stories and history of the islands.For those wishing to visit in small boats or kayaks there are details of:? Landings? Camping? Drinking water? Tidal informationOileain is a detailed guide to almost every Irish offshore island. The guide is comprehensive, describing over 300 islands, big and small, far out to sea and close in by the shore, inhabited and uninhabited. Oileain tells it as it is, rock by rock, good and bad, pleasant and otherwise. It concentrates on landings and access generally, then adds information on camping, drinking water, tides, history, climbing, birds, whales, dolphins, legends or anything else of interest.Oileain will, I hope, appeal to all who go to sea in small boats, divers and yachtsmen as well as kayakers. The sheer level of detail contained in Oileain must surely throw new light on places they thought they knew well. It is not a book about kayaking. It so happens that a practical way of getting to islands is by kayak, and that is how the author gets about. Scuba divers and RIBs get in close too. Yachtsmen get about better than most, and they too enjoy exploring intensively from a dinghy. With the increasing availability of ferries, boatless people will also enjoy Oileain. Offshore islands are the last wilderness in Ireland. Hillwaking is now so popular that there are few untrampled mainland hills. Ninety per cent of offshore islands are uninhabited outside of the first fortnight in August, and eighty per cent even then. You won't meet many other people, if any at all, out beyond an Irish surf line. It is a time of change though, and holiday homes are very much the coming thing in some offshore areas. Sea going will never stop being a great adventure. Therefore, offshore islands are still the preserve of the very few. Now is a golden era for exploration.

Theory-Driven Evaluations Huey T. Chen,1990-01-01 With the publication of Theory-Driven Evaluations, Huey-Tsyh Chen has given us an ambitious volume. . . . Indeed, it is the aspiration of this book to provide a conceptual framework that integrates the diverse approaches and paradigms of evaluation. For those of us accustomed to the rhetoric of the paradigm wars that have been raging in recent years, it is refreshing to find a text that works so assiduously at reconciliation. . . . There is much that is useful in Chen's analysis. He gives us a full and thoughtful book that attempts no less than the construction of a conceptual framework for all of program evaluation. . . . It provides an impressive compendium of source material and references spanning not only evaluation, but related work in economics and public policy (this alone is worth the price of the book). . . . Chen's Theory-Driven Evaluations provides a stimulating, even heroic attempt to bring some conceptual integration to a field that has been too long dominated by methodological paradigms and procedural particulars. --a prepublication review for Evaluation and Program Planning Generous use of examples which are well selected and lucidly summarized. --Contemporary Sociology Chen introduces a new, comprehensive framework for program evaluation that is designed to bridge the gap between method and theory-oriented perspectives. . . . For program planners, decision makers, scholars, and students, this volume clarifies, illuminates and provides unique insights into the conception, construction and implementation of a wide range of programs. . . . The research examples used in the discussion draw upon various areas, such as education, welfare, health, criminal justice, job training [and] family construction to attract a wider audience. --Journal of Applied Rehabilitation Counseling Program evaluation has traditionally emphasized the application of social science research methods in evaluation activities. However, there is a growing awareness that program theory is vital for broadening the scope and enhancing the usefulness of program evaluation. In Theory-Driven Evaluations, Huey-Tsyh Chen introduces a new, comprehensive framework for program evaluation that is designed to bridge the gap between the method- and theory-oriented perspectives. He provides an intensive discussion of the nature and functions of program theory, approaches to constructing program theories, and the integration of program theory with evaluation processes. Specific types of theory-driven evaluations, as well as principles and guidelines for application are developed for meeting different policy purposes. Application of systematic strategies is illustrated by concrete examples from a variety of evaluation studies in different fields. The presentation of this new perspective directly addresses the needs and concerns in both the professional and applied areas of program evaluation. For program planners, decisionmakers, scholars and students, this volume will clarify, illuminate, and provide unique insights into the conception, construction, and implementation of a wide range of programs.
