Bartley,Sylvia Erickson Bartley,2015-11-30 Eclipse of the Assassins investigates the sensational 1984 murder of Mexico's most influential newspaper columnist, Manuel Buendía, and how that crime reveals the lethal hand of the U.S. government in Mexico and Central America during the final decades of the twentieth century.

Regional Fisheries Oceanography of the California Current System Sam McClatchie,2013-09-30 The California Current System is one of the best studied ocean regions of the world, and the level of oceanographic information available is perhaps only surpassed by the northeast and northwest Atlantic. The current literature (later than 1993) offers no comprehensive, integrated review of the regional fisheries oceanography of the California Current System. This volume summarizes information of more than 60-year California Cooperative Oceanic Fisheries Investigation (CalCOFI). While providing a large bibliography, the intent was to extract themes relevant to current research rather than to prepare a compendious review of the literature. The work presents a useful review and reference point for multidisciplinary fisheries scientists and biological oceanographers new to working in the California Current System, and to specialists wishing to access information outside their core areas of expertise. In addition it aims to deliver an up to date reference to the current state of knowledge of fisheries oceanography in the California Current System.

Desperate Measures D.E. Gray, 2019-01-28 Chase Longmire is a high ranking 23 year veteran police detective working LAPD's elite Robbery Homicide Division. He blames his divorce on his own selfishness, not being able to leave behind his job long enough to spend time with his own family and friends. His wife, Rachel, finally decides to leave him realizing she is living with a man who is married to his job and not her. Chase soon finds out that he has an incurable form of brain cancer and is given just months to live. He has to come to terms with his terminal disease as he sets in motion his plan to provide for his family once he is gone. His plan to return to patrol and commit suicide by thug while on duty so his wife can collect on a 1.5 million dollar premium life insurance policy can be called nothing short of a Desperate Measure. His plan runs into a major snag when the captain of his division assigns him a new female police officer to train. The female trainee's father was a New York police officer who was killed on 9/11 when she was just a little girl. After struggling with her last FTO, Chase Longmire is her last chance to becoming one of L A's finest. During his quest to end his life, Chase reminisces about a major murder case he solved while he was working detectives, and if that was not enough, during one of his suicide attempts, he is visited by the ghost of an old motor cop he once looked up to.

Moving Beyond Borders Alberto Lopez Pulido, 2024-02-12 Moving Beyond Borders examines the life and accomplishments of Julian Samora, the first Mexican American sociologist in the United States and the founding father of the discipline of Latino studies. Detailing his distinguished career at the University of Notre Dame from 1959 to 1984, the book documents the history of the Mexican American Graduate Studies program that Samora established at Notre Dame and traces his influence on the evolution of border studies, Chicano studies, and Mexican American studies. Samora's groundbreaking ideas opened the way for Latinos to understand and study themselves intellectually and politically, to analyze the complex relationships between Mexicans and Mexican Americans, to study Mexican immigration, and to ready the United States for the reality of Latinos as the fastest growing minority in the nation. In addition to his scholarly and pedagogical impact, his leadership in the struggle for civil rights was a testament to the power of community action and perseverance. Focusing on Samora's teaching, mentoring, research, and institution-building

strategies, *Moving Beyond Borders* explores the legacies, challenges, and future of ethnic studies in United States higher education. Contributors are Teresita E. Aguilar, Jorge A. Mexican Revolution: The Constitutionalist Years Charles C. Cumberland, 2010-06-28 “The seven years with which this book concerns itself . . . must be thoroughly examined if one is to have a grasp of modern Mexican history.” —*Military History of Texas and the Southwest* The years 1913-1920 were the most critical years of the Mexican Revolution. This study of the period, a sequel to the author’s *Mexican Revolution: Genesis under Madero*, traces Mexico’s course through the anguish of civil war to the establishment of a tenuous new government, the codification of revolutionary aspirations in a remarkable constitution, and the emergence of an activist leadership determined to propel Mexico into the select company of developed nations. The narrative begins with Huerta’s overthrow of Madero in 1913 and the rise of Carranza’s Constitutionalist counterchallenge. It concludes with a summary of Carranza’s stormy term as constitutional president climaxed by his ouster and overthrow in a revolt spearheaded by Alvaro Obregón. Basing his study on a wide range of Mexican and US primary sources as well as pertinent secondary studies, Cumberland brings a mature and sophisticated analysis to his material; the result is a major contribution to the understanding of one of the twentieth century’s most significant revolutionary movements.
