Flash Fiction International: Very Short Stories from Around the World James Thomas,Robert Shapard,Christopher Merrill,2015-04-13 A dazzling new anthology of the very best very short fiction from around the world. What is a flash fiction called in other countries? In Latin America it is a micro, in Denmark kortprosa, in Bulgaria mikro razkaz. These short shorts, usually no more than 750 words, range from linear narratives to the more unusual: stories based on mathematical forms, a paragraph-length novel, a scientific report on volcanic fireflies that proliferate in nightclubs. Flash has always—and everywhere—been a form of experiment, of possibility. A new entry in the lauded Flash and Sudden Fiction anthologies, this collection includes 86 of the most beautiful, provocative, and moving narratives by authors from six continents, including best-selling writer Etgar Keret, Zimbabwean writer Petina Gappah, Korean screenwriter Kim Young-ha, Nobel Prize winner Czeslaw Milosz, and Argentinian “Queen of the Microstory” Ana María Shua, among many others. These brilliantly chosen stories challenge readers to widen their vision and celebrate both the local and the universal.

**The Socratic Handbook** Michael Noah Weiss, 2015 In this book, 34 renowned philosophical practitioners from 20 different countries present a variety of dialogue methods for philosophical practice, which have never before been published in such a compact and compiled form. By having Socrates and his method of maieutics (the art of midwifery of the soul, as he called it) as one of its main sources of inspiration, the book offers different methodological approaches in order to prompt people to wonder, to reflect, to change perspective, and to think differently; in short, to make people philosophize about life and the way they live it. **Rethinking Philosophers' Responsibility** Lydia Amir, 2017-11-06 Calling on philosophers as the custodians of rationality to reconsider their responsibility toward their communities and the state of civilization at large, this book considers philosophy to be a practical discipline. Largely foreign to philosophers and non-philosophers alike, this conception of philosophy discloses the relevance of its unique contributions to contemporary society. The book offers a compelling and accessible analysis of philosophy also in relation to religion, psychology, the New Age Movement, and globalization, and exemplifies through a wide range of current problems how philosophers can fulfil their responsibility. Its argument that responsibility lies where one is capable of doing what is needed, and even more so, when no one else can do it, targets philosophers. However, its innovative study of contemporary philosophy coupled with its original contributions to the problems at hand will engage academics and students from other

disciplines, as well as a general readership.

Mediaeval Commentaries on the Sentences of Peter Lombard, 2015-01-27 The focus of the contributions to this third and final volume of Brill's handbook on the tradition of the Book of Sentences ranges from a thirteenth-century study aid to the role of the Sentences in sixteenth-century Iberia.

**Taking Philosophy Seriously** Lydia Amir, 2019-01-17 Taking Philosophy Seriously initiates a meta-philosophical dialogue that challenges the division between academic and practical philosophy. In contradistinction to the perfectionist tradition of philosophy, it offers a melioristic view of philosophy that rethinks the approach to philosophy, reinvigorates its academic teaching and secures the respectability of its practitioners outside the academe. It addresses the neglected topic of philosophers' education through a subtle analysis of the mentor-apprentice relationship and the remedies philosophers have found to its tensions. It reveals the problems inherent in emulating past practical philosophies from Alexandrian times, the Enlightenment or the 19th century, and the necessity of reevaluating the tools, reconsidering the means, and rethinking the methods of the contemporary practice of philosophy. To that purpose, it problematizes the notions of dialogue, self-knowledge, and self-transformation, and questions the feasibility of autonomy and self-integration as well as the differentiation between philosophy and psychology. It offers original solutions to the problems it highlights and points to unique benefits in the practice of philosophy that contribute to resolving the contemporary crisis of philosophy. This book combines high academic standards and an accessible style, and will engage academic and practical philosophers alike, professionals in education and the helping professions, and the general public.

**"Lazy, Improvident People"** Ruth MacKay, 2018-07-05 Since the early modern era, historians and observers of Spain, both within the country and beyond it, have identified a peculiarly

Spanish disdain for work, especially manual labor, and have seen it as a primary explanation for that nation's alleged failure to develop like the rest of Europe. In *Lazy, Improvident People*, the historian Ruth MacKay examines the origins of this deeply ingrained historical prejudice and cultural stereotype. MacKay finds these origins in the *ilustrados*, the Enlightenment intellectuals and reformers who rose to prominence in the late eighteenth century. To advance their own, patriotic project of rationalization and progress, they disparaged what had gone before. Relying in part on late medieval and early modern political treatises about vile and mechanical labor, they claimed that previous generations of Spaniards had been indolent and backward. Through a close reading of the archival record, MacKay shows that such treatises and dramatic literature in no way reflected the actual lives of early modern artisans, who were neither particularly slothful nor untalented. On the contrary, they behaved as citizens, and their work was seen as dignified and essential to the common good. MacKay contends that the *ilustrados'* profound misreading of their own past created a propagandistic myth that has been internalized by subsequent intellectuals. MacKay's is thus a book about the notion of Spanish exceptionalism, the ways in which this notion developed, and the burden and skewed vision it has imposed on Spaniards and outsiders. *Lazy, Improvident People* will fascinate not only historians of early modern and modern Spain but all readers who are concerned with the process by which historical narratives are formed, reproduced, and given authority.

*The Concept of Law (lex) in the Moral and Political Thought of the 'School of Salamanca'* Danaë Simmermacher, Kirstin Bunge, Marko J. Fuchs, Anselm Spindler, 2016-10-05 The articles in this volume offer a fresh perspective on the important role of the concept of law (lex) in the moral and political philosophy of the 'School of Salamanca'.

Experiential Philosophical Practice José Barrientos-  
Rastrojo,2021-07-29 In experiential philosophical practice,  
workshops and counseling sessions are developed on the basis of  
discursive analysis and by training with transformative exercises.  
Experiential philosophical practice is grounded in the fact that  
reasoning is insufficient for bringing about an intimate and  
radical change in all cases. Having said that, this metamorphosis  
is produced in experiences such as giving birth or rearing a child,  
being close to death or coping with the demise of someone close,  
or being abandoned by one's partner. The suffering caused by  
these situations does not only change our ideas, but also our way  
of understanding and facing the world, our feelings, our decisions  
and even our desires and aversions. The experiential dimension  
that philosophical practice leverages involves exercises for  
training in dispositions that facilitate change. It makes this reality  
possible in scenarios and transformative vital metaphors. Thus,  
philosophical action is understood as a pilgrimage, a journey or  
an action akin to cultivating a plant. Its objective is not to achieve  
uncritical and deficient capitalist happiness, but to encourage us  
to lead deeper and more critical, aware and authentic lives. This  
book explains how to develop workshops seriously and rigorously,  
in which philosophical aspects are not lost in a dialogue or

reasoning that any professional can deploy. Following this, it describes the four mainstays of the experiential approach: exercises, dispositions, scenarios and metaphors. Lastly, it qualifies this approach with real experiences, including the author's last one in South American prisons: the philosophical practice in prisons project BOECIO. José Barrientos-Rastrojo is a tenured professor of philosophy at Seville University, the leader of the philosophical practice in prisons project BOECIO, a philosophical practice project aimed at developing philosophical skills for volunteers and international aid workers, and the Experiencialidad research group, as well as being the director of HASER. Revista Internacional de Filosofía Aplicada. After defending the first European dissertation on philosophical counseling, he has subsequently supervised a dozen PhD, MA and BA theses dealing with philosophical practice and philosophy for/with children. Although educated in Spain, Barrientos has researched at the Universities of Harvard, Cambridge, Princeton, Chicago, Tokyo, São Paulo and the UNAM in Mexico. His research has resulted in approximately 500 publications, conference papers and keynotes the world over. He has also been the youngest director of the International Conference on Philosophical Practice, while creating and organizing other international events including the Iberoamerican Conference on Philosophical Practice, with Professor José Ordóñez, and the International Sophia Retreat on Contemplative Philosophy, with Ran Lahav. Likewise, he has designed and managed university MA and training programs in this respect in different countries. He has received the Award Cooperation Acknowledgment (2018) and the first Premio Internacional de Filosofía (2018), both in Mexico, the first Premio Internacional de Filosofía (2014) in Portugal and the first Premio Nazionale di Filosofia Le figure del pensiero (2012) in Italy. He often posts information about his activities as a philosophical practitioner and scholar on his Facebook, Instagram and Twitter accounts. Email:

**Practicing Philosophy** Lydia Amir, Aleksandar

Fatić, 2015-11-25 This volume presents the state of the art of philosophical practice worldwide from the perspectives of leading philosophical practitioners, both counselors and institutional consultants. Philosophical practice has developed in different directions in different parts of the world, with the focus in Europe and North America being mostly on client counseling and corporate consultancy, while in Asia it is more community-based and more closely aligned with psychotherapy. In all cases, philosophical practitioners strive to transcend the boundaries of academic philosophy and reach out to the public, to corporations, to the policy makers, to the medical, legal and many other professions. The chapters of this book illustrate both the breadth of philosophical practice and its various methodological directions, while, at the same time, showing how philosophy can be relevant to everyday life, not just for individuals, but for the economy, the government, international organizations, the helping and therapeutic professions, and the educational system. The volume is primarily a companion for students of applied philosophy on all levels, as well as for modern psychotherapists, educational professionals and academics. It is designed to support a variety of undergraduate and postgraduate courses in philosophy and applied psychology, ranging from ancient ethics to philosophical practice *sui generis*, or to the philosophy of psychology.

Fictionalizing heterodoxy Folke Gernert, 2019-06-17 The information overload produced by the printing press and the new forms of the structuring of knowledge are echoed in fictional works. The essays assembled in this book study the textualization of problematic forms of knowledge in medieval and early modern Spanish literature. Literary Works like the *Libro buen amor*, *La Lozana Andaluza*, or the *Guzmán de Alfarache* are read against the backdrop of scientific developments of their times.
