Emerging Perspectives on the Mobile Content Evolution Aguado, Juan Miguel,2015-09-21 In less than a decade, mobile technology has revolutionized our cultures, societies, and economies by impacting both personal and professional aspects of human life. Mobile technology has therefore become the fastest diffusing technology in history, expanding and transforming existent possibilities by making technology accessible and ubiquitous. Emerging Perspectives on the Mobile Content Evolution seeks a better understanding of the centrality of mobile content in the recent and coming evolution of both the ICT ecosystem and the media industry. This publication appeals to a broad audience within the interdisciplinary field of media studies, covering topic areas such as journalism, marketing and advertising, broadcasting, information management, media management, media economics, media- and technology-related public policies, media sociology, audience/consumption studies, and arts. This publication presents a multi-disciplinary discussion through a collection of academic chapters covering topics such as mobile communications and entrepreneurship, reflection on wearables and innovation, personal and mobile healthcare, mobile journalism and innovation, and behavioral targeting in the mobile ecosystem.

Big Data: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2016-04-20 The digital age has presented an exponential growth in the amount of data available to individuals looking to draw conclusions based on given or collected information across industries. Challenges associated with the analysis, security, sharing, storage, and visualization of large and

complex data sets continue to plague data scientists and analysts alike as traditional data processing applications struggle to adequately manage big data. Big Data: Concepts, Methodologies, Tools, and Applications is a multi-volume compendium of research-based perspectives and solutions within the realm of large-scale and complex data sets. Taking a multidisciplinary approach, this publication presents exhaustive coverage of crucial topics in the field of big data including diverse applications, storage solutions, analysis techniques, and methods for searching and transferring large data sets, in addition to security issues. Emphasizing essential research in the field of data science, this publication is an ideal reference source for data analysts, IT professionals, researchers, and academics.

Case Studies on the Regulatory Challenges Raised by Innovation and the Regulatory Responses OECD,Korea Development Institute,2021-12-14 The pace and scope of innovation are challenging the way governments regulate. Existing regulatory frameworks might not be agile enough to accommodate the fast pace of technological development and, as a consequence, rules might become outdated.

Korea's Platform Empire Seongcheol Kim,Dal Yong Jin,2024-06-07 Korea's Platform Empire explores the evolution of digital platforms in South Korea's media sphere, and their global political, economic, cultural, and technological influence. With a focus on Korea in the context of the global platform revolution, the book takes a methodical look at the broader social implications and the impact on cultural production. The authors explore various facets of the media and cultural industries—looking beyond social media to news broadcasting and the music industry—and look at the policy and regulations behind this shifting technological advancement. This book will appeal to students and scholars working on media industries, digital media, platform studies, information and technology studies, Korean and East Asian media studies, and the creative

and cultural industries.

Action Research Ernest T. Stringer,Alfredo Ortiz Aragón,2020-08-26 Action Research is an invaluable guide to both novice and experienced researchers from a diversity of disciplines, backgrounds, and levels of study for understanding how action research works in real-life contexts. The Fifth Edition builds on the experiences of the authors by acknowledging the dramatic changes taking place in our everyday lives, including developments of social and digital media that have become central to modern life. Author Ernest T. Stringer and new co-author Alfredo Ortiz Aragón aim to provide a meaningful methodology arising from their extensive field experience for both students and practitioners. Presenting research that produces practical, effective, and sustainable outcomes to real-world problems, Action Research helps students see the value of their research in a broader context, beyond academia, to effecting change on a larger scale. Additional resources can be found at the authors' website

Digital Platforms, Imperialism and Political Culture Dal Yong Jin,2015-03-24 In the networked twenty-first century, digital platforms have significantly influenced capital accumulation and digital culture. Platforms, such as social network sites (e.g. Facebook), search engines (e.g. Google), and smartphones (e.g. iPhone), are increasingly crucial because they function as major digital media intermediaries. Emerging companies in non-Western countries have created unique platforms, controlling their own national markets and competing with Western-based platform empires in the global markets. The reality though is that only a handful of Western countries, primarily the U.S., have dominated the global platform markets, resulting in capital accumulation in the hands of a few mega platform owners. This

book contributes to the platform imperialism discourse by mapping out several core areas of platform imperialism, such as intellectual property, the global digital divide, and free labor, focusing on the role of the nation-state alongside transnational capital.

Korean International Students and the Making of Racialized Transnational Elites Sung-Choon Park,2020-01-31 By examining privileged and highly skilled Asian migrants, such as international students who acquire legal permanent residency in the United States, this book registers and traces these transnational figures as racialized transnational elites and illuminates the intersectionality and reconfiguration of race, class, ethnicity, and nationality. Using in-depth interviews with Korean international students in New York City and Koreans in South Korea as a case study, this book argues that racialized transnational elites are embedded in racial and ethnic dynamics in the United States as well as in class and nationalist conflicts with non-migrant co-ethnics in the sending country. Sung-Choon Park further argues that strategic responses to the local, social dynamics shape transnational practices such as diaspora-building, transfer of knowledge, conversion of cultural capital, and cross-border communication about race, causing heterogeneous social consequences in both societies.

Understanding Korean Webtoon Culture Dal Yong Jin,2023-11-20 Webtoons—a form of comic that are typically published digitally in chapter form—are the latest manifestation of the Korean Wave of popular culture that has increasingly caught on across the globe, especially among youth. Originally distributed via the Internet, they are now increasingly distributed through smartphones to ravenous readers in Korea and around the world. The rise of webtoons has fundamentally altered the Korean cultural market due to the growth of transmedia storytelling—the flow of a story from the original text to various other media platforms, such as films, television, and digital

games—and the convergence of cultural content and digital technologies. Fans can enjoy this content anytime and anywhere, either purely as webtoons or as webtoon-based big-screen culture. Understanding Korean Webtoon Culture analyzes webtoons through the lens of emerging digital cultures and discusses relevant cultural perspectives by combining two different, yet connected approaches, political economy and cultural studies. The book demonstrates the dynamics between structural forces and textual engagement in global media flows, and it illuminates snack-culture and binge-reading as two new forms of digital culture that webtoon platforms capitalize on to capture people's shifting media consumption.

Secure and Intelligent IoT-Enabled Smart Cities Singh, Sushil Kumar,Tanwar, Sudeep,Jadeja, Rajendrasinh,Singh, Saurabh,Polkowski, Zdzislaw,2024-04-01 Smart cities are experiencing a rapid evolution. The integration of technologies such as 5G, Internet of Things (IoT), Artificial Intelligence (AI), and blockchain has ushered in transformative applications, enhancing the quality of urban life. However, this evolution comes with its own challenges, most notably in security and privacy. Secure and Intelligent IoT-Enabled Smart Cities addresses these concerns, exploring theoretical frameworks and empirical research findings. The book embarks on the foundational elements of the Internet of Things, delving into the convergence of IoT and smart city applications, elucidating the layered architecture of IoT, and highlighting the security issues inherent in IoT-enabled Smart Cities. This book pinpoints the challenges smart city infrastructures face and offers innovative and pragmatic solutions to fortify their security. This book targets professionals and researchers immersed in the dynamic field of secure and intelligent environments within IoT-enabled smart city applications. It is a valuable resource for executives grappling with the strategic implications of emerging technologies in smart healthcare, smart parking, smart manufacturing, smart

transportation, and beyond.

**Driving Digital Transformation: Lessons from Building
the First ASEAN Digital Bank** Dr. Dennis Khoo,2021-09-10
Traditional banks are facing unprecedented disruption from
challenger banks today. So why aren't more of them launching
challenger banks of their own? Well, two high-profile examples –
JP Morgan's Finn and RBS's Bo – were launched with much
fanfare, but both shuttered after less than a year. In light of this,
the success of TMRW digital bank by UOB, launched in Thailand
in 2019 and Indonesia in 2020, is astonishing. Dr Dennis Khoo,
who created TMRW, shares with us the thinking behind the
design of this revolutionary undertaking. At every step of the way,
he and his team went against established paradigms and bucked
conventional wisdom to build ASEAN's first digital bank. Filled
with visionary analysis and on-the-ground guidance, Driving
Digital Transformation demonstrates how this success can be
replicated across all industries. For any leader or organisation
starting on a major digital initiative, this book is a must-read.
"What makes this playbook particularly valuable is that it is
written by Dennis Khoo, one of the sharpest minds in the
industry." – Mary Huen, CEO, Standard Chartered Hong Kong

Cultural Economies of Locative Media Rowan Wilken,2019 Location, location-awareness, and location data have all become familiar and increasingly significant parts of our everyday mobile-mediated experiences. Cultural Economies of Locative Media examines the ways in which location-based services, such as GPS-enabled mobile smartphones, are socially, culturally, economically, and politically produced just as much as they are technically designed and manufactured. Rowan Wilken explores the complex interrelationships that mutually define new business models and the economic factors that emerge around, and structure, locative media services. Further, he offers readers insight into the diverse social uses, cultures of consumption, and policy implications of location, providing a detailed, critical account of contemporary location-sensitive mobile data. Cultural Economies of Locative Media delves into the ideas, technologies, contexts, and power relationships that define this scholarship, resulting in a rich portrait of locative media in all of its cultural and economic complexity.
