Going Viral Dahlia Schweitzer,2018-03-09 Outbreak narratives have proliferated for the past quarter century, and now they have reached epidemic proportions. From 28 Days Later to 24 to The Walking Dead, movies, TV shows, and books are filled with zombie viruses, bioengineered plagues, and disease-ravaged bands of survivors. Even news reports indulge in thrilling scenarios about potential global pandemics like SARS and Ebola. Why have outbreak narratives infected our public discourse, and how have they affected the way Americans view the world? In *Going Viral*, Dahlia Schweitzer probes outbreak narratives in film, television, and a variety of other media, putting them in conversation with rhetoric from government authorities and news organizations that have capitalized on public fears about our changing world. She identifies three distinct types of outbreak narrative, each corresponding to a specific contemporary anxiety: globalization, terrorism, and the end of civilization. Schweitzer considers how these fears, stoked by both fictional outbreak narratives and official sources, have influenced the ways Americans relate to their neighbors, perceive foreigners, and regard social institutions. Looking at everything from *I Am Legend* to *The X Files* to *World War Z*, this book examines how outbreak narratives both excite and horrify us, conjuring our nightmares while letting us indulge in fantasies about fighting infected Others. *Going Viral* thus raises provocative questions about the cost of public paranoia and the power brokers who profit from it. Princess Mononoke Rayna Denison,Chris Pallant,2018-01-11 A collection of original essays on Hayao Miyazaki's *Princess Mononoke*, exploring its production, aesthetics, themes, and cultural significance.

Fujitsu Scientific & Technical Journal ,1965*

The Animé Art of Hayao Miyazaki Dani Cavallaro,2015-05-12 The thought-provoking, aesthetically pleasing animated films of Hayao Miyazaki attract audiences well beyond the director's native Japan. *Princess Mononoke* and *Spirited Away* were critically acclaimed upon U.S. release, and the earlier *My Neighbor Totoro* and *Kiki's Delivery Service* have found popularity with Americans on DVD. This critical study of Miyazaki's work begins with an analysis of the visual conventions of manga, Japanese comic books, and animé; an overview of Japanese animated films; and a consideration of the techniques deployed by both traditional cel and computer animation. This section also details Miyazaki's early forays into comic books and animation, and his output prior to his founding of Studio Ghibli. Part Two concentrates on the Studio Ghibli era, outlining the company's development and analyzing the director's productions between 1984 and 2004, including *Castle in the Sky*, *My Neighbor Totoro* and his newest film, *Howl's Moving Castle*. The second section also discusses other productions involving Studio Ghibli, including *Grave of the Fireflies* and *The Cat Returns*. Appendices supply additional information about Studio Ghibli's merchandise production, Miyazaki's global fan base, and the output of other Ghibli directors.

Visiting Indira Gandhi's Palmist Kirun Kapur, 2015 Poetry. Southeast Asia Studies. VISITING INDIRA GANDHI'S PALMIST by Kirun Kapur is the winner of the 2013 Antivenom Poetry Award published by Elixir Press. Kirun Kapur's debut volume VISITING INDIRA GANDHI'S PALMIST offers worlds of striking richness. From family lore marked by the 1947 partition of British India and the chaos that ensued, Kapur crafts a saga that is both personal and public. Her exploration of lives intersecting yet separated across time, culture, and continent reveals the many ways in which we carry, renounce, and rediscover the past. Kapur introduces us to an astonishing range of characters a father who 'speaks five languages, quotes Frost as easily as Ghalib' ('Meat and Marry'); a mother and onetime nun who foreswore her 'Benedictine coif' for love ('Family Portrait, USA'); Cain and Abel of the Bible; Prince Arjuna of the Gita. At the heart of this quest, however, is an inquisitive mind examining our creation stories personal, historical, and mythical. Through poems that are masterfully paced and densely layered, Kapur sets out to explore the tensions of our most basic human bonds: love and duty, violence and communion, family and nation. Ducarel's Purnea Priya Ratnam, Lakshmikant Singh, 2021-11-23 Ducarel had been the great hero for the common man of Purnea and this Purnea was an integral part of Ducarel's life. A living example of this is the village named 'Dhokaraila or Dokaraila'. This village is present in Jalalgarh block under Purnea district which is still keeping alive the legacy of Ducarel's personality. This is a living testimony of Ducarel's outstanding personality. No one stays idly in the hearts and minds of the people. Certainly, there must have been something special in him. Ducarel's tenure in Purnea was only two years. The aim is to limit the story to the periphery of Purnea. Ducarel was truly a representative 'hero' for the common folk of Purnea.

Music Is History Questlove, 2021-10-19 New York Times bestselling Music Is History combines Questlove's deep musical expertise with his curiosity about history, examining America over the past fifty years—now in paperback Focusing on the years 1971 to the present, Questlove finds the hidden connections in the American tapes, whether investigating how the blaxploitation era reshaped Black identity or considering the way disco took an assembly-line approach to Black genius. And these critical inquiries are complemented by his own memories as a music fan and the way his appetite for pop culture taught him about America. A history of the last half-century and an intimate conversation with one of music's most influential and original voices, Music Is History is a singular look at contemporary America.

re All Infected Dawn Keetley, 2014-02-10 This edited collection brings together an introduction and 13 original scholarly essays on AMC's The Walking Dead. The essays in the first section address the pervasive bloodletting of the series: What are the consequences of the series' unrelenting violence? Essays explore violence committed in self-defense, racist violence, mass lawlessness, the violence of law enforcement, the violence of mourning, and the violence of history. The essays in the second section explore an equally urgent question: What does it mean to be human?

Several argue that notions of the human must acknowledge the centrality of the body—the fact that we share a “blind corporeality” with the zombie. Others address how the human is closely aligned with language and time, the disappearance of which are represented by the aphasic, timeless zombie. Underlying each essay are the game-changing words of The Walking Dead’s protagonist Rick Grimes to the other survivors: “We’re all infected.” The violence of the zombie is also our violence; their blind drives are also ours. The human characters of The Walking Dead may try to define themselves against the zombies but in the end their bodies harbor the zombie virus: they are the walking dead. Darwinian Feminism and Early Science Fiction Patrick B Sharp, 2018-03-28 This book is the first detailed scholarly examination of women’s SF in the early magazine period before the Second World War. This is a sustained study of women writing in the genre before World War II, something that has never been done in a monograph. The author shows how women such as Margaret Cavendish and Mary Shelley drew critical attention to the colonial mindset of scientific masculinity which was attached to scientific institutions that excluded women.

Moving Viewers Carl Plantinga, 2009-04-08 Everyone knows the thrill of being transported by a film, but what is it that makes movie watching such a compelling emotional experience? In *Moving Viewers*, Carl Plantinga explores this question and the implications of its answer for aesthetics, the psychology of spectatorship, and the place of movies in culture. Through an in-depth discussion of mainstream Hollywood films, Plantinga investigates what he terms the paradox of negative emotion and the function of mainstream narratives as ritualistic fantasies. He describes the sensual nature of the movies and shows how film emotions are often elicited for rhetorical purposes. He uses cognitive science and philosophical aesthetics to demonstrate why cinema may deliver a similar emotional charge for diverse audiences.

Endemic Kari Nixon, Lorenzo Servitje, 2016-09-01 This book develops a new multimodal theoretical model of contagion for interdisciplinary scholars, featuring contributions from influential scholars spanning the fields of medical humanities, philosophy, political science, media studies, technoculture, literature, and bioethics. Exploring the nexus of contagion’s metaphorical and material aspects, this volume contends that contagiousness in its digital, metaphorical, and biological forms is a pervasively endemic condition in our contemporary moment. The chapters explore both endemcity

itself and how epidemic discourse has become endemic to processes of social construction. Designed to simultaneously prime those new to the discourse of humanistic perspectives of contagion, complicate issues of interest to seasoned scholars of science and technology studies, and add new topics for debate and inquiry in the field of bioethics, Endemic will be of wide interest for researchers and educators.

Theatrical Translation and Film Adaptation Phyllis Zatlin, 2005-10-12
Translation and film adaptation of theatre have received little study. In filling that gap, this book draws on the experiences of theatrical translators and on movie versions of plays from various countries. It also offers insights into such concerns as the translation of bilingual plays and the choice between subtitling and dubbing of film.
