Korean War Max Hastings,2015-10-20 It was the first war we could not win. At no other time since World War II have two superpowers met in battle. Now Max Hastings, preeminent military historian takes us back to the bloody bitter struggle to restore South Korean independence after the Communist invasion of June 1950. Using personal accounts from interviews with more than 200 vets—including the Chinese—Hastings follows real officers and soldiers through the battles. He brilliantly captures the Cold War crisis at home—the strategies and politics of Truman, Acheson, Marshall, MacArthur, Ridgway, and Bradley—and shows what we should have learned in the war that was the prelude to Vietnam.

Madam Josefina's Social House Dan Jakel,2024-02-02 Buenos Aires, 1904. A burgeoning city with a political class dominated by ruthless businessmen, a middle class harbouring disenchanted revolutionaries, and hundreds of thousands of working migrants, amongst whom anarchist ideologies are taking hold. Commissioner De La Fuente leads the Detective Division of the Police of the Capital. He's got a strategy to rid the country of radicalized anarchists before their bombs start exploding, and to quell yet another bloody insurrection. He's also ambitious, willing to do whatever it takes to obtain the exalted position of Chief of Police. He owns Madam Josefina's Social House, a brothel, taking advantage of the indiscretions of the powerful to gain their support, through blackmail if necessary. Enter Sofia Montserrat, taking on the job of bookkeeper. She's an idealistic aristocrat with a secret, writing social critiques for underground newspapers in her spare time. While hiding out from the Spanish authorities she discovers a deadly plot conceived by rogue elements of the police force. She could just let it run its course, but her conscience won't allow it, and her decisions will have grave repercussions for herself and those she loves. *Madam Josefina's Social House* is a historical thriller, which takes the reader from the sweeping landscapes and enduring poverty of Spain's rural south to the tenements of metropolitan Buenos Aires. And an inconspicuous brothel, a place of erotic passion and Tango, a place where destinies collide.

Building the Compensatory State Robert F. Durant,2019-09-24 Contemporary public administration research has marginalized the importance of "taking history seriously." With few exceptions, little recent scholarship in the field has looked longitudinally (rather than cross-sectionally), contextually, and theoretically over extended time periods at "big questions" in public administration. One such "big question" involves the evolution of American administrative reform and its link since the nation's founding to American state building. This book addresses this gap by analyzing administrative reform in unprecedented empirical and theoretical ways. In taking a multidisciplinary approach, it incorporates recent developments in cognate research fields in the humanities and social sciences that have been mostly ignored in public administration. It thus challenges existing notions of the nature, scope, and power of the American state and, with these, important aspects of today's conventional wisdom in public administration. Author Robert F. Durant explores the administrative state in a new light as part of a "compensatory state"—driven, shaped, and amplified since the nation's founding by a corporate-social science nexus of interests. Arguing that this nexus of interests has contributed to citizen estrangement in the United States, he offers a broad empirical and theoretical understanding of the political economy of administrative reform, its role in state building, and its often paradoxical results. Offering a reconsideration of conventional

wisdom in public administration, this book is required reading for all students, scholars, or practitioners of public administration, public policy, and politics.

The Cold War Comes to Main Street Lisle A. Rose,1999 In 1950, Main Street American was abruptly traumatized. The sudden prospect of thermonuclear war with the Soviet Union, Senator McCarthy's vicious anticommunist crusade, and the beginning of the Korean War all combined to dampen the public mood. The Cold War invaded every home. Rose maintains that 1950 was a pivotal year for the nation. He argues that the convergence of Korea, McCarthy, and the bomb wounded the nation in ways from which we've never fully recovered. Brimming with originality, this book makes readers look at the Cold War from a dozen different angles.
