The British Invasion Bill Harry, 2004 This lavish book, featuring many previously unseen photographs, reproductions of newspaper front pages and other visuals, covers the events leading up to the moment when British music exploded on to the American scene and Beatlemania went Transatlantic. The first book of its kind to look in depth at the phenomenon of the British Invasion, it also covers all the bands subsequent to the Beatles that have made it big in the States. While much has been made of the influence American rock'n'roll had on UK bands, until now little has been said on the way British music influenced American culture.

**From New Zion to Old Zion** Joseph B. Glass, 2002 American aliyah (immigration to Palestine) began in the mid-nineteenth century fueled by the desire of American Jews to study Torah and by their wish to live and be buried in the Holy Land. This movement of people -- men and women increased between World War I and II, in direct contrast to the European Jewry's desire to immigrate to the United States. Why would American Jews want to leave America, and what characterized their resettlement? *From New Zion to Old Zion* analyzes the migration of American Jews to Palestine between the two World Wars and explores the contribution of these settlers to the building of Palestine. Joseph B. Glass details the scope and scale of this migration, outlines the characteristics of the immigrants, and constructs profiles of four distinct immigrant groups -- orthodox, middle-class agriculturists, urban professionals, and halutzim (pioneers). Glass studies the motivational factors for emigration from the United States, sources of information and available resources required for settlement, and the political barriers to migration. He examines the activities of the American Zion Commonwealth and its purchase and development of land in Palestine, as well as the settlement initiatives of various American companies and ahava societies. Glass explores the role of individual men and women in urban and rural settlement on privately purchased and Jewish National Fund land. *From New Zion to Old Zion* draws upon international archival correspondence, newspapers, maps, photographs, interviews, and fieldwork to provide students and scholars of immigration and settlement processes, the Yishuv (Jewish community in Palestine), and American-Holy Land studies a well-researched portrait of aliyah.

**The Routledge Companion to Popular Music History and Heritage** Sarah Baker, Catherine Strong, Lauren Istvandy, Zelmari Cantillon, 2018-05-16 The Routledge Companion to Popular Music History and Heritage examines the social, cultural, political and economic value of popular music as history and heritage. Taking a cross-disciplinary approach, the volume explores the relationship between popular music and the past, and how interpretations of the changing nature of the past in post-industrial societies play out in the field of popular music. In-depth chapters cover key themes around historiography, heritage, memory and institutions, alongside case studies from around the world, including the UK, Australia, South Africa and India, exploring popular music's connection to culture both past and present. Wide-ranging in scope, the book is an excellent introduction for students and scholars working in musicology, ethnomusicology, popular music studies, critical heritage studies, cultural studies, memory studies and other related fields.

**Fourteen Stories** Jay Baruch, 2007 2007 Book of the Year Honorable Mention, Short Stories, Foreword Magazine Plunging into one of Jay Baruch's stories is like finding yourself in a busy Emergency Room at two in the morning--here you will meet characters whose lives are urgent and not always what they seem on the surface. Like his characters, Baruch's writing is vibrant and intense, and his vision is prismatic. He speaks in many voices, among them doctor, patient, family member, medical student, and even ER janitor, and so examines the world of health and illness from many points of view. I appreciate the way Baruch acknowledges the complexity of life, and then dissects it for us into so many planes of action and consequence. -- Cortney Davis, author of *The Heart's Truth: Essays on the Art of Nursing* (Kent State University Press, 2009) An emergency physician and faculty member at Brown Medical School, Jay Baruch has long been fascinated by how illness can make people strangers to their own bodies, how we all struggle to maintain control as the body decays and life slowly becomes unrecognizable, and how health professionals discover and struggle with the limits of their own competence and compassion. In *Fourteen Stories*, Baruch doesn't present a series of clinically based essays but a rich collection of short fiction that gives voice to a variety of people who, faced with difficult moral choices, find themselves making disturbing self-discoveries. Baruch's unique voice is a welcome addition to the genre of medical narratives--fiction and non-fiction alike--that is becoming increasingly important to medical and nursing schools' and university curricula.

**A Touch of Danger** Francis Durbridge, 1989 Max Telligan, a popular novelist, has returned to his London apartment from a business trip to Munich to find his evening newspaper containing a report of his violent death. He subsequently is greeted by a parade of mysterious visitors who seek a pocket-sized calculator, threatened him with a poison-tipped walking stick and display photographs of his wife in flagrante delicto. Max has, it seems, unwittingly become embroiled in the activities of an international terrorist group

**Preserving Popular Music Heritage** Sarah Baker, 2015-05-01 There is a growing awareness around the world of the pressing need to archive the material remnants of popular music so as to safeguard the national and local histories of this cultural form. Current research suggests that in the past 20 or so years there has been an expansion of DIY heritage practice, with the founding of numerous DIY popular music institutions, archives and museums around the world. This edited collection seeks to explore the role of DIY or Pro-Am (Professional-Amateur) practitioners of popular music archiving and preservation. It looks critically at ideas around DIY preservationism, self-authorised and unauthorised heritage practice and the DIY institution, while also unpacking the potentialities of bottom-up, community-based interventions into the archiving and preservation of popular music's material history. With an international scope and an interdisciplinary approach, this is an important reference for scholars of popular music, heritage studies and cultural studies.

*The Vatican's Vault* Barry Libin, 2019-02-18 Conspiracy, intrigue, deceit, and murder in the holiest of sanctuaries result from man's ultimate fall – thou shall not covet. THE VATICAN'S VAULT is based on religious and historical events that portray the fierce enmity within the Catholic Church emanating from the challenge of modernity versus tradition. The novel traces an early nineteenth-century secret Italian document, The Permanent Instruction of the Alta Vendita, that maps out a generational blueprint to overthrow the hierarchy of the Catholic Church. The story takes place during the final phase of this conspiracy at a time when the Church is most vulnerable following the deadly sins of child molestation, the redefining of family and marriage, and the attempt to overthrow theological rigidity and conservatism. New York Medical Examiner and detective, Dr. Jeffrey Moss, fresh from solving *The Mystery of the Milton Manuscript* (Urim, 2014), leads the investigation of a young priest murdered at 452 Madison Avenue, the official residence of the Archbishop of New York. At autopsy, the examination reveals three gold pieces ingeniously hidden, two, of which, were designed for

Pope Clement VII by Benvenuto Cellini, the great Italian Renaissance artist, and the third, a diadem originating from the earliest days of the Israelites in Egypt. Together with the brilliant archeologist, Daniella Teller, the duo delve into ancient biblical texts, Jewish and Christian history, the deepest secrets of the Masonic Brotherhood, and the internal strife within today's Vatican to pursue the murderer. The plot turns to terror, including the attempted murder of the Pope himself, as Jeff and Daniella probe the secrets of The Vatican's Vault that uncovers a conspiracy to destroy the Church and its Papacy.

**Atlantic Shorelines** Mark D. Bertness,2007 Atlantic Shorelines is an introduction to the natural history and ecology of shoreline communities on the East Coast of North America. Writing for a broad audience, Mark Bertness examines how distinctive communities of plants and animals are generated on rocky shores and in salt marshes, mangroves, and soft sediment beaches on Atlantic shorelines. The book provides a comprehensive background for understanding the basic principles of intertidal ecology and the unique conditions faced by intertidal organisms. It describes the history of the Atlantic Coast, tides, and near-shore oceanographic processes that influence shoreline organisms; explains primary production in shoreline systems, intertidal food webs, and the way intertidal organisms survive; sets out the unusual reproductive challenges of living in an intertidal habitat, and the role of recruitment in shaping intertidal communities; and outlines how biological processes like competition, predation, facilitation, and ecosystem engineering generate the spatial structure of intertidal communities. The last part of the book focuses on the ecology of the three main shoreline habitats--rocky shores, soft sediment beaches, and shorelines vegetated with salt marsh plants and mangroves--and discusses in detail conservation issues associated with each of them.
