*You Are a Cat!* Sherwin Tjia,2011-10 Inspired by the gamebook fad of the late 80s -- You Are a Cat! is both a parody and homage, focusing on a dysfunctional family, but told through the eyes of their cat. Fully a third of the book is lavishly illustrated from the feline first-person floor perspective. The different choices you make affect people and events! Even something as seemingly trivial as whether or not to purr can result in dramatic changes. As the first book in the fictional Pick-a-Plot series, You Are a Cat! includes numerous fake preview advertisements for improbable future titles in the series, like You Are a Cult Leader! You Are Homeless! and You Are Obsessed With Johnny Depp! An amalgam of image and text, art book and graphic novel, this is the complete package from a talented writer and artist. The kittenish & catactular You Are a Cat! is the closest you'll come to being a cat without dying and being reincarnated as one.

**Multilingual Text-to-Speech Synthesis** Richard Sproat, 1997-10-31 Multilingual Text-to-Speech Synthesis: The Bell Labs Approach is the first monograph-length description of the Bell Labs work on multilingual text-to-speech synthesis. Every important aspect of the system is described, including text analysis, segmental timing, intonation and synthesis. There is also a discussion of evaluation methodologies, as well as a chapter outlining some future areas of research. While the book focuses on the Bell Labs approach to the various problems of converting from text into speech, other approaches are discussed and compared. Thus, this book serves both the function of providing a single reference to an important strand of research in multilingual synthesis, while at the same time providing a source of information on current trends in the field. Chapters in this work were contributed by Richard Sproat, Jan van Santen, Bernd Möbius, Chilin Shih, Joseph Olive, Evelyne Tzoukermann, all of Bell Labs, and Kazuaki Maeda of the University of Pennsylvania.
