Library Publishing Toolkit Allison P. Brown, 2013 Both public and academic libraries are invested in the creation and distribution of information and digital content. They have morphed from keepers of content into content creators and curators, and seek best practices and efficient workflows with emerging publishing platforms and services. The Library Publishing Toolkit looks at the broad and varied landscape of library publishing through discussions, case studies, and shared resources. From supporting writers and authors in the public library setting to hosting open access journals and books, this collection examines opportunities for libraries to leverage their position and resources to create and provide access to content.

All My Rivers are Gone Katie Lee, 1998 David Brower, who has always regretted the Sierra Club's failure to save the Glen Canyon, called it The Place No One Knew. But Katie Lee was among a handful of men and women who knew the 170 miles of Glen Canyon very well. She'd made sixteen trips down the river, even named some of the side canyons. Glen Canyon and the river that ran through it had changed her life. Her descriptions of a magnificent desert oasis and its rich archaeological ruins are a paeon to paradise lost. In 1963, the U.S. Government's Bureau of Reclamation (the Wreck-the-nation bureau, Katie calls it) shut off the flow of the Colorado River at Glen Canyon Dam, beginning the process of flooding this natural treasure. Two generations have been born since the dam was built, and in a few more decades there may be no one alive who will have known the place. Katie Lee won't forget Glen Canyon, and she doesn't want anyone else to forget it either. She tells us what there was to love about Glen Canyon and why we should miss it. The canyon had great personal significance for her: She had gone to Hollywood to make her career as an actress and a singer, but the river kept calling her back, showing her a better way to live. She very eloquently weaves her personal story into her breathtaking descriptions of

the trips she made down the canyon. In recent years, Katie has found allies in her struggle to restore the canyon. The Glen Canyon Institute has been joined by the Sierra Club in calling for the draining of Lake Powell (Rez Foul, in Katie's words), and the idea is being debated on editorial pages across the country and in congressional hearings. *All My Rivers Are Gone* celebrates a great American landscape, mourns its loss, and challenges us to undo the damage and forever prevent such mindless destruction in the future.
