**An East Asian Challenge to Western Neoliberalism** Niv Horesh,Kean Fan Lim,2017-08-03

Analysts generally agree that, in the long term, the biggest challenge to American hegemony is not military, but rather China's economic rise. This perception is spread in no small measure because Xi Jinping has - in the face of patent military inferiority - conducted himself much more boldly on the world stage than Hu Jintao. Meanwhile, China has also begun conjuring up an alternative vision for global leadership, now widely termed as the 'China model'. This book therefore offers a critical and comprehensive explanation of the China model and its origins. Using a range of case studies, covering varying historical and geographical approaches, it debates whether the Chinese experience in the last three decades of economic reform should be interpreted as an answer to the reigning hegemony of neoliberalism, or rather a further reinforcement of it. To answer these questions, it provides an investigation into what China may have learned from its East Asian neighbours' earlier economic successes. It also examines how it is responding to and might even reconfigure the world political-economic system as it develops fresh and potentially more powerful regulatory capacities. Providing a multi-dimensional analysis of the 'China model', the book will be of interest to students and scholars of Chinese Economics, Economic Geography and Chinese Studies.

**Quest for Political Power: Communist Subversion and Militancy in Singapore** Bilveer Singh,2014-12-15 The history of communism in Malaya (including Singapore) almost coincided with the rise and fall of communism worldwide, best epitomized in Europe by the fall of the Berlin Wall in 1989. Operating through the Malayan Communist Party, communism posed an existential threat to Malaya. While the communist threat in peninsular Malaya was manifested dramatically in armed struggle with guerrillas in the jungle, in Singapore it was primarily in the form of united front subversive activities, interspersed with episodes of violence and assassinations. This new book examines the MCP's quest for political power in Singapore in the midst of a raging Cold War between communism and the free world, with particular focus on events in the 1950s and 1960s. From its close collaboration with the two leading communist great powers (USSR and China) to its united front strategy of infiltrating student, trade union and political organizations, the MCP's activities are related here in a clear and engaging manner

Chinese Business in the Making of a Malay State, 1882-1941 Wu Xiao An,2003-12-08 This book examines how Chinese family and business networks, focused around activities such as revenue farming, including opium, the rice trade, and pawnbroking, and related legal and labour organization activities, were highly influential in the process of state formation in Malaya. It shows how Chinese family and business networks were flexible and dynamic, and were closely interlocked with economic and social structures, around which government, and states, developed. It considers the crucial role

of wealth and power in the process of state formation, and challenges accepted views of Chinese ethnicity and migration.

**Forgotten Armies** Christopher Alan Bayly, Timothy Norman Harper, 2005 In the early stages of the Second World War, the vast crescent of British-ruled territories stretching from India to Singapore appeared as a massive Allied asset. It provided scores of soldiers and great quantities of raw materials and helped present a seemingly impregnable global defense against the Axis. Yet, within a few weeks in 1941-42, a Japanese invasion had destroyed all this, sweeping suddenly and decisively through south and southeast Asia to the Indian frontier, and provoking the extraordinary revolutionary struggles which would mark the beginning of the end of British dominion in the East and the rise of today's Asian world. More than a military history, this gripping account of groundbreaking battles and guerrilla campaigns creates a panoramic view of British Asia as it was ravaged by warfare, nationalist insurgency, disease, and famine. It breathes life into the armies of soldiers, civilians, laborers, businessmen, comfort women, doctors, and nurses who confronted the daily brutalities of a combat zone which extended from metropolitan cities to remote jungles, from tropical plantations to the Himalayas. Drawing upon a vast range of Indian, Burmese, Chinese, and Malay as well as British, American, and Japanese voices, the authors make vivid one of the central dramas of the twentieth century: the birth of modern south and southeast Asia and the death of British rule.
