The Rats of Hamelin Adam McCune,Keith McCune,2005-08-01 In that scented, touch-filled Pipeworld, where notes speak clear as words, where connections are thick and countless, I felt the chaining up and circling together of other traces in my head. And as the Pipe amplified all sounds and souls, including mine, I heard my mind echoing: the mission is dead- No rat-kill, no reward, no liberation. No home, no Hofmanns, no Klara- It was all an illusion. The Rats of Hamelin blends history and fantasy to reshape the hazy legend of the pied piper. After six years as a piper's apprentice, Hannes sets out on the mission that will make him a master in the guild. His orders seem simple enough: rid Hamelin of a plague of rats and use the reward money for a charitable cause. Simple indeed, until he discovers that the real rats of Hamelin aren't the ones scurrying underfoot. Unsure who to count among his friends- the mayor's beautiful daughter, generous businessman, a precocious little girl? Hannes struggles against deadly enemies and thoughtless allies. Every step he takes comes down to a deceptively simple choice: when to show mercy and when to bring justice. Readers will be thrilled with this first novel by Adam and Keith McCune. This father-son team bring a wealth of linguistic and literary knowledge to bear on their retelling of the famous Pied Piper fairy tale. The story naturally lends itself to reflection on the themes of law and mercy, as well as the sometimes-complex nature of the relationship between fathers and sons.

Ghosts on the Somme Alastair H. Fraser,Andrew Robertshaw,Steve Roberts,2009-04-19 The Battle of the Somme is one of the most famous, and earliest, films of war ever made. The film records the most disastrous day in the history of the British army—1 July 1916—and it had a huge impact when it was shown in Britain during the war. Since then images from it have been repeated so often in books and documentaries that it has profoundly influenced our view of the battle and of the Great War itself. Yet this book is the first in-depth study of this historic film, and it is the first to relate it to the surviving battleground of the Somme.The authors explore the film and its history in fascinating detail. They investigate how much of it was faked and consider how much credit for it should go to Geoffrey Malins and how much to John MacDowell. And they use modern photographs of the locations to give us a telling insight into the landscape of the battle and into the way in which this pioneering film was created.Their analysis of scenes in the film tells us so much about the way the British army operated in June and July 1916—how the troops were dressed and equipped, how they were armed and how their weapons were used. In some cases it is even possible to discover what they were saying. This painstaking exercise in historical reconstruction will be compelling reading for everyone who is interested in the Great War and the Battle of the Somme.

Stick to the Skin Celeste-Marie Bernier,2019-01-08 The first comparative history of African American and Black British artists, artworks, and art movements, *Stick to the Skin* traces the lives and works of over fifty painters, photographers, sculptors, and mixed-media, assemblage, installation, video, and performance artists working in the United States and Britain from 1965 to 2015. The artists featured in this book cut to the heart of hidden histories, untold narratives, and missing memories to tell stories that stick to the skin and arrive at a new Black lexicon of liberation. Informed by extensive research and invaluable oral testimonies, Celeste-Marie Bernier's remarkable text forcibly asserts the

originality and importance of Black artists' work and emphasizes the need to understand Black art as a distinctive category of cultural production. She launches an important intervention into European histories of modern and contemporary art and visual culture as well as into debates within African American studies, African diasporic studies, and Black British studies. Among the artists included are Benny Andrews, Bessie Harvey, Lubaina Himid, Claudette Johnson, Noah Purifoy, Faith Ringgold, Betye Saar, Joyce J. Scott, Maud Sulter, and Barbara Walker.

Imagining Transnationalism Elizabeth Louise Gerber, 2003

Metaphoricity and the Politics of Mobility, 2016-08-01 This collection of essays investigates the convergence between the postmodern politics of mobility and a politics of metaphor, a politics, in other words, in the context of which the production and displacement of meaning(s) constitute the major stakes. Ranging from discussions of re-territorialization, multiculturalism, "digisporas" and transnational politics and ethics, to September 11th, the Pentagon's New Map, American legislation on Chinese immigration, Gianni Amelio's film *Lamerica*, Keith Piper's online installations and Doris Salcedo's *Atrabiliarios*, the collection aims to follow three different theoretical trajectories. First, it seeks to rethink our concepts of mobility in order to open them up to the complexity that structures the thoughts and practices of a global order. Second, it critically examines the privileged position of concepts and metaphors of mobility within postmodern theory. In juxtaposing conflictual theoretical formulations, the book sets out to present the competing responses that fuel academic debates around this issue. Finally, it evaluates the influence of our increasingly mobile conceptual frameworks and everyday experience on the redefinition of politics that is currently under way, especially in the context of Post-Marxist theory. Its hope is to contribute to the production of alternative political positions and practices that will address the conflicting desires for attachment and movement marking postmodernity.

Things Done Change Eddie Chambers, 2012-01-01 1980s Britain witnessed the brassy, multifaceted emergence of a new generation of young, Black-British artists. Practitioners such as Sonia Boyce and Keith Piper were exhibited in galleries up and down the country and reviewed approvingly. But as the 1980s generation gradually but noticeably fell out of favour, the 1990s produced an intriguing new type of Black-British artist. Ambitious, media-savvy, successful artists such as Steve McQueen, Chris Ofili, and Yinka Shonibare made extensive use of the Black image (or, at least, images of Black people, and visuals evocative of Africa), but did so in ways that set them apart from earlier Black artists. Not only did these artists occupy the curatorial and gallery spaces nominally reserved for a slightly older generation but, with aplomb, audacity, and purpose, they also claimed previously unimaginable new spaces. Their successes dwarfed those of any previous Black artists in Britain. Back-to-back Turner Prize victories, critically acclaimed Fourth Plinth commissions, and no end of adulatory media attention set them apart. What happened to Black-British artists during the 1990s is the chronicle around which *Things Done Change* is built. The extraordinary changes that the profile of Black-British artists went through are discussed in a lively, authoritative, and detailed narrative. In the evolving history of Black-British artists, many factors have played their part. The art world's turning away from work judged to be overly 'political' and 'issue-based'; the ascendancy of Blair's New Labour government, determined to locate a bright and friendly type of 'diversity' at the heart of its identity; the emergence of the precocious and hegemonic yBa grouping; governmental shenanigans; the tragic murder of Black Londoner Stephen Lawrence - all these factors and many others underpin the telling of this fascinating story. *Things Done Change* represents a timely and important contribution to the building of more credible, inclusive, and nuanced art histories. The book avoids treating and discussing Black artists as practitioners wholly separate and distinct from their counterparts. Nor does the book seek to present a rosy and varnished account of Black-British artists. With its multiple references to Black music, in its title, several of its chapter headings, and citations evoked by artists themselves, *Things Done Change* makes a singular and compelling narrative that reflects, as well as draws on, wider cultural manifestations and events in the socio-political arena.

The Skye Collection of the Best Reels and Strathspeys Keith Norman Macdonald, 2002-05 The famous Skye Collection, which first appeared in 1887 and was later reprinted in a smaller edition, has been out of print for many years. The title page indicates that it included the best Reels & Strathspeys extant embracing over four hundred tunes collected from all the best sources, compiled and arranged for violin and piano by Keith Norman Macdonald. It is hoped that this new edition, which includes all the tunes from the earlier first and second editions, will meet the demand from Scottish music enthusiasts to have available again one of the outstanding collections of original airs. Many of the tunes are originally for bagpipe, but all of the tunes have been presented here in piano arrangements with melody and accompaniment. Violinists or fiddlers, pipers, or other melody instruments may double the melody. The original compiler's 1887 preface is also included, which provides insights into the sources and proper interpretation of the tunes.

Music of Paradise for the Church Piper Keith E. MacDonald, 1987-01-01

Visualising Slavery Celeste-Marie Bernier, Hannah Durkin, 2016 The purpose of this book is to excavate and recover a wealth of under-examined artworks and research materials directly to interrogate, debate and analyse the tangled skeins undergirding visual representations of transatlantic slavery across the Black diaspora. Living and working on both sides of the Atlantic, as these scholars, curators and practitioners demonstrate, African diasporic artists adopt radical and revisionist practices by which to confront the difficult aesthetic and political realities surrounding the social and cultural legacies let alone national and mythical memories of Transatlantic Slavery and the international Slave Trade. Adopting a comparative perspective, this book investigates the diverse body of works produced by black artists as these contributors come to grips with the ways in which their neglected and repeatedly unexamined similarities and differences bear witness to the existence of an African diasporic visual arts tradition. As in-depth investigations into the diverse resistance strategies at work within these artists' vast bodies of work testify, theirs is an ongoing fight for the right to art for art's sake as they challenge mainstream tendencies towards examining their works solely for their sociological and political dimensions. This book adopts a cross-cultural perspective to draw together artists, curators, academics, and public researchers in order to provide an

interdisciplinary examination into the eclectic and experimental oeuvre produced by black artists working within the United States, the United Kingdom and across the African diaspora. The overall aim of this book is to re-examine complex yet under-researched theoretical paradigms vis-à-vis the patterns of influence and cross-cultural exchange across both America and a black diasporic visual arts tradition, a vastly neglected field of study.

Roots & Culture Eddie Chambers,2016-12-18 How did a distinct and powerful Black British identity emerge? In the 1950s, when many Caribbean migrants came to Britain, there was no such recognised entity as Black Britain. Yet by the 1980s, the cultural landscape had radically changed, and a remarkable array of creative practices such as theatre, poetry, literature, music and the visual arts gave voice to striking new articulations of Black-British identity. This new book chronicles the extraordinary blend of social, political and cultural influences from the mid-1950s to late 1970s that gave rise to new heights of Black-British artistic expression in the 1980s. Eddie Chambers relates how and why during these decades West Indians became Afro-Caribbeans, and how in turn Afro-Caribbeans became Black-British - and the centrality of the arts to this important narrative. The British Empire, migration, Rastafari, the Anti-Apartheid struggle, reggae music, dub poetry, the ascendance of the West Indies cricket team and the coming of Margaret Thatcher - all of these factors, and others, have had a part to play in the compelling story of how the African Diaspora transformed itself to give rise to Black Britain.
