Political Descent Piers J. Hale, 2014-08-05 Historians of science have long noted the influence of the nineteenth-century political economist Thomas Robert Malthus on Charles Darwin. In a bold move, Piers J. Hale contends that this focus on Malthus and his effect on Darwin's evolutionary thought neglects a strong anti-Malthusian tradition in English intellectual life, one that not only predated the 1859 publication of the *Origin of Species* but also persisted throughout the Victorian period until World War I. *Political Descent* reveals that two evolutionary and political traditions developed in England in the wake of the 1832 Reform Act: one Malthusian, the other decidedly anti-Malthusian and owing much to the ideas of the French naturalist Jean Baptiste Lamarck. These two traditions, Hale shows, developed in a context of mutual hostility, debate, and refutation. Participants disagreed not only about evolutionary processes but also on broader questions regarding the kind of creature our evolution had made us and in what kind of society we ought therefore to live. Significantly, and in spite of Darwin's acknowledgement that natural selection was "the doctrine of Malthus, applied to the whole animal and vegetable kingdoms," both sides of the debate claimed to be the more correctly "Darwinian." By exploring the

full spectrum of scientific and political issues at stake, *Political Descent* offers a novel approach to the relationship between evolution and political thought in the Victorian and Edwardian eras.

Unplug Him James Lange Amundson,2011-04-01 By the end of the day on February 11, 2001, forty-five-year-old James Lange Amundson was fighting for his life. While on a snowmobiling excursion in his home state of Wisconsin, Amundson's sled was broadsided by another snowmobile traveling almost 100 miles per hour. Married with three children, Amundson suffered a variety of life-threatening injuries, including a closed traumatic brain injury. His battle to survive would be long and arduous. In this memoir, Amundson describes traumatic brain injuries and recounts his journey to recovery. Weaving in stories from his childhood as a member of the drum corps and a speed skating team, as well as a practitioner of Tae Kwon Do, *Unplug Him* narrates how Amundson believes these competitive and demanding experiences contributed to his determination to heal. *Unplug Him* provides insight into one man's fight to overcome a brain injury and communicates the power of a positive attitude when confronted with seemingly insurmountable obstacles.

Heartland, a Drama in Two Acts Kevin Heelan,1982

Where the Money Went Kevin Canty,2010-08-10 In these nine surprising stories about love and the desertion of love, a father contemplates his bank balance amid receipts for ski vacations; a real-estate agent tries to sell a house while his small son bites other children; and a widower, resigned to television for company, discovers the pleasures of life with another woman. In Kevin Canty's masterful collection, men convey the bitterness,

tenderness, and humor of romantic relationships. Rarely is a man so revealing.

The Man Below Kevin Tumlinson, 2021-06-01 SOME SECRETS REFUSE TO STAY BURIED In the dark and silent halls of a defunct secret government facility, buried deep in the mountains surrounding Los Lunas, New Mexico, Dr. Clara Rivers—a civilian consultant and agent for a fledgling Federal task force—has been abducted. Imprisoned in the pitch black of The Pit, she fights to survive, while hunted by the Comrade—the man below. Somehow tied to the abduction is the mysterious Decalogue Stone—an ancient, carved rock bearing an impossible message. Archaeologist and FBI consultant Dr. Dan Kotler is asked to assist in finding the lost agent. And joining him, hiding in plain sight from the very people who are pursuing her, is the fugitive Alex Kayne. Together, using their wits and genius, as well as Kayne's incredible QuIEK technology, they race along side the FBI to find the missing woman and stop the plans of a psychotic madman. THE FIRST CROSSOVER FOR DAN KOTLER AND ALEX KAYNE MAY BE THEIR LAST An Historic Crimes Crossover event! Kevin Tumlinson's Dan Kotler Archaeological thrillers and Quake Runner: Alex Kayne Thrillers.

The Antarctic Forgery Kevin Tumlinson, 2018-12-15 When an ancient map of Antarctica is found to be a forgery, it reveals an enigma of history and a terrifying modern-day threat. For the past two years, Gail McCarthy has been a constant source of danger and chaos in the lives of Dan Kotler and his FBI partner, Roland Denzel. Her vast smuggling empire empowers her to move about in the world without the worry of capture, as she spearheads criminal activities on a global scale. Guns, drugs, human trafficking—there's no black-market industry she doesn't touch or flat-out control, and she has the power to continually stay ahead of the world's top law enforcement agencies. Now she has her sights set on a new treasure—one that could fuel her rise to the status of a world power, and make her invincible. Kotler and

Denzel race the clock to solve the riddle of the Antarctic forgery and stop Gail from getting her hands on a weapon that Hitler himself once coveted. The Antarctic Forgery is the fifth full-length novel in the Dan Kotler Archaeological thrillers.
