**Killer on the Road** Ginger Strand, 2012-04-04 Starting in the 1950s, Americans eagerly built the planet's largest public work: the 42,795-mile National System of Interstate and Defense Highways. Before the concrete was dry on the new roads, however, a specter began haunting them—the highway killer. He went by many names: the “Hitcher,” the “Freeway Killer,” the “Killer on the Road,” the “I-5 Strangler,” and the “Beltway Sniper.” Some of these criminals were imagined, but many were real. The nation's murder rate shot up as its expressways were built. America became more violent and more mobile at the same time. *Killer on the Road* tells the entwined stories of America's highways and its highway killers. There's the hot-rodding juvenile delinquent who led the National Guard on a multistate manhunt; the wannabe highway patrolman who murdered hitchhiking coeds; the record promoter who preyed on “ghetto kids” in a city reshaped by freeways; the nondescript married man who stalked the interstates seeking women with car trouble; and the trucker who delivered death with his cargo. Thudding away behind these grisly crime sprees is the story of the interstates—how they were sold, how they were built, how they reshaped the nation, and how we came to equate them with violence. Through the stories of highway killers, we see how the “killer on the road,” like the train robber, the gangster, and the mobster, entered the cast of American outlaws, and how the freeway—conceived as a road to utopia—came to be feared as a highway to hell.

**Handbook of Research on Mobile Devices and Applications in Higher Education Settings** Briz-Ponce, Laura, Juanes-Méndez, Juan Antonio, García-Peñalvo, Francisco José, 2016-07-13 Mobile phones have become an integral part of society, as their convenience has helped democratize and revolutionize communication and the marketplace of ideas. Because of their ubiquity in higher education, undergraduate classrooms have begun to utilize smartphones and tablets as tools for learning. The *Handbook of Research on Mobile Devices and Applications in Higher Education Settings* explores and fosters new perspectives on the use of mobile applications in a classroom context. This timely publication will demonstrate the challenges that universities face when introducing new technologies to students and instructors, as well as the rewards of doing so in a thoughtful manner. This book is meant to present the latest research and become a source of inspiration for educators, administrators, researchers, app developers, and students of education and technology.

**Competition for the Mobile Internet** Dan Steinbock, Eli M. Noam, 2003-07-31 In recent years, billions of dollars (and euros, yen, and other currencies) have been spent by wireless services providers to acquire the radio frequency spectrum needed to offer so-called Third Generation (3G) mobile services. These services include high-speed data, mobile Internet access and entertainment such as games, music and video programs. Indeed, as voice communications are substituted by data communications, software -rather than terminals or networks- has become the driver of the wireless industry. Meanwhile, services are becoming increasingly specialized. Why has the road to multimedia cellular been so difficult? These benefits of the mobile Internet have come with the costs of a massive transition that has coincided with the bust of stock markets and the technology segments worldwide, controversial and costly license auctions in several lead markets, dated or mistaken regulatory policies, the clash between the early hype and the pioneering realities of the mobile Internet. But these are generalities that barely scratch the surface. The devil is in the details. And it is these details that *Competition for the Mobile Internet* addresses.

Political Silence of Youth in Togo Roos Keja, 2022-02-07 This book paints an image of sociality in duress, describing how new Information and Communication Technologies (ICT) bring possible changes in political engagement and civic-ness. The political branch of the field of ICT-for-Development (ICT4D) is firmly convinced that this translates in civic engagement and democratisation. This book questions this conception, by showing that mistrust greatly increases through new ICT in a society where mistrust has been internalised. These processes are examined in the society encountered in Sokodé, the capital of the Central Region of Togo, in the period between 2015 and 2020, when the mobile phone became widespread among young people. This ethnographic research provides a snapshot of the changes brought about by new ICT in the social fabrics and the lives of these young people. The place and period are highly relevant for getting a better understanding of the forms that civic engagement can take, and the roles that new ICT can play in settings of political repression. Togo has been ruled by the same family for over half a century, and Sokodé is one of the rare places of fierce political opposition. However, young people do not persevere in massive street protests like in other countries, even though they appear to have every reason to do so. How can the circumstances and social processes be understood that are leading to this ‘political silence’, and how do frustration and anger find their way? The link between new ICT and civic engagement has more often been made, but mostly quantitative and volatile, lacking empirical grounding. This book demonstrates that there is indeed a connection between new ICT and social change. Through their phones, young people inform themselves in different ways, and they react differently to social and political changes. Their reflection on politics has also altered, minimal as it may seem. By closely regarding the context and mechanisms by which the trustworthiness of information is valued, this book contributes to the nascent research field of communication and

political anthropology.

**Mobile Media** Jo Groebel,Eli M. Noam,Valerie Feldmann,2006-08-15 The proliferation of mobile media in recent years is an international phenomenon, with billions of devices sold annually. Mobile communications are now moving beyond individualized voice to mass media content--text, voice, sound, images, and even video. This will create new types of content that allow media companies and users to interact in new ways. There is a strong interest from the media and telecom industries in what manner of applications and content can be distributed in that fashion, and at what cost. To answer these questions, the book provides 18 chapters from internationally renowned authors. They identify likely types of content such as news, entertainment, peer-to-peer, and location-specific information; evaluate the economics, business models, and payment mechanisms necessary to support these media; and cover policy dimensions such as copyright, competitiveness, and access rights for content providers. This volume takes the reader through the various elements that need to be considered in the development of third generation (3G) content, and explains pitfalls and barriers. The result is a volume of interest to business professionals, academics, and policy makers. The book is international in focus and a glossary of terms is provided. There are few publications available which give an overview of this rapidly changing field.

**Michael Benson's True Crime Bundle: Watch Mommy Die, A Killer's Touch & A Knife In The Heart** Michael Benson,2012-03-06 In The Hands Of A Sadist... First, he bound and beat his girlfriend, a 43-year-old librarian. Then he went after her teenaged daughter-warning her, Scream and I will kill you both-before knocking her unconscious. When the teenager awoke, he proceeded to rape her. And in a final horrifying act of depravity, he forced the girl to watch as he slit her mother's throat. But the killing didn't stop there... In The Crosshairs Of A Killer... Stephen Stanko was described as a perfect gentleman who seemed so pleasant...and so normal. But behind Stanko's mild-mannered appearance, round spectacles, and quiet intelligence was a coldblooded ex-convict who kept a grisly scrapbook on serial killers-and convinced everyone he was a nice guy-until he killed and killed again. On The Trail Of A Psycho... A well-orchestrated manhunt caught up with Stanko, who tried to get

away with his crimes by pleading insanity. But the jury saw through his ruse and the ruthless killer was sentenced to death. Case Seen On 48 Hours Includes 16 Pages of Shocking Photos A PRETTY YOUNG WOMAN . . . Denise Amber Lee was a 21-year-old happily married mother of two little boys. She had her whole life ahead of her...until an intruder broke into her Florida home. Within a few short hours she was savagely terrorized, murdered, and buried naked in a shallow grave near a desolate swamp. A DEPRAVED KILLER . . . Michael King, a 38-year-old out-of-work plumber, was a ticking time bomb. For years, neighbors called the police on King, complaining that, among other things, he'd thrown battery acid in their pool and slashed their tires. Denise's fate was far worse. In a horrifying act of cruelty, King bound her with duct tape, raped her repeatedly, then shot her dead. A TRAGIC FAILURE. . . Incredibly, Denise managed to call 911 twice during her abduction. Eyewitnesses and her distraught husband also called, but a slow, inefficient system tragically failed her. As a result, Florida passed the Denise Lee Law, setting voluntary standards for 911 systems. King was sentenced to death. But for Denise and her loving family, it was too late. Includes 16 Pages of Shocking Photos Difficult to put down. . . This is one that I highly recommend. --True Crime Book Reviews on Watch Mommy Die Die For Love Sarah Ludemann was new to love. The Pinellas, Florida, 17-year old was a late bloomer. When she fell for a boy she was blind to the world of sex, drugs and drama swirling around her. Soon, Sarah had a bitter enemy in 18-year-old waitress Rachel Wade; both girls were head-over-heels with a cocky two-timer named Joshua Camacho. On a warm spring night, their passions erupted into violence. A knife flashed under the streetlights. When the fight was over one girl was dead and the other charged with murder. In an emotion-packed courtroom the whole story took shape--a troubling tale of conflicting lives, tangled sexual affairs, and the high price of having the right feelings for the wrong guy. . . Brisk pacing. . .shocking details. --Publishers Weekly on The Burn Farm Includes dramatic photos.
