Point of Sale Daniel Herbert, Derek Johnson, 2019-12-13 *Point of Sale* offers the first significant attempt to center media retail as a vital component in the study of popular culture. It brings together fifteen essays by top media scholars with their fingers on the pulse of both the changes that foreground retail in a digital age and the history that has made retail a fundamental part of the culture industries. The book reveals why retail matters as a site of transactional significance to industries as well as a crucial locus of meaning and interactional participation for consumers. In addition to examining how industries connect books, DVDs, video games, lifestyle products, toys, and more to consumers, it also interrogates the changes in media circulation driven by the collision of

digital platforms with existing retail institutions. By grappling with the contexts in which we buy media, Point of Sale uncovers the underlying tensions that define the contemporary culture industries.

There Is No App for Happiness Max Strom,2013-08-01 The revolutionary book on discovering your happiest self—now in paperback. Technology has expanded at such a rate that nearly every aspect of our world has been affected—yet there has been no corresponding expansion of personal happiness. Instead, we find that the wealthiest societies of the world have become depressed, anxious, sleep deprived, and overmedicated. Max Strom, author of *A Life Worth Breathing* and global teacher of personal transformation, reveals that we each have internal, human technology capable of empowering our lives and leading us to deeper levels of happiness. In his new book, *There Is No App for Happiness*, Strom illustrates three imperatives to

take back control of our lives. Imperative One: Self-study. Overcoming our negative presets. Imperative Two: Live as if your time and your lifespan were the same thing. Imperative Three: Learn a daily regimen that heals and empowers you, and practice it one hour a day. Learn that joy and fulfillment require us to be active participants and that we should not strive for a virtual life—but a life truly lived. There Is No App for Happiness will propel you into a new and more meaningful experience of living.
