Communication, Digital Media, and Popular Culture in Korea Dal Yong Jin, Nojin

Kwak, 2018-05-16 In recent decades, Korean communication and media have substantially grown to become some of the most significant segments of Korean society. Since the early 1990s, Korea has experienced several distinctive changes in its politics, economy, and technology, which are directly related to the development of local media and culture. Korea has greatly developed several cutting-edge technologies, such as smartphones, video games, and mobile instant messengers to become the most networked society throughout the world. As the Korean Wave exemplifies, the once small and peripheral Korea has also created several unique local popular cultures, including television programs, movies, and popular music, known as K-pop, and these products have penetrated many parts of the world. As Korean media and popular culture have rapidly grown, the number of media scholars and topics covering these areas in academic discourses has increased. These scholars' interests have expanded from traditional media, such as Korean journalism and cinema, to several new cutting-edge areas, like digital technologies, health communication, and LGBT-related issues. In celebrating the Korean American Communication Association's fortieth anniversary in 2018, this book documents and historicizes the growth of growing scholarship in the realm of Korean media and communication.

Conscience in Action Kim Dae-jung, 2018-06-20 This book is an English translation of the authoritative autobiography by the late South Korean President Kim Dae-jung. The 2000 Nobel Peace Prize winner, often called the Asian Nelson Mandela, is best known for his tolerant and innovative "Sunshine Policy" towards North Korea. Written in the five years between the end of his presidency and his death in 2009, this book offers a poignant first-hand account of Korea's turbulent modern history. It spans the pivotal time span between the Japanese colonial period (1910-1945) and reconciliation in the Korean Peninsula (2000-2009). In between are insightful insider descriptions of everything from wars and dictatorships to the hopeful period of economic recovery, blooming democracy, peace, and reconciliation. *Conscience in Action* serves as an intimate record of the Korean people's persistent and heroic struggle for democracy and peace. It is also an inspiring story of an extraordinary individual whose formidable perseverance and selfless dedication to the values he believed in led him to triumph despite more than four decades of extreme persecution.

Kim Seung-ho Kil-sŏng Yi, Han-sang Kim, Yŏng-min Kong, 2007

Kim Ki-duk Hye Seung Chung, 2012-02-15 This study investigates the controversial motion pictures written and directed by the independent filmmaker Kim Ki-duk, one of the most acclaimed Korean auteurs in the English-speaking world. Propelled by underdog protagonists who can only communicate through shared corporeal pain and extreme violence, Kim's graphic films have been classified by Western audiences as belonging to sensationalist East Asian extreme cinema, and Kim has been labeled a psychopath and misogynist in South Korea. Drawing upon both Korean-language and English-language sources, Hye Seung Chung challenges these misunderstandings, recuperating Kim's oeuvre as a therapeutic, yet brutal cinema of Nietzschean resentment (political anger and resentment deriving from subordination and oppression). Chung argues that the power of Kim's cinema lies precisely in its ability to capture, channel, and convey the raw emotions of protagonists who live on the bottom rungs of Korean society. She provides historical and postcolonial readings of victimization and violence in Kim's cinema, which tackles such socially relevant topics as national division in *Wild Animals* and *The Coast Guard* and U.S. military occupation in *Address Unknown*. She also explores the religious and spiritual themes in Kim's most recent works, which suggest possibilities of reconciliation and transcendence.

Kim Ki-young Hong-jun Kim, 2006 Film Studies. Asian Studies. Kim Ki-young is often acclaimed as an auteur whose films seem to contain new scenes every time you watch them. Though he was a leading director with unique artistic style and provocative themes in the 1960s, the first Golden Age of Korean films, he went into a long slump with the stagnation of the Korean film industry after the 70s and his films became almost forgotten. It was emerging cinephiles of early 90s that rediscovered him and his works. Kim's unfamiliar, strange and subversive films made deep impressions on these cinephiles, some of whom have become major figures representing Korean films today such as Park Chan-wook and Bong Joon-ho. Also international film circles began paying attention to Kim through the Retrospective at the Pusan International Film Festival in 1997. This book is a collaborative work of leading film critics under the editorship of Kim Hong-joon, who is a film director himself and has organized international retrospectives on the old master. As the first English book on Kim Ki-young, it will serve as a guiding light that focuses more eyes on Kim Ki-young and the classical films of Korea.
