Kotex, Kleenex, Huggies Thomas Heinrich, Bob Batchelor, 2004 At the core of Kotex, Kleenex, Huggies is the riveting story of Kimberly-Clark, a Wisconsin paper company that became a pioneer of personal hygiene products in the twentieth century. Its first big commercial success was Kotex, which came from sanitary wound bandages developed in World War I. Similarly, Kleenex evolved from Army gas mask filters into disposable handkerchiefs and became the company's most reliable profit maker. Finally, Huggies turned Kimberly-Clark into a leading player in the highly competitive diaper market of the 1970s and 1980s. In addition to tracing Kimberly-Clark's fascinating history of technology development and product diversification, Heinrich and Batchelor explore momentous changes in consumer behavior and marketing. When Kotex first arrived on the scene in the 1920s, menstrual hygiene was burdened with cultural taboos that made it impossible for many women to ask the (inevitably male) pharmacist for a sanitary napkin. To solve such vexing marketing problems, Kimberly-Clark invented the artificial word Kotex and inserted it into consumer vocabulary through massive advertising campaigns. Making it easier for women to shop for the new product. Kimberly-Clark also recommended that stores place boxes of Kotex on the counter where women could help themselves without embarrassing conversation, thus pioneering the concept of self-service.

How the Mighty Fall Jim Collins, 2011-09-06 Decline can be avoided. Decline can be detected. Decline can be reversed. Amidst the desolate landscape of fallen great companies, Jim Collins began to wonder: How do the mighty fall? Can decline be detected early and avoided? How far can a company fall before the path toward doom becomes inevitable and unshakable? How can companies reverse course? In **How the Mighty Fall**, Collins confronts these questions, offering leaders the well-founded hope that they can learn how to stave off decline and, if they find themselves falling, reverse their course. Collins' research project—more than four years in duration—uncovered five step-wise stages of decline: Stage 1: Hubris Born of Success Stage 2: Undisciplined Pursuit of More Stage 3: Denial of Risk and Peril Stage 4: Grasping for Salvation Stage 5: Capitulation to Irrelevance or Death By understanding these stages of decline, leaders can substantially reduce their chances of falling all the way to the bottom. Great companies can stumble, badly, and recover. Every institution, no matter how great, is vulnerable to decline. There is no law of nature that the most powerful will inevitably remain at the top. Anyone can fall and most eventually do. But, as Collins' research emphasizes, some companies do indeed recover—in some cases, coming back even stronger—even after having crashed into the depths of Stage 4. Decline, it turns out, is largely self-inflicted, and the path to recovery lies largely within our own hands. We are not imprisoned by our circumstances,

our history, or even our staggering defeats along the way. As long as we never get entirely knocked out of the game, hope always remains. The mighty can fall, but they can often rise again.

Throwaway Girl Kimberly Clark,2010-03 Born in a small college town in Ohio to an alcoholic father and young mother, this middle child would live through a childhood of extreme poverty with no hope for a future. She finally met the man of her dreams, or so she thought, in her second marriage, all to be thrown away in one tragic night of drinking. Although, not a lavish life, Kimberly has worked endless hours to achieve her dream of owning her own business, all the while raising two children on her own. Plagued by debilitating depression, she dug herself out from the lowest depths of hopelessness, when there was no hope.
