Sex Addiction Barry Reay, Nina Attwood, Claire

Gooder, 2015-08-06 The concept of sex addiction took hold in the 1980s as a product of cultural anxiety. Yet, despite being essentially mythical, sex addiction has to be taken seriously as a phenomenon. Its success as a purported malady lay with its medicalization, both as a self-help movement in terms of self-diagnosis, and as a rapidly growing industry of therapists treating the new disease. The media played a role in its history, first with TV, the tabloids and the case histories of claimed celebrity victims all helping to popularize the concept, and then with the impact of the Internet. This book is a critical history of an archetypically modern sexual syndrome. Reay, Attwood and Gooder argue that this strange history of social opportunism, diagnostic amorphism, therapeutic self-interest and popular cultural endorsement is marked by an essential social conservatism: sex addiction has become a convenient term to describe disapproved sex. It is a label without explanatory force. This book will be essential reading for those interested in sexuality studies, contemporary history, psychology, psychiatry, sociology, media studies and studies of the Internet. It will also be of interest to doctors and therapists currently working in this and related fields.

Temporality and Film Analysis Matilda Mroz,2012-08-06

Matilda Mroz argues that cinema provides an ideal opportunity to engage with ideas of temporal flow and change. Temporality, however, remains an underexplored area of film analysis, which frequently discusses images as though they were still rather than moving. This book traces the operation of duration in cinema, and argues that temporality should be a central concern of film scholarship. In close readings of Michelangelo Antonioni's *L'Avventura*, Andrei Tarkovsky's *Mirror*, and the ten short films that make up Krzysztof Kieślowski's *Decalogue* series, Mroz highlights how film analysis must consider both particular moments in cinema which are critically significant, and the way in which such moments interrelate in temporal flux. She explores the concepts of duration and rhythm, resonance and uncertainty, affect, sense and texture, to bring a fresh perspective to film analysis and criticism. Essential reading for students and scholars in Film Studies, this engaging study will also be a valuable resource for critical theorists.

The Honest Bengal Cat Guide for Humans Shirley O'Connor, 2017-12-15 My name is Shirley O'Connor, I have so much insider knowledge about beautiful Bengal cats - I am one, after all. Personally, I believe that the best way to get to know about anyone (or 'anycat') is to talk to them. So here you go, I've

written a guide book just for you. The joys and hazards of living with a Bengal cat or kitten. It's been a great experience - being a Bengal, we're VERY clever (as well as charming). I've found it hard to stop writing actually, it's been such good fun, as you'll find out later in the book we can also struggle to stop talking. I've talked to my fiercely loyal (and sometimes territorial) friends and neighbours so I can make sure you have plenty of sensible information about our breed. I will share my experiences along with those of my other Bengal friends (names have been changed to protect privacy for some of my more reserved Bengal acquaintances). I've provided you with everything you need to know about Bengal kittens and cats, our behaviours, markings, our wild heritage and history, IQ, tricks, mind-sets, favourite games and a bit more about me. I'm so thrilled you're even considering letting us own you, we are beautiful and you won't regret it. Bengals are special.

Multilingual Text-to-Speech Synthesis Richard Sproat, 1997-10-31 Multilingual Text-to-Speech Synthesis: The Bell Labs Approach is the first monograph-length description of the Bell Labs work on multilingual text-to-speech synthesis. Every important aspect of the system is described, including text analysis, segmental timing, intonation and synthesis. There is also a discussion of evaluation methodologies, as well as a chapter outlining some future areas of research. While the book focuses

on the Bell Labs approach to the various problems of converting from text into speech, other approaches are discussed and compared. Thus, this book serves both the function of providing a single reference to an important strand of research in multilingual synthesis, while at the same time providing a source of information on current trends in the field. Chapters in this work were contributed by Richard Sproat, Jan van Santen, Bernd Möbius, Chilin Shih, Joseph Olive, Evelyne Tzoukermann, all of Bell Labs, and Kazuaki Maeda of the University of Pennsylvania.

Fax Man David Carner, 2013-03-10 The unmistakable warble of a facsimile machine. A flash of light. And then... Private Investigator Kevin Fax awakes in a strange location, naked and with no recollection of who he is or how he got there. His one remaining memory, a telephone number, and his last link to the life he used to know. When the brother of an old flame goes missing, Kevin Fax is tasked with finding out what happened. His journey to unravel the truth will take him to dark places, places best left undisturbed. The missing man's place of employment; The Cooper Research and Technology Corporation, where the work being conducted is anything but ethical. In the midst of a cover up where twenty residents of a small Midwest town are killed, the leaders at Cooper Research and Tech will stop at nothing to keep Kevin from discovering the truth, but it will be one of their own inventions that will ultimately give Kevin the power to do so. Accidentally injected with the experimental X-9 serum, Kevin begins to change in a way that his very DNA is altered by advanced nano-technology, and with it comes an unimaginable side effect, the ability to transport himself at the molecular level by using an ordinary fax machine. Now, the seemingly antiquated office equipment is on the edge of becoming the world's most awe inspiring scientific breakthrough and there is one man at the center of it all - The Fax Man.
