Profiles in Polo Horace A. Laffaye,2015-08-28 This book, with contributions from many of the world's leading polo journalists, profiles more than 30 of the most influential polo players from history. The players covered were selected for inclusion based on their overall impact on the game rather than their prowess on the field, although many covered are considered all-time greats. Each chapter covers an individual player, including early pioneers, those who played during the golden era (the years between World War I and World War II), superstars, game-changers, and great contemporaries. The book includes numerous photographs and a foreword by H.R.H. The Prince of Wales.

A Year in the Life of Somerset CCC Andy Nash,Archer,2013-04-20 Written from the unique point of view of the club chairman, A Year in the Life of Somerset County Cricket Club is the story of the highs and lows of county cricket.Somerset County Cricket Club was founded in 1875 and since then has provided its many members and supporters with countless memories. In recent years the Club has established itself as one of the leading clubs in England, closely competing for honours every season and developing many young players through its age-group and Academy system. The Club has simultaneously transformed its fortunes off the pitch, managing to redevelop the County Ground in Taunton without freighting itself with large debts. In October last year the ECB granted Somerset Provisional Category B status, meaning it can now progress towards hosting England ODIs and T20 fixtures, which will bring many benefits to the West Country. This book provides a captivating insight into the daily workings in and around the Club throughout 2012 as it meets numerous challenges and prepares future plans.All royalties from sales of this book have been kindly donated by the author to the Clowance charity that promotes youth cricket.

Cascades: How to Create a Movement that Drives Transformational Change Greg Satell,2019-04-26 What does it take to change the world? This book will show you how to harness the power of CASCADES to create a revolutionary movement! If you could make a change—any change you wanted—what would it be? Would it be something in your organization or your industry? Maybe something it's in your community or throughout society as a whole? Creating true change is never easy. Most startups don't survive. Most community groups never get beyond small local actions. Even when a spark catches fire and protesters swarm the streets, it often seems to fizzle out almost as fast as it started. The status quo is, almost by definition, well entrenched and never gives up without a fight. In this groundbreaking book, one of today's top innovation experts delivers a guide for driving transformational change. To truly change the world or even just your little corner of it, you don't need a charismatic leader or a catchy slogan. What you need is a cascade: small groups that are loosely connected but united by a common purpose. As individual entities, these groups may seem inconsequential, but when they synchronize their collective behavior as networks, they become immensely powerful. Through the power of cascades, a company can be made anew, an industry disrupted, or even an entire society reshaped. As Satell takes us through past and present movements, he explains exactly why and how some succeed while others fail.

La Conspiración de Medea. Aborto, Eugenesia y Nuevo Orden Mundial Lucas Carena,2019-08-07 Nuestra sociedad sufre del síndrome de Medea (así llamado en psicología) que refiere a un conjunto de síntomas que caracteriza a aquella madre que, como efecto de conflictos y estrés derivados de la relación de pareja, descarga su frustración con agresividad hacia su descendencia, llegando incluso a utilizar a su prole como un instrumento de poder y venganza. El síndrome de Medea establece que las mujeres identifican la maternidad con la feminidad, reafirmando con el reconocimiento del otro y, al matar a sus hijos, sienten que destruyen el vínculo de unión con su compañero, causante de su sufrimiento. De igual modo, como enfermedad de nuestra época, la proliferación de prácticas abortivas, pretende borrar, mediante la muerte de los hijos, el vínculo entre hombre y mujer del que los hijos son expresión. El lazo de unión, la prole, es disuelta y con ello se acentúa la brecha antagónica entre mujeres feministas y hombres machistas, ahora presentados en relación de enemistad.
