The Kram Kollection Kram Rednip,2023-12-01

The Kram Kollection is a suite of short stories ranging from pure fiction to quirky observations on aspects of contemporary life. Written over a long period of time, their purpose is to amuse – while at the same time raising questions about current issues, attitudes and ideas.

Readers of the stories are undertaking a journey that leads them to many different parts of the globe, and in which they will come across a variety of rather odd situations and dysfunctional characters on the way. It takes in places as diverse as Tanzania, Trinidad and Toolallahoosa Tennessee, in all of which (as in several other exotic locations) things tend to go wrong for those concerned with frequently unexpected consequences. All proceeds from the Kram Kollection go to Zambia Orphans Aid, a small UK-based charity that works with community-based groups in some of the most disadvantaged communities in Zambia, in particular orphans and other vulnerable children.

Great Men Die Twice Mark Kram, Jr.,2015-06-23

Imagine Mad Men set not in the advertising world but at 1960s Sports Illustrated, a place where the finest sports staff of any generation was attended by an open bar and almost unlimited expense account. This was the world Mark Kram lived and wrote in, along with his peers including Frank Deford, Dan Jenkins and other major talents. A high school graduate with a gift for revealing the hearts of his subjects, Kram would become one of the greatest sports writers of all time, covering the famed rivalry between Muhammad Ali and Joe Frazier, Negro League baseball star Cool Papa Bell, doomed soccer legend George Best, Olympic gold medal sprinter Edwin Moses, and others. The New York Times obituary of Kram in June, 2002 saluted his work in Sports Illustrated by calling him

one of its most lyrical writers of the 1960s and 1970s. *Great Men Die Twice* selects his best work with a moving introduction by his son, Mark Kram Jr., the PEN/ESPN Award-winning author of *Like Any Normal Day*.

Like Any Normal Day Mark Kram, Jr.,2012-04-24
Traces the tragic story of Buddy Miley, recounting the 1970s injury that ended his football career and rendered him a quadriplegic, culminating in decades of pain, unsuccessful treatments, and his request for his brother's assistance to end his life.

Illustrated Moss Flora of Antarctica Ryszard Ochrya, Halina Bednarek-Ochrya, Ronald Ian Lewis Smith,2008-11-13 Mosses are a major component of the vegetation in ice-free coastal regions of Antarctica. They play an important role in the colonisation of ice-free terrain, accumulation of organic matter, release of organic exudates, and also provide a food and habitat resource for invertebrates. They serve as model organisms for physiological experiments designed to elucidate problems of plant cold tolerance and survival mechanisms and for monitoring biological responses to climate change. This Flora provides the first comprehensive description, with keys, of all known species and varieties of moss in the Antarctic biome. It has involved microscopic examination of around 10,000 specimens from Antarctica and, for comparison, from other continents. All species are illustrated by detailed line drawings, alongside information about their reproductive status, ecology, and distribution. This is an invaluable resource for bryologists worldwide, as well as to Antarctic botanists and other terrestrial biologists.

Like Any Normal Day Mark Kram, Jr.,2012-04-24
Winner of the 2013 PEN/ESPN Award for Literary Sports Writing, *Like Any Normal Day* is a profound, powerful

narrative of a golden boy's tragedy, a woman's unlived life, and a brother's complicated devotion. In the mid-1970s, brothers Buddy and Jimmy Miley were close, both on the verge of impressive athletic careers. A promising high school quarterback, Buddy's potential was cut short by an injury that left him quadriplegic. Immobile and imprisoned in his body for decades, Buddy would watch life pass by from his wheelchair, living at home under his mother's and brother's care, and wondering what his life could have been. Buddy and Jimmy visited special hospitals and traveled to Lourdes in search of a miracle, never losing hope as they searched for a cure. But as Buddy suffered increasing pain, and also realized that he would never be able to walk again—and never prove himself capable of being loved by Karen, a woman he'd first met in high school—he asked Jimmy to help him end his life. Beautifully written, both heart-wrenching and hopeful, Mark Kram Jr.'s *Like Any Normal Day* explores the important bonds between families and the depths of what we're willing to do for those we love. *Like Any Normal Day* is the winner of the 2013 PEN/ESPN Award for Literary Sports Writing.

Ghosts of Manila Mark Kram, 2009-06-03 When Muhammad Ali met Joe Frazier in Manila for their third fight, their rivalry had spun out of control. The Ali-Frazier matchup had become a madness, inflamed by the media and the politics of race. When the Thrilla in Manila was over, one man was left with a ruin of a life; the other was battered to his soul. Mark Kram covered that fight for *Sports Illustrated* in an award-winning article. Now his riveting book reappraises the boxers -- who they are and who they were. And in a voice as powerful as a heavyweight punch, Kram explodes the myths surrounding each fighter, particularly Ali. A controversial, no-holds-barred account, *Ghosts of Manila* ranks with the finest

boxing books ever written.

Restorative Practices of Wellbeing Natureza Gabriel Kram, 2021-07-10 Drawing on cutting-edge neurophysiology and ancient awareness practices, a pioneering connection phenomenologist maps a medicine of the ancestral future. The landmark Adverse Childhood Experiences study, the largest epidemiological study of trauma ever done, suggests that more than two thirds of American adults are carrying trauma from early childhood adversity. Yet the study did not even conceptualize social trauma: the impacts of racism, sexism, and other forms of structural oppression, or ecological trauma: the trauma of being disconnected from the Living World. By this metric, almost all modern people are traumatized. Trauma activates the toxic stress response, which translates to a wide variety of stress-related adverse health outcomes later in life. It shapes how we feel in our bodies, our emotional landscape, and structures the thoughts we are able to think. It shapes how we see ourselves, how we interpret the world, and the behaviors available to us. In this pioneering volume, connection phenomenologist Gabriel Kram addresses two fundamental practical questions: how do we address the trauma and disconnection endemic to the modern world, and how do we turn on the Connection System? Marrying cutting-edge neurophysiology, primarily clinical applications of the Polyvagal Theory, with awareness technologies from a wide variety of traditions and lineages, this book maps a novel approach to the creation of wellbeing informed by the most cutting-edge science, and the most ancient of awareness practices. For anyone who has faced a difficult childhood, grown up with a sense that there is something missing in the modern world, or yearns for deeper connection with Self, Others, or the Living World, this book provides a map

to a (r)evolutionary approach to wellbeing so ancient it hasn't been invented yet.

Smokin' Joe Mark Kram, Jr., 2019-06-04 A gripping, all-access biography of Joe Frazier, whose rivalry with Muhammad Ali riveted boxing fans and whose legacy as a figure in American sports and society endures History will remember the rivalry of Joe Frazier and Muhammad Ali as one for the ages, a trilogy of extraordinary fights that transcended the world of sports and crossed into a sociocultural drama that divided the country. Joe Frazier was a much more complex figure than just his rivalry with Ali would suggest. In this riveting and nuanced portrayal, acclaimed sports writer Mark Kram, Jr. unlinks Frazier from Ali and for the first time gives a full-bodied accounting of Frazier's life, a journey that began as the youngest of thirteen children packed in small farm house, encountering the bigotry and oppression of the Jim Crow South, and continued with his voyage north at age fifteen to develop as a fighter in Philadelphia. Tracing Frazier's life through his momentous bouts with the likes of Ali and George Foreman and the developing perception of him as the anti-Ali in the eyes of blue-collar America, Kram follows the boxer through his retirement in 1981, exploring his relationship with his son, the would-be heavyweight Marvis, and his fragmented home life as well as the uneasy place that Ali continued to occupy in his thoughts. A

propulsive and richly textured narrative that is also a powerful story about race and class in America, *Smokin' Joe* is unparalleled in its scope, depth, and access and promises to be the definitive biography of a towering American figure whose life was galvanized by conflict and whose mark has proven lasting.

Zebra Michael Kram MD, 2016-12-06 PHYSICIAN SAVES HIS OWN LIFE CRITIQUES FUTURE DIRECTION OF HEALTHCARE... *Zebra: It's Not All Black and White in the Physical or Spiritual Worlds* is a compelling medical mystery memoir, seen through the eyes of a successful religiously observant physician who became the patient. He was labeled as a Zebra, a fascinoma, and had to search for his own diagnosis. As he tells of his gripping journey through his life-threatening medical crisis, the author provides the reader with a long, hard look into our broken health care system. The strong undercurrents of *emunah* (faith and belief in a higher purpose) working hand in hand with perseverance and advocacy will resonate with all

readers. Feel the anguish and emotional turmoil as Dr. Kram's chronological metamorphosis unfolds from busy gastroenterologist caring for others to stressed and sometimes overwhelmed Zebra coping with life's difficult vicissitudes. People of all faiths will find this book a source of comfort and will walk away with wise counsel in dealing with their own crises as they follow the author through his epic journey. Well written and researched, this timely book will have readers nodding their heads in agreement with many of the anecdotes along the author's roller coaster of events. As a physician, professor, congregational rabbi, former hospital CEO, and medical school Associate Dean, I strongly recommend Zebra to health care workers, patients and people of all stripes and religions. The Ember Saved from the Fire Michael Kram, 2018-05-19 Follow Isaac Leo Kram through his life during and after the Holocaust. Plucked from an idyllic youth into the ravages of World War II, Isaac Kram spent five years in ghettos, slave labor camps and concentration camps, and was ultimately liberated from Buchenwald. Discover attempts at resistance in the Riga Ghetto, his Buchenwald diary penned upon liberation, and his personal Holocaust prayer book, handwritten on a small pad and hidden from his captors. After the war, Isaac Kram helped

resettle refugees and devoted his life to Holocaust commemoration and activism. His testimony was instrumental in bringing a war criminal to justice in a famous Israeli Mossad action. Contemporary issues such as Holocaust trivialization and denial are seen through his eyes. Faith-based issues as they relate to the Holocaust are discussed. The Ember Saved From the Fire is an important read for those who wish to understand the Holocaust through the lens of one individual who experienced it all.
