The Phonology of Polish Edmund Gussmann, 2007-10-18 This book is the most complete phonology of contemporary Polish ever published. It is topic-oriented and presents the fundamental characteristics and problems associated with each topic, among them syllable structure, vowel-zero alternations, palatalizations, and other vowel and consonant changes. Professor Gussmann re-examines assumptions about phonological contrasts and alternations, and raises and addresses central questions in morphophonology. He takes morphophonology to be systematically separate from phonology. Palatalizations, he shows, are crucial to Polish, as both phonological and morphophonological phenomena: their detailed description leads him to a systematic presentation of vocalic alternations. The book develops a Government Phonology account of Polish, but is

primarily a description of the language with the model subordinated to the organization of data. All the many examples used to illustrate the presentation are transcribed in standard IPA, and translated. This important book will interest all scholars and advanced students of Polish and Slavic phonology.

The Routledge Handbook of Local Elections and Voting in Europe Adam Gendźwiłł,Ulrik Kjaer,Kristof Steyvers,2022-02-27 The Routledge Handbook of Local Elections and Voting in Europe represents the standard reference text and practical resource for everybody who analyzes issues such as local electoral systems, voting behavior, or political representation in Europe. It provides comprehensive and expert coverage of 40 European countries – organized along the respective local state traditions – and in addressing a wide range of important questions related to local elections and voting, it broadens the scope of existing analyses quantitatively as well as qualitatively. Finally, it affords a more theoretically grounded typology of local elections and voting. Each country chapter is written by a leading expert and follows a rigorous conceptual framework for cross-national comparisons, providing an overview of the local government system, details on the place of local elections within the multilevel political system, specific features of the electoral system, analysis of the main electoral outcomes in recent decades, and,

finally, reflective discussion. Representative democracy is as widespread at the local as at the national level, and as the significance of local authorities in Europe has increased in recent decades, local elections represent a crucial area of study. The Routledge Handbook of Local Elections and Voting in Europe is an authoritative and essential reference text for scholars and students interested in local electoral politics and, more broadly, European studies, public administration, and political science.

Nine Out of Ten Moshe Katz, Nachman Seltzer, 2006
Memoirs of a Jew born in 1924 in Uzhhorod, relating how he and eight of his nine siblings survived, helping each other and other Jews. After their region of Czechoslovakia was annexed to Hungary in 1939 and the latter was then occupied by the Nazis in 1944, he and his siblings were sent into hiding. Protected by non-Jews, Katz maintained his religious observance. His parents and brother Pinchas were imprisoned in the Uzhhorod ghetto, then sent to Auschwitz, where they were killed. His brother Joe reached Switzerland when emigration was possible. In Budapest, his sister Chana hid as an Aryan, was arrested, and escaped. She helped her sister Terry and brothers Sonny and Moshe, who had earlier helped their brother Yankel and other Jews hiding on a farm. Moshe witnessed the Sálasi Iron Cross terror, including the mass drowning of Jewish children. After the war his sister Manca found their brother Louie very ill and nursed him back to health. Moshe helped Jewish refugees after the war, in Prague and Paris. He then moved to the

U.S., where he continued living a religious life and helping Jews.

Geopolitical Turmoil in the Balkans and Eastern Mediterranean Hall Gardner, 2023-07-15 This edited book will examine the Balkans and Eastern Mediterranean from multidimensional geo-strategic, political-economic, socio-cultural/religious and demographic perspectives. It analyzes the conflicting geopolitical interests of the major and regional powers, as well as those of NATO and the European Union, with a focus on energy, democracy and corruption, shifts in population, as well as religious political influence. The authors argue that the US, NATO and EU leaderships can no longer afford to ignore the two regions – if the increasing potential for conflict is to be averted. The Balkans and Eastern Mediterranean are returning to a major position in the contemporary geostrategic nexus since NATO began a new expansion into the Balkans by bringing Montenegro in 2017 and North Macedonia in March 2020 into membership, after its previous expansion to Slovenia in NATO's "Big Bang" in 2004 and to both Albania and Croatia in 2009.

Competing Memories of European Border Towns

Steen Bo Frandsen, Jörg Hackmann, Kimmo Katajala, 2024-03-18 This book considers competing memory politics in European border towns after the First and Second World Wars. In the twentieth century Europe's borders shifted dramatically in the wake of war, and towns were often moved from one state to another despite their physical locations remaining unchanged. Urban spaces adapted to incorporate new place names, monuments, and requirements, overlaid onto the cultural heritage of previous settlers. This book investigates how the memories of different ethnic groups compete and sometimes contest with each other in the town's space, using the case studies of Vyborg/Viipuri in present-day Russia, Klaipėda/Memel in Lithuania, Szczecin/Stettin in

Poland, Flensburg in Germany, Trieste in Italy, and Rijeka/Fiume in Croatia. The book considers how public memories are built and how old traditions are moulded to new forms in urban settings. Drawing on perspectives from across borderland, urban, and memory studies, this book will be an important resource for researchers with an interest in Europe, and in how urban memories are constructed and contested.

The Comic Book Western Christopher

Conway, Antoinette Sol, 2022-06 One of the greatest untold stories about the globalization of the Western is the key role of comics. Few American cultural exports have been as successful globally as the Western, a phenomenon commonly attributed to the widespread circulation of fiction, film, and television. *The Comic Book Western* centers comics in the Western's international success. Even as readers consumed translations of American comic book Westerns, they fell in love with local ones that became national or international sensations. These essays reveal the unexpected cross-pollinations that allowed the Western to emerge from and speak to a wide range of historical and cultural contexts, including Spanish and Italian fascism, Polish historical memory, the ideology of shōjo manga from Japan, British post-apocalypticism and the gothic, race and identity in Canada, Mexican gender politics, French critiques of manifest destiny, and gaucho nationalism in Argentina. The vibrant themes uncovered in *The Comic Book Western* teach us that international comic book Westerns are not hollow imitations but complex and aesthetically powerful

statements about identity, culture, and politics.

American English Bart Niklas, 2022-10-31

Niniejszy ebook edukacyjny zawiera kilkaset zwrotów i wyrażen potocznych i slangowych, używanych w dzisiejszym języku angielskim w odmianie amerykańskiej. Są to zwroty używane na co dzień przez rodowitych Amerykanów, zarówno w życiu codziennym, jak i można je usłyszeć w amerykańskim filmie, serialach TV itp. Pozycja ta jest zatem znakomita okazja, zarówno dla uczących się, jak i pasjonatów języka angielskiego używanego w Stanach Zjednoczonych (również w Kanadzie), do poszerzenia swojej wiedzy w tym zakresie. Zawartość ebooka wykracza poza standardowe zwroty i wyrażenia, które można znaleźć w innych książkach lub słownikach z idiomami i slangiem. Autor jest osobą dwujęzyczną, a niniejszy ebook jest wynikiem jego wieloletnich doświadczeń jako lektora i trenera języka angielskiego, uczącego zarówno w Polsce jak i za granicą. Doświadczenie autora jest także związane z jego wieloletnim pobytem zarówno w Stanach Zjednoczonych jak i Kanadzie, dlatego też czytelnik otrzymuje wraz z angielskimi zwrotami przykłady i kontekst sytuacyjny razem z polskim tłumaczeniem. Są to przykłady tzw. z życia wzięte, których można uczyć się całościowo, zapamiętując całe frazy. Tym sposobem uczący się będzie potrafił posługiwać się językiem angielskim codziennym tak jak rodowici Amerykanie. Życzę wszystkim przyjemnej lektury i owocnej nauki!

Autor I would like to present to you this ebook on American English phrases, including mainly colloquial language and slang expressions. I'm giving you the result of many years of teaching

experience along with a few pointers on how to read the content properly. First of all, please keep in mind that it's NOT a language dictionary, meaning you won't find the origins of most of the phrases here. However, it's all been categorized in alphabetical order, so that it's easier for the reader to find and memorize a certain phrase. Also, I'd like to assure you that ALL of these idioms and slang expressions presented in this ebook are used in today's American English and you can be sure that American people use them on daily basis. With every phrase you will get a short example or a mini dialogue to help you understand it in context. You'll also notice that the given examples are mostly informal style, to give you a better idea on how American people talk and express their thoughts in everyday life situations. Finally, please remember that it is my own subjective selection of American expressions which I believe will bring you a little closer to the real and spoken informal language. Some of them you won't find in other phrase books or popular dictionaries and some you'll probably see for the first time. Surely there is also a group of idioms which you have probably heard or read somewhere before, so it could be a great opportunity for some of you to brush up on your language skills. As the Latin saying goes: 'Repetitio est mater studiorum' which means 'Repetition is the mother of learning'... so off you go and let's get started. Have fun and enjoy everyone!

Measuring Regional Authority Liesbet Hooghe, Gary Marks, Arjan H. Schakel, Sandra Chapman

Osterkatz, Sara Niedzwiecki, Sarah Shair-Rosenfield, 2016-01-28 This is the first of five ambitious volumes theorizing the structure of governance above and below the central state. This book is written for those interested in the character, causes, and consequences of governance within the state and for social scientists who take measurement seriously. The book sets out a measure of regional authority for 81 countries in North America, Europe, Latin America, Asia, and the Pacific from 1950 to 2010. Subnational authority is exercised by individual regions, and this measure is the first that takes individual regions as the unit of analysis. On the premise that transparency is a fundamental virtue in measurement, the authors chart a new path in laying out their theoretical, conceptual, and scoring decisions before the reader. The book also provides summaries of regional governance in 81 countries for scholars and students alike. Transformations in Governance is a major new academic book series from Oxford University Press. It is designed to accommodate the impressive growth of research in comparative politics, international relations, public policy, federalism, environmental and urban studies concerned with the dispersion of authority from central states up to supranational institutions, down to subnational governments, and side-ways to public-private networks. It brings together work that significantly advances our understanding of the organization, causes, and consequences of multilevel and complex governance. The series is selective, containing annually a small number of

books of exceptionally high quality by leading and emerging scholars. The series targets mainly single-authored or co-authored work, but it is pluralistic in terms of disciplinary specialization, research design, method, and geographical scope. Case studies as well as comparative studies, historical as well as contemporary studies, and studies with a national, regional, or international focus are all central to its aims. Authors use qualitative, quantitative, formal modeling, or mixed methods. A trade mark of the books is that they combine scholarly rigour with readable prose and an attractive production style. The series is edited by Liesbet Hooghe and Gary Marks of the University of North Carolina, Chapel Hill, and the VU Amsterdam, and Walter Mattli of the University of Oxford.
