**Leadership in East Asia** Chris Rowley,Ingyu Oh,2020-06-29 This book compares and contrasts leadership in Japan, South Korea and China, examining the impact of globalization on leadership styles and trends. Presenting some of the most recent findings in leadership studies in these three countries, the collection explores the power relationship between political and business leaders; employer-employee relationships and pro-social behaviour; the measurement of effective leadership; the relationship between leadership and corporate success; the survival of private firms in a tightly controlled or socialist market; and the evolution of leadership styles in the transition from state-owned to semi-private. Although many studies have offered explanations of East Asian economic and corporate success, this book presents empirical evidence to explain the leadership styles in Japan, South Korea and China, and provides a fresh outlook for those studying business and leadership in the region. This book was originally published as a special issue of the Asia Pacific Business Review.

**The Rule of Culture** Hong Hai,2019-10-28 Culture has an abiding influence on the way countries and business corporations are governed. This book introduces the reader to the deep philosophies that drive corporations and governments in East Asia, from China through Japan and South Korea to Singapore. With sparkling clarity and spiced with anecdotes and case studies, it

depicts how respect for cultures can lead to spectacular success, or the lack of it to failure. Confucian practices such as guanxi in Chinese society, the benevolent culture of entity firms in Japan, and patriarchal chaebols in South Korea are analyzed with examples like Esquel, Nissan, and Samsung. A delightful chapter on Daoism shows how it drives Jack Ma’s Alibaba.com. In the governance of nations, the author reinforces Burke’s dictum that systems of government must be consonant with traditional cultures, and he calls out misguided attempts by the West to foist liberal democracies on civilizations in the East where respect for authority and communitarian values come before individual interest. The author advances the novel concept of the meritocratic democracy in which leaders are chosen not by electoral popularity but by proven ability. In a thought-provoking concluding chapter, he evaluates prospective constitutional changes in China that would enshrine meritocratic democracy as an alternative to liberal democracies that have turned dysfunctional in many Western nations.

**Hollywood in China** Ying Zhu,2022-07-02 China surpassed North America to become the world ’s largest movie market in 2020. Formerly the focus of exotic fascination in the golden age of Hollywood, today the Chinese are a make-or-break audience for Hollywood’s biggest blockbusters. And movies are now an essential part of China’s global “soft power” strategy: a Chinese real estate tycoon, who until recently was the major shareholder of the AMC theater chain, built the world’s largest film production facility. Behind the curtains, as this brilliant new book reveals, movies have become one of the biggest areas of competition between the world’s two remaining superpowers. Will Hollywood be eclipsed by its Chinese counterpart? No author is better positioned to untangle this riddle than Ying Zhu, a leading expert on Chinese film and media. In fascinating vignettes, Hollywood in China unravels the century-long relationship between Hollywood and China for the first time. Blending cultural history, business, and international relations, Hollywood in China charts multiple power dynamics and teases out how competing political and economic interests as well as cultural values are manifested in the art and artifice of filmmaking on a global scale, and with global ramifications. The book is an inside look at the intense business and political maneuvering that is shaping the movies and the U.S.-China relationship itself—revealing a headlines-grabbing conflict that is playing out not only on the high seas, but on the silver screen.
