Rebuilding resilient and sustainable agriculture in Somalia (Full report)

Food and Agriculture Organization of the United Nations,2018-11-02 This report documents the pressures on Somalia's livestock and crop subsectors over the years but notes that there is a cause for optimism thanks to the country's resilience and resources. These include a variety of agroecological zones and vast tracts of arable land and areas suitable for livestock production, which in turn can support markets, export trade and overall growth.

Stories from A Settled Tribe Louise Sopher,2010-07-09 'IF someone says to you: 'the forest is nothing,' I will come and say: 'come and live with me, with nothing. No money. Come and live with me in the forest for a few months ' you will survive. And I will go with you to the cities with nothing ' no money - how do you survive?'' - Nelson Kelesau --- FOR SIX weeks in mid-2010 I lived in a village named Long Lamai with a tribe in Borneo known as the

Penan, a once fully-nomadic, now mostly settled community. Whilst volunteering to teach English in the village I also got to work on my own project to collect stories from the villagers and to publish it in a book and sell it for the benefit of the community. HERE then is that book, containing thirty stories from twenty-one people; stories to entertain all ages with tales from Penan music, myth and legend to more serious ones about struggles in poverty, education and the need for the jungle to survive.

The Ghost-dance Religion and the Sioux Outbreak of 1890 James Mooney, 1896-01-01 Responding to the rapid spread of the Ghost Dance among tribes of the western United States in the early 1890s, James Mooney set out to describe and understand the phenomenon. He visited Wovoka, the Ghost Dance prophet, at his home in Nevada and traced the progress of the Ghost Dance from place to place, describing the ritual and recording the distinctive song lyrics of seven separate tribes. His classic work (first published in 1896 and here reprinted in its entirety for the first time) includes succinct cultural and historical introductions to each of those tribal groups and depicts the Ghost Dance among the Sioux, the fears it raised of an Indian outbreak, and the military occupation of the Sioux reservations culminating in the tragedy at Wounded Knee. Seeking to demonstrate that the Ghost Dance was a legitimate religious movement, Mooney prefaced his study with a

historical survey of comparable millenarian movements among other American Indian groups. In addition to his work on the Ghost Dance, James Mooney is best remembered for his extraordinarily detailed studies of the Cherokee Indians of the Southeast and the Kiowa and other tribes of the southern plains, and for his advocacy of American Indian religious freedom.

Djinns, Stars and Warriors Matthew Schaffer,2021-10-11 This book contains some of the finest examples of Mandinka oral traditions ever published, both in English and the original Mandinka, along with a chapter of Mandinka Arabic script texts translated into English. As a complement to the author's ethnography of the Mandinka published in 1980/1987, this book presents legends about jihad leaders, witchcraft, local Islam, cosmology, the founding of villages, great leaders among women, notable social institutions and other significant people and places. The Pakao country of southern Senegal developed into a West African center of pilgrimage. This book reveals the linguistic richness of Mandinka as an African literature in its own right and contributes to broader Mande studies. Since Mandinka figured prominently in the trans-Atlantic slave trade, this book also lays a basis for future work by the author on a cultural legacy of Mandinka in the New World.

Old Stories, New Readings Miriam López-Rodríguez,Alfonso Ceballos Muñoz,Inmaculada Pineda-Hernández,2015-02-27 Whether imaginary or based on real events, stories are at the core of any culture. Regardless of their length, their rhetoric strategies, or their style, humans tell stories to each other to express their innermost fears and needs, to establish a point

within an argument, or to engage their listeners in a fabricated composition. Stories can also serve other purposes, such as being used for entertainment, for education or for the preservation of certain cultural traits. Storytelling is at the heart of human interaction, and, as such, can foster a dialogic narrative between the person creating the story and their audience. In literature, this dialogue has been traditionally associated with narrative in general, and with the novel in particular. However, other genres also make use of storytelling, including drama. This volume explores the ways in which American theatre from all eras deals with this: how stories are told onstage, what kinds of stories are recorded in dramatic texts, and how previously neglected realities have gained attention through the American playwright's telling, or retelling, of an event or action. The stories unfolded in American drama follow recent narratology theories, particularly in the sense that there is a greater preference for those so-called small stories over big stories. Despite the increase in the production of this type of texts and the growing interest in them in the field of narratology, small stories are literary episodes that have been granted less critical attention, particularly in the analysis of drama. As such, this volume fills a void in the study of the stories presented on the American stage.

A Grammar of Yéîl Dnye Stephen C. Levinson, 2022-06-06 This is a comprehensive description of a language spoken some 450 km offshore from the mainland of Papua New Guinea. The language is remarkable for its phonological, morphological and syntactic complexity. As the sole surviving member of its language family, and with little historical contact with surrounding languages, the language provides evidence of the kind of

languages spoken in this part of the world before the Austronesian expansion. The grammar provides detailed information on the phoneme inventory, morphology, syntax and select semantic fields. Remarkable features include a 90 phoneme inventory including unique sounds, a morphology with thousands of non-compositional portmanteau elements, complex rules for negation, and extensive ergative syntax. Unusual patterns are also found in the organization of semantic fields, for example in partonymies of the body, taxonomies of the natural world, verbal semantics and kinship terms. The combination of linguistic 'rara' suggest that linguistic evolution under low contact can yield baroque and unusual patterns. The volume should be of special interest to linguists, typologists, sociolinguists, anthropologists and researchers in Oceania and Melanesia. Endorsement: This long-awaited grammar is a major contribution to Papuan and general linguistics, providing as it does by far the most comprehensive and accurate grammatical description of a language that has already assumed a position as one of the world's most complicated. Hitherto, the most extensive grammatical description of the language has been the survey-like Henderson (1995), and while Levinson explicitly acknowledges his debt to this earlier grammar and to unpublished work by Henderson, his own detailed grammar clearly takes the level of description and analysis of the language to a completely new level. In particular, Levinson's grammar makes clear precisely to what extent and in what ways the language's morphology is complex beyond even what most studies on morphologically complex languages envisage. In addition, it provides a much more detailed account of the language's syntax, based on a judicious combination of corpus attestation and careful elicitation (incl. using the kits developed by Levinson's group at the MPI for Psycholinguistics). The

grammar thus not only fills a major lacuna in our knowledge of the non-Austronesian languages of the New Guinea area, but also provides grist for future studies on the implications of the language's complexities. Bernard Comrie, University of California, Santa Barbara
