Export-oriented Industrialization in Developing Countries Pitou van Dijck,Hans Linnemann,Harmen Verbruggen,1987 This study describes and analyses in depth the transformation taking place in world manufacturing industry and its impact on the economies of newly industrialising countries. In Part One, the causes and characteristics of export-oriented industrialisation are studied, often using world-wide cross-country analyses. Trade policies and export strategies underlying such industrialisation processes get much attention. Part Two mainly deals with the domestic preconditions for and consequences of export-oriented manufacturing production, on the basis of detailed case studies of seven East and South-East Asian countries.

The Word and Words Made Flesh , In this spiritual autobiography, the author focuses on eight segments of the life and work of Jesus, their application to the ministerial vocation in the world today, and the particular mission of the Presbyterian clergyman over the past seventy-five years. Devout in his faith and beliefs, the author maintains a unique perspective. I perceive my life, as well as the lives of others, in a rather different

vein than does society in general, he says. I sense my life and the lives of others as 'God breathed'-life, and lives, coming from God. And, in a sense, the Word and words made flesh in each event. From his specialized viewpoint, he reveals the role of God and ministry in his life-a life that, in the end, will span no more than the space of two of God's breaths.

Korea, a Century of Change J rgen Kleiner,2001 This book provides an evenhanded coverage of Korea's turbulent history during the last one hundred years, from seclusion to division. It focuses particularly on the development of the two different and antagonistic states on the peninsula since 1945. The author sees both countries through the windows of their possibilities and interests. He supplements his narrative, which makes use of rich source material, with observations he has made in South Korea, where he spent more than ten years from the 1970s to the 1990s, and where he had access to politicians and opinion leaders.The book starts by describing how the Hermit Kingdom was exposed to the greed of foreign powers at the end of the 19th century and how it became the victim of imperialistic Japan, then account is given of the country's division and the hardening of that division through the Korean War. The rule of the military and the final triumph of civilian democrats in South Korea are analyzed in much detail. One chapter is devoted to the rise and intermittent decline of the South Korean economy. The history of North Korea under Kim II Sung and under his son is told, before the foreign relations of both Koreas are explained. A chapter on the so far overwhelmingly antagonistic South-North relations concludes the book.

Massive Entanglement, Marginal Influence William H. Gleysteen,2012-01-01 Using extensive documentation, this book examines how President Jimmy Carter's troop withdrawal and human rights policies--conceived in abstraction from East Asian realities--contributed to the demise of Korean President Park Chung Hee. The author suggests that some lessons are relevant beyond Korea, for example, in our treatment of human rights problems in China today.

Han Unbound John Lie, 1998 Because the author sees South Korean development as contingent on a variety of particular circumstances, he ranges widely to include not only the information typically gathered by sociologists and political economists, but also insights gained from examining popular tastes and values, poetry, fiction, and ethnography, showing how all of these aspects of South Korean life help elucidate his main themes.
