Hildegard Diemberger

A Jewish Voice from Ottoman Salonica Aron Rodrigue, Sarah Abrevaya Stein, 2012-01-11 This book presents for the first time the complete text of the earliest known Ladino-language memoir, transliterated from the original script, translated into English, and introduced and explicated by the editors. The memoirist, Sa'adi Besalel a-Levi (1820–1903), wrote about Ottoman Jews' daily life at a time when the finely wrought fabric of Ottoman society was just beginning to unravel. His vivid portrayal of life in Salonica, a major port in the Ottoman Levant with a majority Jewish population, thus provides a unique window into a way of life before it disappeared as a result of profound political and social changes and the World Wars. Sa'adi was a prominent journalist and publisher, one of the most significant creators of modern Sephardic print culture. He was also a rebel who accused the Jewish leadership of Salonica of being corrupt, abusive, and fanatical; that leadership, in turn, excommunicated him from the Jewish community. The experience of excommunication pervades Sa'adi's memoir, which documents a world that its author was himself actively involved in changing.

**When a Woman Becomes a Religious Dynasty** Hildegard Diemberger, 2014-03-04 In the fifteenth century, the princess Chokyi Dronma was told by the leading spiritual masters of her time that she was the embodiment of the ancient Indian tantric deity Vajravarahi, known in Tibetan as Dorje Phagmo, the Thunderbolt Female Pig. After suffering a great personal tragedy, Chokyi Dronma renounced her royal status to become a nun, and, in turn, the tantric consort of three outstanding religious masters of her era. After her death, Chokyi Dronma's masters and disciples recognized a young girl as her reincarnation, the first in a long, powerful, and influential female lineage. Today, the twelfth Samding Dorje Phagmo leads the Samding monastery and is a high government cadre in the Tibet Autonomous Region. Hildegard Diemberger builds her book around the translation of the first biography of Chokyi Dronma recorded by her disciples in the wake of her death. The account reveals an extraordinary phenomenon: although it had been believed that women in Tibet were not allowed to obtain full ordination equivalent to monks, Chokyi Dronma not only persuaded one of the highest spiritual teachers of her era to give her full ordination but also established orders for other women practitioners and became so revered that she was officially recognized as one of two principal spiritual heirs to her main master. Diemberger offers a number of theoretical arguments about the importance of reincarnation in Tibetan society and religion, the role of biographies in establishing a lineage, the necessity for religious teachers to navigate complex networks of political and financial patronage, the cultural and social innovation linked to the revival of ancient Buddhist civilizations, and the role of women in Buddhism. Four introductory, stage-setting chapters precede the biography, and four concluding chapters discuss the establishment of the reincarnation lineage and the role of the current incarnation under the peculiarly contradictory communist system.

**Medicine and Memory in Tibet** Theresia Hofer, 2018-03-15 Only fifty years ago, Tibetan medicine, now seen in China as a vibrant aspect of Tibetan culture, was considered a feudal vestige to be eliminated through government-led social transformation. Medicine and Memory in Tibet examines medical revivalism on the geographic and sociopolitical margins both of China and of Tibet's medical establishment in Lhasa, exploring the work of medical practitioners, or amchi, and of Medical Houses in the west-central region of Tsang. Due to difficult research access and the power of state institutions in the writing of history, the perspectives of more marginal amchi have been absent from most accounts of Tibetan medicine. Theresia Hofer breaks new ground both theoretically and ethnographically, in ways that would be impossible in today's more restrictive political climate that severely limits access for researchers. She illuminates how medical practitioners safeguarded their professional heritage through great adversity and personal hardship.

**Indigenous Religious Musics** Karen Ralls-MacLeod, Graham Harvey, 2017-09-08 Celebrating the diversity of indigenous nations, cultures and religions, the essays which comprise this volume discuss the musics performed by a wide variety of peoples as an integral part of their cultural traditions. These include examinations of the various styles of Maori, Inuit and Australian Aboriginal musics, and the role of music in Korean Shaman rituals. Indeed, music forms a key component of many such rituals and belief systems and examples of these are explored amongst the peoples of Uganda, Amazonia and Africa. Through analysis of these rituals and the part music plays in them, the essays also open up further themes including social groupings and gender divisions, and engage with issues and debates on how we define and approach the study of indigeneity, religiosity and music. With downloadable resources featuring some of the music discussed in the book and further information on other available recordings, this is a book which gives readers the opportunity to gain a richer experience of the lived realities of indigenous religious musics.

Love and Liberation Sarah H. Jacoby, 2014-10-14 Love and Liberation reads the autobiographical and biographical writings of one of the few Tibetan Buddhist women to record the story of her life. Sera Khandro Künzang Dekyong Chönyi Wangmo (also called Dewé Dorjé, 1892–1940) was extraordinary not only for achieving religious mastery as a Tibetan Buddhist visionary and guru to many lamas, monastics, and laity in the Golok region of eastern Tibet, but also for her candor. This book listens to Sera Khandro's conversations with land deities, dakinis, bodhisattvas, lamas, and fellow religious community members whose voices interweave with her own to narrate what is a story of both love between Sera Khandro and her guru, Drimé Özer, and spiritual liberation. Sarah H. Jacoby's analysis focuses on the status of the female body in Sera Khandro's texts, the virtue of celibacy versus the expediency of sexuality for religious purposes, and the difference between profane lust and sacred love between male and female tantric partners. Her findings add new dimensions to our understanding of Tibetan Buddhist consort practices, complicating standard scriptural presentations of male subject and female aide. Sera Khandro depicts herself and Drimé Özer as inseparable embodiments of insight and method that together form the Vajrayana Buddhist vision of complete buddhahood. By advancing this complementary sacred partnership, Sera Khandro carved a place for herself as a female virtuoso in the male-dominated sphere of early twentieth-century Tibetan religion.

**Songs for "great Leaders"** Keith Howard,2020 North Korea is often said to be unknown: a reclusive and secretive state. It behaves as if the whole country is a theatre that projects itself through performance. Song, together with other music and dance production, forms the soundtrack to the theater of daily life, embedding messages that tell the official history, the exploits of leaders, and the socialist utopia yet-to-come. Songs form the foundation stones of revolutionary operas, of instrumental and orchestral tone poems, and are rearranged in countless versions for use by children in kindergartens, for 50,000 young people who dance annually in celebration of the Eternal President's birthday, and for the 100,000 participants of mass spectacles such as the Arirang Festival. North Koreans are reminded daily on state-controlled television news how their songs are beamed around the world by satellite, and songs are today routinely uploaded to YouTube and Youku. This is the first book-length account of North Korean music and dance in any language other than Korean. It is based on fieldwork, on interviews, and resources researched in private and public archives and libraries in North Korea, but also in South Korea, China, North America and Europe. It explores revolutionary songs written in the 1940s and pop songs from the 2010s, exploring in a critical but informed way not just songs, but also developments of Korean instruments, the creation of revolutionary operas that embed the state's ideology of *juche* self-reliance, mass spectacles, dance and dance notation, and composers and compositions--

**Island Musics** Kevin Dawe,2020-05-26 What does the music of Madagascar or Trinidad tell us about the islands themselves and their inhabitants? Is there something unique about island musics? How does island music differ from its mainland counterparts? Drawing on a range of diverse examples from around the globe, this book examines the culture of island music and offers insight into local identities. Case studies look at how music, tradition, popular culture and islander life are linked in modern maritime societies. The islands covered include Crete, Ibiza, Zanzibar, Trinidad, Cuba, Madagascar and Papua New Guinea. In revealing the current practice behind modern island musics, the book considers the role of world music, exotica, global tourism, novels and travel writing in constructing fanciful images of islanders and island life. Island Musics throws into question some of our most basic notions and assumptions about island societies. There are a number of problems common to all island societies that vary in significance depending on an islands size, demographics and its proximity to the mainland. Problems include remoteness and insularity, peripherality to centralized sites of decision-making, a limited range of natural resources, specialization of economics, small markets, a narrow skills base, poor infrastructure and environmental fragility. These issues are discussed in relation to the creation of music in the construction of an islander identity. Of particular interest is the way in which islanders discuss their music and how it articulates the idea of the other and diaspora. Finally, Island Musics considers the musical industry, music education and the preservation of musical cultural heritage.

*Perspectives on Korean Music* Keith Howard,2017-05-15 As Korea has developed and modernized, music has come to play a central role as a symbol of national identity. Nationalism has been stage managed by scholars, journalists and, from the beginning of the 1960s, by the state, as music genres have been documented, preserved and promoted as 'Intangible Cultural Properties'. Practitioners have been appointed 'holders' or, in everyday speech, 'Human Cultural Properties', to maintain, perform and teach exemplary versions of tradition. Over the last few years, the Korean preservation system has become a model for UNESCO's 'Living Human Treasures' and 'Masterpieces of the Oral and Intangible Heritage of Mankind'. In this volume, Keith Howard provides the first comprehensive analysis in English of the system. He documents court music and dance, Confucian and shaman ritual music, folksongs, the professional folk-art genres of *p'ansori* ('epic storytelling through song') and *sanjo* ('scattered melodies'), and more, as well as instrument making, food preparation and liquor distilling - a good performance, after all, requires wine to flow. The extensive documentation reflects considerable fieldwork, discussion and questioning carried out over a 25-year period, and blends the voices of scholars, government officials, performers, craftsmen and the general public. By interrogating both contemporary and historical data, Howard negotiates the debates and critiques that surround this remarkable attempt to protect local and national music and other performance arts and crafts. An accompanying CD illustrates many of the music genres considered, featuring many master musicians including some who have now died. The preservation of music and other performance arts and crafts is part of the contemporary zeitgeist, yet occupies contested territory. This is particularly true when the concept of 'tradition' is invoked. Within Korea, the recognition of the fragility of indigenous music inherited from earlier times is balanced by an awareness of the need to maintain identity as lifestyles change in response to modernization and globalization. Howard argues that Korea, and the world, is a better place when the richness of indigenous music is preserved and promoted.
