Kyle Stevens

**Mike Nichols** Kyle Stevens, 2015 With iconic movies like *Who's Afraid of Virginia Woolf?*, *The Graduate*, and *Carnal Knowledge*, Mike Nichols was the most prominent American director during the cultural upheavals of the 1960s. *Mike Nichols: Sex, Language, and the Reinvention of Psychological Realism* argues that he overhauled the style of psychological realism, and, in doing so, continues to shape the legacies of Hollywood cinema. It also reveals that misreadings of his films were central to foundational debates at the emergence of Cinema Studies as a discipline, inviting new reflections on critical dogma. Focusing on Nichols' classic movies, as well as later films such as *Silkwood*, *The Birdcage*, and *Angels in America*, Kyle Stevens demonstrates that Nichols' realism lies not in the plausibility of his characters but in their inherent mystery. By attending to the puzzling words and silences, breaths and laughter, that comprise these characters, Stevens uncovers new insights into the subversive potential of a range of cinematic elements, and reveals how Nichols' satirical oeuvre, and Hollywood itself, participated in several of the nation's most urgent social, political, and philosophical advances.

**Why Do I Have to Learn This Stuff?** Kyle Stevens, 2003 One of the most common questions asked by high-school students is: 'Why do I have to learn this stuff?' High-school

English textbooks answer this question, with regard to what is taught in English class anyway, and the answer is what students have always suspected: There is no good reason to know much of what they are being taught. English textbooks are full of such egregious errors that their publication demonstrates that one needs no more than a superficial knowledge of their subject matter to edit or write for them. If those who are responsible for introducing students to literary studies do not need to know the subject, indifferent adolescents have a right to wonder why they should bother to do their schoolwork. Indeed, if teachers are passing on the information that is being provided by textbook companies, students may be better off ignoring their reading assignments. Excerpt The examination of the lives of Desiderius Erasmus and Thomas More is particularly revealing of the kind of ignorance that a book publisher will accept from its employees. After briefly reviewing his life and interests, the text notes that Erasmus was friends with More and points out that the two friends had much in common (199). This is true enough, but having stumbled upon the fact that Erasmus and More had much in common, the text proceeds to explain what they had in common, and error, egregious as well as obvious, raises its ugly head. To determine the commonalities between these two thinkers, the person working on the text must have decided that what was true of Erasmus must also have been true of More. Both thinkers, the person thus concludes, must have been dedicated churchmen (199). Erasmus was a churchman: He was a monk. More, by contrast, was a lawyer who became Lord Chancellor of England, something mentioned in the text. He was, in other words, a layman, not a churchman, despite his refusing to acknowledge that Henry VIII was Supreme Head of the Church of England and losing his head for his intransigence. A churchman, as Catholics

understand the term, is one who has taken religious vows and become a member of the clergy, as More considered doing before he settled into his career as a lawyer. The word churchman, it is true, began to mean a member of a Church in the late seventeenth century, but when it is used in this sense, the word is only applied to the members of Anglican state churches throughout the world, that is, The Church of England, The Church of Ireland, and so on (OED). Neither Erasmus nor More were churchman in this sense, both being Catholics, and anyone in possession of a decent dictionary could have found that out. Catalogue Information

**Close-up** Murray Pomerance, Kyle Stevens, 2018 What actors do on-screen is a fascination for audiences all over the world. Indeed, the cultural visibility of movie stars is so pronounced that stardom has often been regarded as intrinsic to the medium's specificity. Yet not all great cinematic performances are star turns, and so, what really makes a cinematic performance good, interesting, or important has been a neglected topic

in film criticism. This two-volume set presents detailed interpretations of singular performances by several of the most compelling actors in cinema history, asking in many different and complementary ways what makes performance meaningful, how it reflects a director's style, as well as how it contributes to the development of national cinemas and cultures. Whether noting the precise ways actors shape film narrative, achieve emotional effect, or move toward political subversion, the essays in these books innovate new approaches to studying screen performance as an art form and cultural force. This second volume focuses on international cinema, and includes case studies of key performances from actors like Ingrid Bergman, Gael Garcia Bernal, Nikolai Cherkassov, Alec Guinness, Setsuko Hara, Isabelle Huppert, Peter Lorre, Madhubala, Anna Magnani, Toshiro Mifune, and Choi Min Sik, amongst many others.

**The Oxford Handbook of Film Theory** Kyle Stevens, 2022 Despite changes in the media landscape, film remains a vital force in contemporary culture, as do our ideas of what a movie or the cinematic are. Indeed, we might say that the category of film now only exists in theory. Whereas film-theoretical discussion at the turn of the 21st century was preoccupied, understandably, by digital technology's permeation of virtually all aspects of the film object, this volume moves the conversation away from a focus on film's materiality towards timely questions concerning the ethics, politics, and even aesthetics of thinking about the medium of cinema. To put it another way, this collection narrows in on the subject of film, not with a nostalgic sensibility, but with the recognition that what

constitutes a film is historically contingent, in dialogue with the vicissitudes of entertainment, art, and empire. The volume is divided into six sections: Meta-Theory; Film Theory's Project of Emancipation; Apparatus and Perception; Audiovisuality; How Close is Close Reading?; and The Turn to Experience.

**Building Thereupon** Kyle F. Stephens,2020-05-12 Christianity has become increasingly careless about Biblical truth, doctrine, and the Christian's testimony. Building Thereupon demonstrates how, after salvation, carefully laying steadfast doctrinal truths one upon another forms the proper structure for fruitful and victorious Christian living. The Bible admonishes believers to lay precept upon precept...line upon line. Christian faith and truth are to be built upon the firm Foundation, Jesus Christ. But what happens to faith if the first great truths are misunderstood? Building Thereupon offers an in-depth discussion of Biblical doctrine—the knowledge of the things that relate to God and to the Lord Jesus Christ. It shows that believers need to understand the details of their own salvation, or else be vulnerable to deception in other critical parts of the Christian life. The Lord gives truths

intended for every Christian, and these truths better equip each child of God to realize steadfastness, maturity, and the will of God. Building Thereupon presents a convincing validation to earnest Bible believers, demonstrating that the body of correct Christian theology need not be rife with obscurity, contradiction, and inconsistencies. The great Biblical truths flow together, fit seamlessly, and fall into order when doctrine is believably laid precept upon precept and line upon line.

*Virtuoso* Murray Pomerance, 2019-05-16 Elizabeth Taylor's electrifying performance in *Who's Afraid of Virginia Woolf?* The milkshake scene in *There Will be Blood*. Leonardo

DiCaprio's turn as Arnie in *What's Eating Gilbert Grape*? What makes these performances so special? Eloquentlly written and engagingly laid out, Murray Pomerance answers the tough question as to what makes an exceptional, or virtuosic performance. Pomerance intensively explores virtuosic performance in film, ranging from classical works through to contemporary production, and gives serious consideration to structural problems of dramatization and production, actorial methods and tricks, and contingencies that befall performers giving stand-out moments. Looking at more than 40 aspects of the virtuosic act, and using an approach based in careful meditation and discursion, *Virtuoso* moves through such themes as showing off, effacement, self-consciousness, performative collapse, spontaneity, acting as dream, acting and femininity, virtuosity and torture, secrecy, improvisation, virtuosic silence, and others; giving special attention to the labors of such figures as Fred Astaire, Johnny Depp, Marlene Dietrich, Basil Rathbone, Christopher Plummer, Leonardo DiCaprio, Alice Brady, Ethel Waters, James Mason, and dozens more. Numerous scenic virtuosities are examined in depth, from films as far-ranging as *Singin' in the Rain* and *The Bridge on the River Kwai*, and *My Man Godfrey*. As the first book about virtuosity in film performance, *Virtuoso* offers exciting new angles from which to view film both classical and contemporary.
