Financial Management for Local Government Kay Spearman, 2006-12 This series is designed to cover all aspects of sound financial management for local governments in developed and developing countries and economies in transition. Concepts of good governance, transparency and accountability are woven into the text of every chapter, and the needs and potential obstacles to greater decentralization and democracy are highlighted. Each volume is self-contained with its own Trainer's Guide, exercises and web resources. Chapters are divided into basic and advanced concepts and the detailed relationship of each topic to the others covered in the series is explained.

Structuring People Eva Marie Schindler, 2021-12-09 Participation has become an orthodoxy in the field of development, an essential element of projects and programmes. This book analyses participation in development interventions as an institutionalised expectation – a rationalized myth – and examines how organisations on different levels of government process it. At least two different objectives of participation are appropriate and legitimate for international organisations in the field: the empowerment of local beneficiaries and the achievement of programme goals. Both integrate participatory forums into the organisational logic of development interventions. Local administrations react to the institutionalised expectation with means-ends decoupling, where participatory forums are implemented superficially but de facto remain marginalised in local administrative processes and activities. The book furthermore provides a thick description of the organisationality of participation in development interventions. Participatory forums are shown to be a form of partial organisation. They establish an order in the relationship between administrations and citizens through the introduction of rules and the creation of a defined membership. At the same time, this order is found to be fragile and subject to criticism and negotiation.

Drama Queen Suchitra Krishnamoorthi, 2013-10-25 So BIZARRE It's Gotta be True! Filmstar, writer, singer, painter, candlestick maker - Suchitra Krishnamoorthi, dips in and out of her life, taking us through a hormone-driven period, five years post marriage, divorce, fame and everything else that a girl could possibly want - to the present. Now a single mother suffering the crippling effects of

'Aphallatosis' – a rare mental disorder arising from lack of sex – she is only looking for the happy-ever-after of true love and twin babies, but finds herself being pushed in all the wrong directions by shrewd analysts, horny canines, pushy gal-pals, and men who are either unsuitable, unwilling, or just plain terrified. How can she loosen up without becoming loose? How can she hold on to her sanity? How can she shake off the vice-like grip of her primly disapproving, strict, South Indian, moral, middle-class upbringing? And, Aiiyyo, what will Amma say? Wicked, irrepressibly funny and over-the-top, yet also vulnerable and dark, Drama Queen is a fictional memoir that will make you laugh and cry and look at the modern Indian woman in a whole new light.'

The Kiss of Life Emraan Hashmi,Bilal Siddiqi,2016-04-11 How do you deal with the most difficult moments in your life? Every experience that we go through changes us and helps us grow. As we learn to laugh and cry, win and lose, share and care, the meaning of life and true happiness unfolds before us. Known for his bold forays into Bollywood, Emraan Hashmi walks us through his memories that have shaped him—from a confused teenager who dabbled in a variety of things to finding his calling to the suave, smart and unorthodox actor he has become today. At the heart of his story lies the most important and transformative experience of his life—the period when his son, Ayyan, was battling with cancer. It reveals the man behind the limitless charm of Emraan Hashmi and how he dealt with his son's illness. Honest, personal, bold and heart-warming, The Kiss of Life is about an actor and a father's trials and triumphs.

The United Nations World Water Development Report - N° 5 - 2014 UNESCO,2014-03-21 The WWDR 2014 on Water and Energy is now an annual and thematic report with a focus on different

strategic water issues each year. It is shorter in the order of 100 pages with a standardized structure and data and case studies annexes related to the theme. The WWDR 2014 will be launched during the main World Water Day celebrations in Tokyo, Japan on 21 March 2014. Water and energy are closely interconnected and highly interdependent. Trade-offs need to be managed to limit negative impacts and foster opportunities for synergy. Water and energy have crucial impacts on poverty alleviation both directly, as a number of the Millennium Development Goals depend on major improvements in access to water, sanitation, power and energy sources, and indirectly, as water and energy can be binding constraints on economic growth the ultimate hope for widespread poverty reduction. This fifth edition of the United Nations World Water Development Report (WWDR 2014) seeks to inform decision-makers

The Psychology of a Patriot Saket Suman,2021 With his trademark wit and unique narrative style, journalist Saket Suman delivers an illuminating account of modern India, tracing the consolidation, evolution and contestation of patriotism from the first war of independence to the pandemic. This is a reporter's chronicle spanning three generations, backed by first-hand accounts of luminaries, peppered with numerous anecdotes and a passionate examination of his own beliefs. It is as scathing in its takedown of bigotry as it is lucid in chartin

The Paradox of Generosity Christian Smith,Hilary Davidson,2014-08-01 Determining why, when, and to whom people feel compelled to be generous affords invaluable insight into positive and problematic ways of life. Organ donation, volunteering, and the funding of charities can all be

illuminated by sociological and psychological perspectives on how American adults conceive of and demonstrate generosity. Focusing not only on financial giving but on the many diverse forms generosity can take, Christian Smith and Hilary Davidson show the deep impact—usually good, sometimes destructive—that giving has on individuals. *The Paradox of Generosity* is the first study to make use of the cutting-edge empirical data collected in Smith's groundbreaking, multidisciplinary, five-year Science of Generosity Initiative. It draws on an extensive survey of 2,000 Americans, more than sixty in-depth interviews with individuals across twelve states, and analysis of over 1,000 photographs and other visual materials. This wealth of evidence reveals a consistent link between demonstrating generosity and leading a better life: more generous people are happier, suffer fewer illnesses and injuries, live with a greater sense of purpose, and experience less depression. Smith and Davidson also show, however, that to achieve a better life a person must practice generosity regularly—random acts of kindness are not enough. Offering a wide range of vividly illustrative case studies, this volume will be a crucial resource for anyone seeking to understand the true impact and meaning of generosity.

The Boy who Loved Durjoy Datta, 2017 The only thing you cannot plan in life is when and who to fall in love with . . . Raghu likes to show that there is nothing remarkable about his life—loving, middle-class parents, an elder brother he looks up to, and plans to study in an IIT. And that's how he wants things to seem—normal. Deep down, however, the guilt of letting his closest friend drown in the school's swimming pool gnaws at him. And even as he punishes himself by hiding from the world and shying away from love and friendship, he feels drawn to the fascinating Brahmi—a girl quite like him, yet so different. No matter how hard Raghu tries, he begins to care . . . Then life throws him into the deep end and he has to face his worst fears. Will love be strong enough to pull him out? *The Boy Who*

Loved , first of a two-part romance, is warm and dark, edgy and quirky, wonderfully realistic and dangerously unreal.

Why Good Things Happen to Good People Stephen Post, Ph.D., Jill Neimark, 2008-04-01 A longer life. A happier life. A healthier life. Above all, a life that matters—so that when you leave this world, you'll have changed it for the better. If science said you could have all this just by altering one behavior, would you? Dr. Stephen Post has been making headlines by funding studies at the nation's top universities to prove once and for all the life-enhancing benefits of caring, kindness, and compassion. The exciting new research shows that when we give of ourselves, especially if we start young, everything from life-satisfaction to self-realization and physical health is significantly affected. Mortality is delayed. Depression is reduced. Well-being and good fortune are increased. In their life-changing new book, *Why Good Things Happen to Good People*, Dr. Post and journalist Jill Neimark weave the growing new science of love and giving with profoundly moving real-life stories to show exactly how giving unlocks the doors to health, happiness, and a longer life. The astounding new research includes a fifty-year study showing that people who are giving during their high school years have better physical and mental health throughout their lives. Other studies show that older people who give live longer than those who don't. Helping others has been shown to bring health benefits to those with chronic illness, including HIV, multiple sclerosis, and heart problems. And studies show that people of all ages who help others on a regular basis, even in small ways, feel happiest. *Why Good Things Happen to Good People* offers ten ways to give of yourself, in four areas of life, all proven by science to improve your health and even add to your life expectancy. (And not one requires you to write a check.) The one-of-a-kind "Love and Longevity Scale" scores you on all ten ways, from volunteering to listening, loyalty to forgiveness, celebration to standing up for what you believe in.

Using the lessons and guidelines in each chapter, you can create a personalized plan for a more generous life, finding the style of giving that suits you best. The astonishing connection between generosity and health is so convincing that it will inspire readers to change their lives in ways big and small. Get started today. A longer, healthier, happier life awaits you.

The Dynamics of Institutional Change Bruno Dente,Francesco Kjellberg,1988 Western democracies have retained political legitimacy since 1945 by a continuous process of adaptation to changing socio-political circumstances. Most states have changed their institutional arrangements, and reorganized their systems of local government to some degree. This book explains local government change within the wider context of institutional change. It links theories of legitimacy and institutional change to the extensive empirical and historical literature on local government reorganization. It also differentiates between institutional change and reform. Structural or historical variables are shown to play a major role in explaining why and how both reform and change take place. In particular, the rise and decline of the welfare state - and the political and policy changes associated with this - is one of the most important points of departure in the analysis. The ideas shared by the policy community explain the roles played by actors involved in shaping local government change and reform. This provides the link between the macro (structural) dimension and empirical observation.

Governance on the Ground Patricia Louise McCarney,Richard E. Stren,2003-09-15 Governance on the Ground describes people at a local level working through municipal institutions to take more responsibility for their own lives and environment. This study reports what social scientists in eight local networks found when they chose their own subjects for a worldwide comparative study of

institutional reform at the local level. Governance on the Ground is the culminating product of the Global Urban Research Initiative, a major 10-year research effort that created a worldwide network of some 400 social scientists. The topics these scholars cover include fiscal innovation, infrastructure projects, social development, housing, harbor development, and political party participation. Material comes from Chile, Colombia, Mexico, Brazil, Sudan, Zimbabwe, South Africa, Lebanon, Israel, Egypt, Bangladesh, India, Vietnam, Indonesia, Thailand, and the Philippines. All chapters present governance at a local level in a period characterized by decentralization and democratization, when many governments were improving local accountability and transparency and people were actively participating in public forums, especially through institutions of civil society. Many chapters show the close connection between social science and actual policy formation and implementation in the developing world.
