The Indian Hospitality Industry Sandeep Munjal, Sudhanshu Bhushan, 2017-08-30 India has been in transition for the last two decades, moving from a mixed economy toward a market economy model, and the Indian hospitality industry is metamorphosing into a mature industry. It is time that the story of the Indian hospitality industry is told. The Indian Hospitality Industry: Dynamics and Future Trends tells that story, one defined by the industry's push for growth in revenues and the struggle to match the revenue growth with profitability. The volume includes a selection of insightful chapters that offer research into the multiple dimensions of the Indian hospitality industry. The book covers many segments of the hospitality sector, including hotels, events and catering businesses, and restaurants and coffee shops, both domestic and small mom-and-pop businesses as well as international chains. The opening chapters set the tone for providing an overarching perspective on the status of the industry in terms of the macroeconomic variables and how they may have impacted the health of hospitality businesses in India. The book then goes on to explore a wide variety of issues. The editors and chapter authors are either practitioners themselves or researchers, looking at both domestic and international hospitality business in India and a wide variety of economic factors. The information divulged here will be important for stakeholders, which includes domestic and international hospitality professionals, business leaders, investors, and those in governmental positions, especially in the tourism ministry. The volume informs on the issues and challenges that the hospitality industry in India is up against. The book looks at the dilemma of a industry that responded to the demand growth promise by ramping up supply, only to find that the investments made were received by an actual growth that was way shy of forecasts and left investors with unexpected losses on their profit & loss statements and bloodied balance sheets.

Hospitality in American Literature and Culture Ana Maria M. Manzananas Calvo, Jesús Benito Sanchez, 2016-11-03 This volume examines hospitality in American immigrant literature and culture, situating this ancient virtue at the crossroads of space and border theory, and exploring the relationship among the intersecting themes of migration, citizenship, identity formation, and spatiality. Assessing the conditions, duration, and shifting roles of hosts and guests in the United States, the book concentrates on the ways the US administers protocols of belonging and non-belonging, and distinguishes between those who can feel at home from those who will always be outside the body politic, even if they were the original hosts. The volume opens with a genealogy of hospitality through a focus on its sites, from its origins in the Bible, to its national and post-national renditions in contemporary American literature and culture. The authors explore recent representations of immigrant spatiality, from the space of the body in Spielberg's *The Terminal* and Frears's *Dirty Pretty Things*, to the different ways in which

immigrants are incorporated into the United States in Alex Rivera's *Sleep Dealer*, Karen T. Yamashita's *I Hotel*, Junot Díaz's *Invierno*, and Ernesto Quiñonez's *Chango's Fire*, concluding with the spectrality of the immigrant body in George Saunders' *The Semplica Girl Diaries*. Timely and imperative in light of the legacies of colonialism, and the realities of modern-day globalization, this book will be of value to specialists in post-colonialism; American Studies; immigration, diaspora, and border studies; and critical race and gender studies for its innovative approaches to media and literary texts.

Hospitality: A Social Lens Paul Lynch, Alison Morrison, Conrad

Lashley, 2007-01-18 *Hospitality: a social lens* follows on from the unique contribution made by *In Search of Hospitality: theoretical perspectives and debates*. It progresses debate, challenges the boundaries of ways of knowing hospitality, and offers intellectual insights stimulated by the study of hospitality. The contributing authors provide tangible evidence of continuing advancement and development of knowledge pertaining to the phenomenon of hospitality. They draw on the richness of the social sciences, taking host and guest relations as a means of studying in-group and out-group relations with and between societies. The chapter contributors represent a multi-disciplinary, international grouping of leading academics with expertise in hospitality management and education, human resource management, linguistics, modern languages, gastronomy, history, human geography, art, architecture, anthropology, and sociology. Each lends their expertise to apply as a social lens through which to view, analyse, and explore hospitality within a range of contexts. Through this process novel ways of interpreting, knowing and sense-making emerge that are captured in the final chapter of the book, and have informed future research themes which are explored.

Entrepreneurship in the Hospitality, Tourism and Leisure Industries

Biswajit Pattajoshi, 2018-10-10 Many standard BOP models have been undergoing radical transformations. Newer functioning models with inclusivity with holistic, systems approach is the mantra. Development has morphed into community leadership, and societal fabric building now frames the effect of corporate governance activities on shareholder value. Not surprisingly, new voices have been calling for reinvention of marketing. CEO's cannot get clear, compelling answers about marketing's impact on the bottom line. The adage of Sam Wanamaker- that he knows that 50 percent of his advertisement works but he does not know which half –still haunts management. Consider the following: Economic liberalisation has given a new impetus to the hospitality industry. It costs an average of US\$50-80 million to set up five-star hotels with 300 rentable rooms in India. The gestation period is usually between three and four years. Movements in real estate prices have to be watched, though they have stabilised in the past three years or so. Non-five-star hotels are obviously cheaper and have smaller gestation periods, but international chains are expected to go into the five-star category. Biswajit Pattajoshi offers not only a candid critique of eradicating poverty, through bottom of pyramid spins but more important a clear agenda –indeed the Samaritans agenda-for meaningful change in end of poverty by immortal brand equity white horse. He calls upon leadership to deliver value and solutions, not physicality colours. He believes that the stalwart must understand their building blocks and operations from finance to supplier partnerships. They must co-operate and compete on multidisciplinary teams, because BOP model

fails whenever any part of greater agenda fails to cohort with great acres. BOP's are posing titan challenges to manage marketing tornadoes, many of which are exemplary spectaculars in waves of shareholders. Marketing change agents have led to innovative, community building indispensability models that track futuristic transformation eradicating poverty, establishing peace revolution. If community building model's take-off profits are harnessed by the BOP.
