**Victor M. Corman**

The Latvians Andrejs Plakans,1995 Plakans (European history, Iowa State U.) chronicles the evolution and formation of the Latvian nation from the early medieval period to the present, with emphasis on the 19th and 20th centuries. He traces the historical roots of the current Latvian ethnic majority and devotes particular attention to the emergence of an independent Latvia in 1918. An appendix summarizes key events and officials from 1918 to the present, and explains the current system of political parties. Annotation copyright by Book News, Inc., Portland, OR

*Up Against the Wall* Vincent Hunt,2019 A hundred years of oppression, seen through the eyes of Latvians - first as the oppressors, then as the oppressed. After WWII and the Cold War, Latvia experienced fifty years of Soviet domination. The KGB's methods are laid bare in true stories of interrogation, torture, execution and deportation to Siberia: this is not for the squeamish.

**Latvia Matters** Dr. Dale B. Sims,2014 Latvia Matters: The Adventures of a Large Man Who Stumbled Around in a Small Country. When Dale Sims received a Fulbright Scholarship to teach in the small country of Latvia he left everything familiar and comfortable behind. His determination to do a good job of representing the United States of America presented a number of challenges, not the least of which were his own pre-conceived notions of other countries and cultures. Dr. Sims uses stories about his adventures to show the patience, concern, and good common sense that the Latvians expressed toward him. As you read about the Latvians you will be transported to their country and you will wish that you could visit their land with Dr. Sims as a guide.

*Latvia* Mara Kalnins,2015-01-04 The history of the Latvian people begins some four and a half millennia ago with the arrival of the proto-Baltic Indo-Europeans to northern Europe. One branch of these migrants coalesced into a community which evolved a distinctive and remarkably robust culture and language, and which eventually developed into a loose federation of tribal kingdoms that stretched from the shores of the Baltic sea to the upper Dniepr river. But these small independent kingdoms were unable to resist the later invasion of the Teutonic Knights in 1201, an invasion that initiated nearly eight hundred years of helotry for the Latvians in their own domains. In the centuries of domination by successive European powers that followed, the inhabitants nonetheless preserved a powerful sense of identity, fostered by their ancient language, oral literature, songs and customs. These in turn informed and gave impetus to the rise of national consciousness in the nineteenth century and the political activities of the twentieth which brought the modern nation-state of Latvia into being. This book traces the genesis and growth of that nation, its endurance over centuries of conquest and oppression, the process by which it achieved its independence, and its status as a member of the European community in the twenty-first century.

**Latvians in Michigan** Silvija D. Meija,2005-07-11 Latvians have contributed to the cultural mosaic and economy of Michigan far more than one might imagine. There are three large Latvian communities in Michigan—Kalamazoo, Detroit, and Grand Rapids—with several smaller enclaves elsewhere in the state. An underlying goal of Latvians who

now live in Michigan, as well as other parts of the United States and Canada, is to maintain their language and culture. More than five thousand Latvians came to Michigan after World War II, found gainful employment, purchased homes, and became a part of the Michigan population. Most sought to reeducate themselves and struggled to educate their children in Michigan's many colleges and universities. Latvians in Michigan examines Latvia and its history, and describes how World War II culminated in famine, death, and eventual flight from their homeland by many Latvian refugees. After the war ended, most Latvian emigrants eventually made their way to Sweden or Germany, where they lived in displaced persons camps. From there, the emigrants were sponsored by individuals or organizations and they moved once again to other parts of the world. Many came to the United States, where they established new roots and tried to perpetuate their cultural heritage while establishing new lives.

The Nationalization of Latvians and the Issue of Serfdom Andrew James Blumbergs, 2008 In the second half of the eighteenth century, an intellectual discourse developed in Livonia which shed light on the disastrous social conditions of the indigenous population. This book examines the premise that the resulting nationalization of the Latvians occurred in the 1780s and 1790s as a result of a German Enlightenment in Livonia. It investigates the role that eighteenth-century anthropological, ethnographical, historical, and cultural ideas played in this process of nationalizing the Latvians, and focuses on the development of the arguments for agrarian and social change by proponents of reform in Livonia at this time. The work investigates the historical structures and processes that shaped the agrarian constitution of Livonia's society up to and including the eighteenth century. This involves a comparative historical analysis of critical aspects relevant to the transformation of the agrarian and social reform discourse in Livonia in the second half of the eighteenth century and its ramifications on how the Latvians were perceived by Germans within Livonia and beyond. The introduction and dissemination of Enlightenment thought in Livonia, with particular reference to the Livonian agrarian and social reform discourse, is also explored. Utilizing primary sources, some relatively unknown such as the Briefe of Andreas Meyer, this study provides first-hand historical perspectives on Livonian society and German attitudes towards the indigenous population. The main writers and works of the Livonian agrarian and social reform discourse in the 1780s and 1790s are also studied. The works of Johann von Jannau (1753-1821), Heinrich Wilhelm Christian Friebe (1761-1811), Karl Philip Michael Snell (1753-1806), and Garlieb Helwig Merkel (1769-1850) are considered central to the Livonian agrarian and social reform discourse of the late 1780s and 1790s. Some monographs, essays, and articles in Hupel's publications, particularly the Nordische Miscellaneen, are also considered. It is purported that the first steps towards the nationalization of Latvian identity occurred as the result of new historical, anthropological, cultural, and ethnographical approaches to the agrarian and social issues of Livonia during this time. Culture, history, and language are central to the nationalization of identity and are key components in the theoretical considerations investigated. The literary discourse had implications that were significant in shaping and reshaping historical and cultural identity in the national awakenings of the Latvians at various stages in their history since the late eighteenth century. The way social, political, cultural, and ethnic relationships were

understood and articulated was transformed by this late eighteenth-century discourse, in effect, nationalized, as predominantly German theologians and writers sought to elevate and see dignity and authentic cultural value in the language and national character of the Latvians. This is an important and comprehensive volume for those in history and European studies.

American Latvians Ieva Zake,2017-09-08 This book analyzes the political experience of a small and unique American ethnic group-American Latvians. This community was constituted by post-World War II political refugees, who fled Communism and arrived in the United States seeking safety and protection. For decades, they insisted on preserving their ethnic identity and therefore did not call themselves Latvian Americans. Instead, they formed a distinctive double identity, that is, they blended into the American society economically and socially, but refused to become assimilated culturally and politically. The book offers a detailed look into the life of this community of political refugees, which also provides a novel perspective on the Cold War as experienced by certain ethnic groups. From a theoretical point of view, the book makes two major contributions. First, it reasserts the need to understand the generalized category of white Americans or white ethnics with more nuance and attention to differences, and, second, it strengthens the so-called realist claim that refugees are not like other immigrants. In order to achieve these goals, the book provides compelling descriptions and interpretations of the most politically relevant moments in the experience of American Latvians in the period between the 1950s and the 1990s. Concretely, the book deals with topics as the American Latvians' anti-communist activism, the impact of the hunt for Nazis on Latvian emigres, the Soviet Union's anti-emigre propaganda campaigns and the exiled Latvians' involvement in the politics of national liberation in Latvia. The author strives to reveal the complexity of the refugee experience in the United States during the Cold War and its aftermath. Since such aspects of the life of ethnic groups in the United States have not been sufficiently studied, this book makes a substantial contribution to a fuller understanding of American immigration history and sociology of ethnic groups. It is well written, expertly organized, and will be of interest to a large readership at many levels of academia.

*Amidst Latvians During the Holocaust* Edward Anders,2010 Edward Anders, son of Adolf Alperovitch (1897-1941) and Erika Sheftelovitch-Meirani (1895-1992), was born in 1926 in Libau, Latvia. He immigrated to the United States in 1949. He married Joan Fleming in 1955. They had two children.
