The Life and Death of Industrial Languedoc, 1700-1920 Christopher H. Johnson, 1995-05-04 In this seminal book, Christopher Johnson writes a full-scale study of the rise and decline of industrialization in the Bas-Languedoc region of France. Working within a broad 200-year frame, Johnson examines the process of how and why a successful industrial region transformed itself to agriculture. Johnson is primarily interested in de-industrialization, which sets him apart from previous historians who have studied regions only in terms of the growth toward industrialization.
