Logan Byrne

Logan Soraya Naomi, Na een leven vol pijn en verlies gelooft Logan Wade niet meer in gerechtigheid. Hij speelt met vrouwen alsof ze geen hart hebben en diep vanbinnen weet hij niet eens meer wie hij zelf is. Hij werkt bij de CIA, maar trekt zijn eigen plan en loopt over naar het Chicago Syndicate. Zijn plan wordt echter danig in de war geschopt als hij Rosalia Calderone ontmoet, de dochter van de raadsheer van het syndicaat. Ze is tien jaar jonger dan hij, roekeloos, en ze weet niet wanneer ze haar mond moet houden. Rosalia is door haar ouders altijd uit de zaken van de maffia gehouden, maar door onvoorziene omstandigheden komt Logan Wade op haar pad. Als ze hem beter leert kennen, realiseert ze zich dat er meer achter zijn harde façade schuilt dan wat de wereld van hem mag zien. En al weet ze dat het gevaarlijk is om te vallen voor een gesloten man zoals hij, toch volgt ze haar hart. Wat begint als een gedwongen kennismaking groeit uit tot een geheime affaire, waarbij Rosalia en Logan ontdekken dat liefde alles kapot kan maken wat je lief is. Want elke beslissing kan in hun wereld ernstige gevolgen hebben... zelfs als je bij die beslissing je hart laat spreken.

Banded Logan Byrne, In dystopian Manhattan, society is divided into six zones, with each one representing a citizen's benefit to society: Stalwart (strength), Astute (intelligence), Collusive (greed), Radiant (beauty), Quixotic (no life direction), and the Altruistic (willingness to help others). On a citizen's sixteenth birthday, a computer suggests a new zone for them based on their inherent benefit to society. When Kalenna Slater is sorted out of her home zone Quixotic and into Altruistic, she thinks things can't get worse. Life looks dismal until she meets Gavin, a boy also just sorted into Altruistic who becomes the light needed on her cloudy days. During sorting she receives a device known as 'The Band'. It's a large watch-like device that never comes off, and it measures a citizen's karma on a scale from one to one hundred. If a citizen does good, they gain points. If a citizen does bad, including breaking laws, they lose points. When your number reaches zero, the band acts as judge, jury, and executioner, and you are injected with toxins that kill you within minutes. After sorting, recruits are taken to a three month long mandatory school named HQ. It's at HQ she meets new friends from different zones, and finally begins to feel at ease. Everything goes well until a rare trip home makes her discover that her father, who has been missing for a decade, may have taken part in a terrible program that stands to shake the fabric of society. young adult science fiction, young adult dystopian, dystopian series, dystopian science fiction, teen dystopian, teen dystopian series, teen dystopian romance, dystopian romance, science fiction romance, science fiction dystopian, teen romance series, dystopian series, science fiction series, free dystopian, free young adult dystopian, free young adult science fiction, free young adult series, free teen series, free science fiction, free science fiction series, free book, free series

Alexia's life looks like it's finally going back to normal. Logan - a Preston Brothers Novel Jay McLean, 2017-09-18 As a kid, Logan Preston was a brat. Through his teens, he became the bad boy. Now, at nineteen, no one knows what the hell to expect. High school dropout, Logan Preston is a good-for-nothing stoner. A black sheep. A disappointment. The worst Preston Punk of the lot. At least that's how everyone in his small town makes him feel. But Logan Preston has secrets. Secrets so dark and so deep below the surface that the only way he can fight them is to stay high, high, high. He wears cockiness as a mask. Arrogance as his armor. Until one girl, one night, asks one life-changing question: What's beneath the bravado, Logan Preston?

The Unforgettable Logan Foster #1 Shawn Peters, 2022-01-18 Packed with superheroes, supervillains, and epic showdowns between good and evil, The Unforgettable Logan Foster from debut author Shawn Peters shows that sometimes being a hero is just about being yourself. Logan Foster has pretty much given up on the idea of ever being adopted. It could have something to do with his awkward manner, his photographic memory, or his affection for reciting curious facts, but whatever the cause, Logan and his "PP's" (prospective parents) have never clicked. Then everything changes when Gil and Margie arrive. Although they aren't exactly perfect themselves—Gil has the punniest sense of humor and Margie's cooking would have anyone running for the hills—they genuinely seem to care. But it doesn't take Logan long to notice some very odd things about them. They are out at all hours, they never seem to eat, and there's a part of the house that is protected by some pretty elaborate security. No matter what Logan could have imagined, nothing prepared him for the truth: His PP's are actually superheroes, and they're being hunted down by dastardly

forces. Logan's found himself caught in the middle in a massive battle and the very fate of the world may hang in the balance. Will Logan be able to find a way to save the day and his new family?
