Gabriel Tarde On Communication and Social Influence
Gabriel Tarde, 2010-10-15 Gabriel Tarde ranks as one of the most outstanding sociologists of nineteenth-century France, though not as well known by English readers as his peers Comte and Durkheim. This book makes available Tarde's most important work and demonstrates his continuing relevance to a new generation of students and thinkers. Tarde's landmark research and empirical analysis drew upon collective behavior, mass communications, and civic opinion as elements to be explained within the context of broader social patterns. Unlike the mass society theorists that followed in his wake, Tarde integrated his discussions of societal change at the macrosocietal and individual levels, anticipating later twentieth-century thinkers who fused the studies of mass communications and public opinion research. Terry N. Clark's introduction, considered the premier guide to Tarde's opus, accompanies this important work, reprinted here for the first time in forty years.

Handbook of Logical Thought in India Sundar Sarukkai, Mihir Kumar Chakraborty, 2022-11-04 This collection of articles is unique in the way it approaches established material on the various logical traditions in India. Instead of classifying these traditions within Schools as is the usual approach, the material here is classified into sections based on themes ranging from Fundamentals of ancient logical traditions to logic in contemporary mathematics and computer science. This collection offers not only an introduction to the key themes in different logical traditions such as Nyaya, Buddhist and Jaina, it also highlights certain unique characteristics of these traditions as well as contribute new material in the relationship of logic to aesthetics, linguistics, Kashmir Saivism as well as the forgotten Tamil contribution to logic.

Battle John A Lynn, 2009-04-24 Battle: A History of Combat and Culture spans the globe and the centuries to explore the way ideas shape the conduct of warfare. Drawing its examples from Europe, the Middle East, South Asia, East Asia, and America, John A. Lynn challenges the belief that technology has been the dominant influence on combat from ancient times to the present day. In battle, ideas can be more far more important than bullets or

bombs. Clausewitz proclaimed that war is politics, but even more basically, war is culture. The hard reality of armed conflict is formed by -- and, in turn, forms -- a culture's values, assumptions, and expectations about fighting. The author examines the relationship between the real and the ideal, arguing that feedback between the two follows certain discernable paths. Battle rejects the currently fashionable notion of a Western way of warfare and replaces it with more nuanced concepts of varied and evolving cultural patterns of combat. After considering history, Lynn finally asks how the knowledge gained might illuminate our understanding of the war on terrorism.

Duels and the Roots of Violence in Missouri Dick Steward, 2000 In early-nineteenth-century Missouri, the duel was a rite of passage for many young gentlemen seeking prestige and power. In time, however, social groups outside the ruling class engaged in a variety of violent acts and symbolic challenges under the rubric of the code duello. In Duels and the Roots of Violence in Missouri, Dick Steward takes an in-depth look at the evolution of dueling, tracing the origins, course, consequences, and ultimate demise of one of the most deadly art forms in Missouri history. By focusing on the history of dueling in Missouri, Steward details an important part of our culture and the long-reaching impact this form of violence has played in our society.

Vladimir Nabokov and the Art of Moral Acts Dana Dragunoiu, 2021-09-15 Winner, 2022 Brian Boyd Prize for Best Second Book on Nabokov This book shows how ethics and aesthetics interact in the works of one of the most celebrated literary stylists of the twentieth century: the Russian American novelist Vladimir Nabokov. Dana Dragunoiu reads Nabokov's fictional worlds as battlegrounds between an autonomous will and

heteronomous passions, demonstrating Nabokov's insistence that genuinely moral acts occur when the will triumphs over the passions by answering the call of duty. Dragunoiu puts Nabokov's novels into dialogue with the work of writers such as Alexander Pushkin, William Shakespeare, Leo Tolstoy, and Marcel Proust; with Kantian moral philosophy; with the institution of the modern duel of honor; and with the European traditions of chivalric literature that Nabokov studied as an undergraduate at Cambridge University. This configuration of literary influences and philosophical contexts allows Dragunoiu to advance an original and provocative argument about the formation, career, and legacies of an author who viewed moral activity as an art, and for whom artistic and moral acts served as testaments to the freedom of the will.

Conrad's Shadow Nidesh Lawtoo, 2016-09-01 Western thought has often dismissed shadows as fictional, but what if fictions reveal original truths? Drawing on an anti-Platonic tradition in critical theory, Lawtoo adopts ethical, anthropological, and philosophical lenses to offer new readings of Joseph Conrad's novels and the postcolonial and cinematic works that respond to his oeuvre. He argues that Conrad's fascination with doubles urges readers to reflect on the two sides of mimesis: one side is dark and pathological, and involves the escalation of violence, contagious epidemics, and catastrophic storms; the other side is luminous and therapeutic, and promotes communal survival, postcolonial reconciliation, and plastic adaptations to changing environments. Once joined, the two sides reveal Conrad as an author whose Janus-faced fictions are powerfully relevant to our contemporary world of global violence and environmental crisis.

Honor and Violence in Golden Age Spain Scott K. Taylor, 2008-11-17 Early modern Spain has long been

viewed as having a culture obsessed with honor, where a man resorted to violence when his or his wife's honor was threatened, especially through sexual disgrace. This book--the first to closely examine honor and interpersonal violence in the era--overturns this idea, arguing that the way Spanish men and women actually behaved was very different from the behavior depicted in dueling manuals, law books, and honor plays of the period. Drawing on criminal and other records to assess the character of violence among non-elite Spaniards, historian Scott K. Taylor finds that appealing to honor was a rhetorical strategy, and that insults, gestures, and violence were all part of a varied repertoire that allowed both men and women to decide how to dispute issues of truth and reputation.

Learning to Play With a Lion's Testicles Melissa Haynes, 2013-04-16 Melissa visits Africa for animal conservation, but a cast of unlikely characters teaches her about grief, fear, and ultimately life.

Joseph Conrad Bernard Constant Meyer, 2015-03-08 Joseph Conrad once voiced the hope that from the reading of his pages might emerge at last the vision of a personality: the man behind the books ... a coherent justifiable personality both in its origin and its actions. Dr. Meyer arrives at a unified picture of Conrad's personality by applying psychoanalytic principles and insights to two main sets of data on Conrad: his unusual history and his creative work. Basic psychological and emotional patterns appear repetitively, and Dr. Meyer concludes that Conrad's art served an important psychological function in his life—the achievement through his creative fiction of a corrective revision of painful reality. Originally published in 1967. The Princeton Legacy Library uses the latest print-on-demand technology to again make available

previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

On Violence Bruce B. Lawrence, Aisha Karim, 2007-12-06 This anthology brings together classic perspectives on violence, putting into productive conversation the thought of well-known theorists and activists, including Hannah Arendt, Karl Marx, G. W. F. Hegel, Osama bin Laden, Sigmund Freud, Frantz Fanon, Thomas Hobbes, and Pierre Bourdieu. The volume proceeds from the editors' contention that violence is always historically contingent; it must be contextualized to be understood. They argue that violence is a process rather than a discrete product. It is intrinsic to the human condition, an inescapable fact of life that can be channeled and reckoned with but never completely suppressed. Above all, they seek to illuminate the relationship between action and knowledge about violence, and to examine how one might speak about violence without replicating or perpetuating it. *On Violence* is divided into five sections. Underscoring the connection between violence and economic world orders, the first section explores the dialectical relationship between domination and subordination. The second section brings together pieces by political actors who spoke about the tension between violence and nonviolence—Gandhi, Hitler, and Malcolm X—and by critics who have commented on that tension. The third grouping examines institutional faces of violence—familial, legal, and religious—while the fourth

reflects on state violence. With a focus on issues of representation, the final section includes pieces on the relationship between violence and art, stories, and the media. The editors' introduction to each section highlights the significant theoretical points raised and the interconnections between the essays. Brief introductions to individual selections provide information about the authors and their particular contributions to theories of violence. With selections by: Hannah Arendt, Walter Benjamin, Osama bin Laden, Pierre Bourdieu, André Breton, James Cone, Robert M. Cover, Gilles Deleuze, Friedrich Engels, Frantz Fanon, Michel Foucault, Sigmund Freud, Mohandas Gandhi, René Girard, Linda Gordon, Antonio Gramsci, Félix Guattari, G. W. F. Hegel, Adolf Hitler, Thomas Hobbes, Bruce B. Lawrence, Elliott Leyton, Catharine MacKinnon, Malcolm X, Dorothy Martin, Karl Marx, Chandra Muzaffar, James C. Scott, Kristine Stiles, Michael Taussig, Leon Trotsky, Simone Weil, Sharon Welch, Raymond Williams

Writing after War John Limon, 1994-07-07 In *Writing After War*, John Limon develops a theory of the relationship of war in general to literature in general, in order to make sense of American literary history in particular. Applying the work of war theorists Carl von Clausewitz and Elaine Scarry, John Limon argues that *The Iliad* inaugurates Western literature on the failure of war to be duel-like, to have a beautiful form. War's failure is literature's justification. American literary history is demarcated by wars, as if literary epochs, like the history of literature itself, required bloodshed to commence. But in chapters on periods of literary history from realism, generally taken to be a product of the Civil War, through modernism, usually assumed to be a prediction or result of the Great War, up to postmodernism which followed World War II and spanned Vietnam, Limon argues that, despite the looming

presence of war in American history, the techniques that define these periods are essentially ways of not writing war. From James and Twain, through Fitzgerald, Faulkner, and even Hemingway, to Pynchon, our national literary history is not hopelessly masculinist, Limon argues. Instead, it arrives naturally at Bobbie Ann Mason and Maxine Hong Kingston. Kingston brings the discussion full circle: The Woman Warrior, like The Iliad, appears to condemn the fall from duel to war that is literature's endless opening.
