**Ottomans Looking West?** Can Erimtan, 2008-03-30 The 'Tulip Age', a concept that described the beginning of the Ottoman Empire's westward inclination in the eighteenth century, was an idea proposed by Ottoman historian Ahmed Refik in 1912. In the first reassessment of the origins of this concept, Can Erimtan argues the 'Tulip Age' was an important template for various political and ideological concerns of early twentieth century Turkish governments. The concept is most reflective of the 1930s Republican leadership's attempt to disengage Turkey's population from its Islamic culture and past, stressing the virtues of progress, modernity and secularism. It was only the death of Ataturk in 1938 that precipitated a hesitant revival of Islam in Turkey's public life and a state-sponsored re-invigoration of research into Turkey's Ottoman past. In this exciting reassessment Erimtan shows us that the trope of the 'Tulip Age' corresponds more to Turkish society's desire to re-orientate itself to the Occident throughout the twentieth century rather than to early eighteenth-century Ottoman realities.

**Looking West?** Hilary Pilkington, 2002 Russian youth culture has been a subject of great interest to researchers since 1991, but most studies to date have failed to consider the global context. Looking West? engages theories of cultural globalization to chart how post-Soviet Russia's opening up to the West has been reflected in the cultural practices of its young people. Visitors to Russia's cities often interpret the presence of designer clothes shops, Internet cafés, and a vibrant club scene as evidence of the 'Westernization' of Russian youth. As Looking West? shows, however, the younger generation has adopted a 'pick and mix' strategy with regard to Western cultural commodities that reflects a receptiveness to the global alongside a precious guarding of the local. The authors show us how young people perceive Russia to be positioned in current global flows of cultural exchange, what their sense of Russia's place in the new global order is, and how they manage to 'live with the West' on a daily basis. Looking West? represents an important landmark in Russian-Western collaborative research. Hilary Pilkington and Elena Omel'chenko have been at the heart of an eight-year collaboration between the University of Birmingham (U.K.) and Ul'ianovsk State University (Russia). This book was written by Pilkington and Omel'chenko with the team of researchers on the project—Moya Flynn, Ul'iana Bliudina, and Elena Starkova.

**Looking West** Loleen Berdahl, Roger Gibbins, 2014-02-25 Although a history of protest politics has done so much to define western Canada and to place it outside the Canadian mainstream, the aspirations and frustrations that animated western discontent over the years have been replaced by a new reality: the West is in, and many of the levers of national economic and political power rest in western Canadian hands. The protest tradition has yielded a dynamic region that leads rather than reacts to national economic, social, and political change. The westward shift of the Canadian economy and demography is likely to be an enduring structural change that reflects and is reinforced by the transformation of the continental and global economies. At the same time, western Canada faces major challenges, including finding a place for a sustainable resource economy in a rapidly changing global environment, establishing a full and modern partnership with Aboriginal peoples, and creating urban environments that will attract and retain human capital. None of these challenges are unique to the West but they all play out with great force, and great immediacy, in western Canada.

**Looking east looking west** Bill Slee, Chen Tong, Bundit Anurugsa, Rainer Haas, Maurizio Canavari, 2023-09-04 This book represents a unique collection of European and Asian perspectives on the production, trade and consumption of high quality food. The rapidly growing demand for organic and quality food in Europe imposes new challenges on competing food value chains. Europe, as the biggest worldwide food importer, attracts many developing and developed countries in Asia. Prospering Chinese and Thai food markets offer new opportunities for European operators. Wealthy and informed consumers on both continents search for trustworthy high quality food products. Farmers, operators and retailers from distant cultures are coping with different standards, facing the ever increasing necessity for mutual understanding. This publication is the output of Bean-Quorum, a European funded Asia-Link project. Bean-Quorum represents a consolidated network of researchers working together with the business sector and NGOs to enhance European Asian understanding about organic and quality food. This book describes global trends in organic and quality food trade and connects them with recent developments in Asian and European market structures. Selected case studies illustrate the impact of organic and quality food production on topics ranging from sustainable rural development, to the potential of exotic new plant varieties to purchase decisions of European or Asian retail managers. Selected European markets are mirrored by the situation in Chinese and Thai markets. Finally, environmental issues concerning global trade of quality food are addressed.

**Looking East to Look West** Sunanda K. Datta-Ray, 2009 When P.V. Narasimha Rao and Manmohan Singh launched India's Look East policy, it was only the first stage of the strategy to foster economic and security cooperation with the United States. But Looking East became an end in itself, and Singapore a valid destination, largely because of Lee Kuan Yew. He had been trying since the 1950s to persuade India's leaders that China would steal a march on them if they neglected domestic reform and ignored a region that India had influenced profoundly in ancient times. With his deep understanding of Indian life, close ties with India's leaders from Jawaharlal Nehru on, and sound grasp of realpolitik, Lee never tired of stressing that Asia would be submerged if India did not emerge. Looking East to Look West recounts how India and Singapore rediscovered long-forgotten ties in the endeavour to create a new Asia. Singapore sponsored India's membership of regional institutions. India and Singapore broke diplomatic convention with unprecedented economic and defence agreements that are set to transform boundaries of trade and cooperation. This book traces the process from the earliest mention of Suvarnabhumi in the Ramayana to Lee Kuan Yew's letter to Lal Bahadur Shastri within moments of declaring independence on 9 August 1965, from the Tata's pioneering industrial training venture in Singapore to Singapore's Information Technology Park in Bangalore. It explains the part Lee played in India's emergence as a player in the emerging Concert of Asia. History comes alive in these pages as Sunanda K. Datta-Ray, who had eight long conversations with Lee Kuan Yew, tells the story in the words of the main actors and with a wealth of anecdotes and personal details not available to many chroniclers.

**Last Place You Look** Louisa Scarr, 2021-04-08 The man you love has been murdered. You'd do anything to find out the truth. Wouldn't you? A man lies dead in a hotel room, and the police attend his home address to inform the widow. Nothing unusual, until DC Freya West realises that the victim is the man she has been having an affair with. The future she imagined has been snatched away. Meanwhile, her new boss, DS Robin Butler, is preoccupied with his own problems. Mistakes he thought were buried deep in his past now threaten to be exposed. Before long, both Butler and West are keeping secrets that could end their careers – and worse. When the detectives have a chance to tell the truth, they choose to keep quiet. But once that line is crossed, is there any going back? After all, breaking the law is easy when you know how to uphold it. Don't miss this tense and compulsive police procedural thriller. Perfect for fans of Sunday Times bestselling authors Cara Hunter, Susie Steiner and Jane Casey. Praise for Last Place You Look 'This is punchy, police procedural stuff: just as her protagonists don't

play by the book, so Scarr takes the traditional set-up into darker, dirtier, more intriguing terrain.' Hampshire Living 'A superbly crafted, perfectly paced thriller... The fact that Butler & West have just as much to hide as the people they hunt, makes this such a compelling read, and the start of a captivating new series that's hooked me in from the very first book.' Robert Scragg 'The delicious joy of discovering a brilliant new crime series! ... Our detectives, Butler and West, are a duo for our days; bound by their troubles, loneliness and secrets into an unlikely alliance. You'll fall for them, and this novel, in a big way!' Jo Furniss 'Tightly plotted with superb characterisation ... It's a book you won't be able to turn away from until you reach the very last page.' Alison Belsham 'Fantastic story and characterisation with a pair of detectives who are battling their own demons amidst an apparent suburban suicide' James Delargy 'The darker side of suburbia shows its underbelly in this gritty domestic thriller. A procedural with a kick in its tail!' Rachael Blok 'Crime fans are going to love Last Place You Look ... believe me, this is a detective team you're going to want to meet again and again.' Amy McLellan 'A seriously pacy plot and a tangled case that defies expectation. I eagerly await the next installment in this gripping and perfectly written series.' Heather Critchlow 'I was not expecting that! I was just so invested in the brilliant partnership of Butler and West that I couldn't put it down.... together they're dynamite. I was kept on my toes the whole time, not sure where the story was going, and there were so many twists along the way that I was expecting a shocking ending... and yet I still didn't see what was coming!' Elle Croft 'An exciting page turner and entirely believable police procedural thriller featuring a new pair of detectives whose secrets are as mysterious as those of the criminals they are trying to hunt. Highly recommended.' A. J. Park 'If you like tense, complex and compulsive procedurals with well observed characterisation this is definitely the book for you! A great start to a promising series.' N. J. Mackay

Vladimir Putin and the New World Order Joseph Laurence Black, 2004 J. L. Black's latest work is a rich and carefully crafted attempt to expose the textures of Russia's perceptions of itself and its place in the world. Based almost entirely on Russian sources, Vladimir Putin and the New World Order argues that to understand Russian foreign policymaking, international situations must be viewed through the prism of Russian analysts and officials.

**Remington – Looking West**, 2008

*Diverge and Conquer* Tom Anderson, 2016-11-27 History can turn on the smallest of things. In the history we know, King George II's son Prince Frederick was an obscure footnote of history. Hated by his father (who threatened to exile him to the American colonies), his political career cut short when he was fatally struck by a cricket ball, of all things. The Prince never became King Fred and instead the throne passed to his inexperienced son, George III, who proceeded to lose America. But what if one tiny slight – a trip on a coronation carpet, a misplaced laugh – had tipped George II over the edge and he had made good on his threat? What if, in the year George Washington was born, the American colonies had found themselves home to an exiled Prince stripped of his inheritance? And what if that Prince had ambitions to reclaim his birthright by any means necessary, including with the help of his colonial subjects...? The Look to the West series begins with the story of Frederick and the very different America that results from his exile, but it is a tale that encompasses the whole world. Every action we take has unforeseen impacts: a revolutionary South America, a defeated Prussia, a divided India, a European Enlightenment transformed by phlogiston theory, Cugnot steam engines and Linnaeus' Theory of Evolution. *Diverge and Conquer* covers the history of this world from the time of Frederick to the era when Europe is torn apart by a French Revolution very different to the one we know – and hints at a mysterious future to come...

**Looking West. The Rise of Asia in the Middle East** Valeria Talbot, Ugo Tramballi, 2020-09-09 As the world's economic and political centre of gravity moves increasingly towards East and South Asia, we can expect a number of countries in these regions to devote more attention to the Middle East. The relations between East and South Asia and the Middle East have significantly expanded as a result of the global rise of Asian economic powers, particularly China, India, Japan and South Korea. Not only oil but also trade, investment, infrastructure, and tourism is the name of the business with the MENA region. Beyond energy and economic interests, questions arise about the potential geopolitical dimension of these evolving ties. What are the strategic implications of the projection of Asian countries in an unstable, fragmented and volatile region? How do they interact with each other and with other international players? Last but not least, will the Covid-19 pandemic be a game changer in (re)shaping relations in the future?

**Looking West** ALBERT NASIB. BADRE, 2019-02-19 In 1960, the Badre family emigrates from Beirut, Lebanon to the United States, a dream come true for fourteen-year-old Nasib. Nasib struggles to assimilate as a teen in Albany, New York. With limited English skills, he attempts to learn new customs, make friends, and adapt to a different culture. In Beirut, the Badre family was well-known and socially privileged. In America, they are unknown nobodies. Nasib adopts his father's name Albert, and to further Americanize his name, young Albert becomes Al. Despite the many frustrations and difficulties, Al's ultimate goal is to become a successful American. The new anonymity actually inspires the young man. Excited by the opportunities available to him in his new country, he determines to make a potent contribution to society. As he strives to adapt, Al reads voraciously, becoming increasingly interested in religion and philosophy. Books become his American friends, and reading soon prompts him to ask deep theological questions about his family's Lebanese Protestant roots, his mother's conversion to Catholicism, and the contrast between the Protestant and Catholic faiths. This ultimately leads to his Catholic conversion. Al's search for meaning in life leads him to social activism among New York City's poorest. And, in time, to graduate studies, where his desire is to improve the human condition through information technology. Al Badre – like many other American immigrants – works his way through hardship to achieve a meaningful place in his adopted nation.

**Let Them Look West** Marty Phillips, 2021-05-28 Rob Coen has a mission he has reluctantly chosen – to interview the newly re-elected Wyoming governor, James Alexander, a populist politician who has seemingly reinvented not only his state's politics, but also its soul. No one could more strongly contrast with Coen, a big-city, liberal journalist, than the rural, Bible-thumping Alexander and his strange social and religious projects, which include constructing Mount Calvary, a monument to the Crucifixion atop a man-made mountain. Coen quickly becomes personally invested, and his trip to interview Alexander becomes a joust, pitting his nihilism against the faith of the people whom he meets as he seeks to discern the lie he is convinced hides at the heart of their righteous kingdom. At the same time, Coen begins to realize that he himself is being swept up in a struggle beyond his understanding orchestrated by forces out of his control. With prose as vivid and scenic as the majestic Wyoming

landscapes it describes, Let Them Look West draws the reader into a story of discovery and intrigue which serves as a backdrop to a fundamental clash of worldviews – one secular and materialist, the other spiritual and transcendent. The tale twists and turns until its climax, which calls into question the true meaning of what has transpired. Antelope Hill is proud to present our first fictional contribution, Let Them Look West by author Marty Phillips.
