*Heartsick* Jessie Stephens, 2022-06-07 *Heartsick* unpacks the destruction of love by following the true stories of three lives altered by a major heartbreak. I wrote this book for the person who doesn't want to be told that this too shall pass. Not yet. Who wants to sit with it. And see it for what it is. Who wants to know they're not alone. That their pain is at once unique and universal. Belonging to them and everyone. When we're thrown into the chaos of heartsickness, we focus so much on the end. The fact we are now unloved seems so much more important than the reality that we once were. This book was born in the hours I've waited for men to message me back and who never did... In the years full of almost-relationships, I thought, "I cannot handle another rejection," and then found myself turned down by someone I wasn't even sure I liked. I wrote this book because I know what it is to feel fundamentally unlovable. I knew when I was looking for Ana, Patrick, and Claire that their stories had to be true, because within them would be nuances I'd never noticed before and realities I couldn't have invented. I didn't want to be limited by what I happened to know about love and loss. I wanted to learn from people as I wrote, injecting wisdom from different places and genders and ages into this book. Weaving together these three true stories, Jessie Stephens captures the painful but wholeheartedly universal experience of heartbreak. Deeply relatable, addictive to the very last page, and powerfully human, *Heartsick* reminds us that emotional pain can make us as it breaks us and that storytelling has the ultimate healing power. In the solitude that reading a book demands, one is forced to reflect on one's own life. After all, every time we explore others, we're mostly just exploring ourselves. These are their stories—Ana's and Patrick's and Claire's. But it is also my story and our story. I trust within it you will find echoes of yourself.

*Social Media and e-Diplomacy in China* Ying Jiang, 2017-08-09 As with many spheres of public life, public diplomatic communication is being transformed by the boom of social media. More than 165 foreign governmental organisations in China have embarked on the use of Weibo (a hybrid of Facebook and Twitter in China) to engage with Chinese citizens and reach out to youth populations, one of the major goals of current public diplomacy efforts. This exciting new pivot, based on systemic research of Weibo usage by embassies in China,

explores the challenges and the limits that the use of Chinese Weibo (and Chinese social media in general) poses for foreign embassies, and considers ways to use these or other tools. It offers a systematic study of the effectiveness and challenges of using Weibo for public diplomatic communication in and with China. Addressing the challenges of e-diplomacy, it considers notably the occurrence of cyber-nationalism on Weibo and encourages a critical look at its practice, arguing how it can contribute to the goals of public diplomacy.

**Logic and the Organization of Information** Martin Frické, 2012-02-09 Logic and the Organization of Information closely examines the historical and contemporary methodologies used to catalogue information objects—books, ebooks, journals, articles, web pages, images, emails, podcasts and more—in the digital era. This book provides an in-depth technical background for digital librarianship, and covers a broad range of theoretical and practical topics including: classification theory, topic annotation, automatic clustering, generalized synonymy and concept indexing, distributed libraries, semantic web ontologies and Simple Knowledge Organization System (SKOS). It also analyzes the challenges facing today's information architects, and outlines a series of techniques for overcoming them. Logic and the Organization of Information is intended for practitioners and professionals working at a design level as a reference book for digital librarianship. Advanced-level students, researchers and academics studying information science, library science, digital libraries and computer science will also find this book invaluable.

*Cyber-nationalism in China* Ying Jiang, 2012 The prevailing consumerism in Chinese cyberspace is a growing element of Chinese culture and an important aspect of this book. Chinese bloggers, who have strongly embraced consumerism and tend to be apathetic about politics, have nonetheless demonstrated political passion over issues such as the Western media's negative coverage of China. In this book, Jiang focuses upon this passion - Chinese bloggers' angry reactions to the Western media's coverage of censorship issues in current China - in order to examine China's current potential for political reform. A central focus of this book, then, is the specific issue of censorship and how to interpret the Chinese characteristics of it as a mechanism currently used to maintain state control.--Cover description.

**Media, Sport, Nationalism** Tianwei Ren, Keiko Ikeda, Chang Wan Woo, 2019-03-01 East Asia is increasingly prominent within global sport. In the short period between 2018 and 2022 it will have held two Winter and one Summer Olympics, and the Rugby World Cup for good measure. This is not a sudden development. It has been in train for some time, although many scholars, especially in Europe and North America, have been focussed primarily on sport in their own countries and regions. J.A. Mangan, who for decades has been looking closely at sport in East Asia while encouraging others to do likewise, has made a major contribution to knowledge and understanding of a once under-appreciated

subject. This excellent collection in his honour analyses the key interwoven elements of sport, media and nation in China, Japan and South Korea. It demonstrates how the structure and practice of sport connects in myriad ways with its representation, not least with regard to national narratives, international rivalries and transnational trends. It is a book that does signal justice both to East Asian Studies and to the academic who recognised the importance of sport to that field, and who has done so much to ensure that the region is centrally placed within any contemporary analysis of the world of sport. David Rowe, Emeritus Professor of Cultural Research, Institute for Culture and Society, Western Sydney University Professor Mangan is the master dissector of the connections between sport and politics, geopolitics and nationalism across multiple Asian contexts. A collection of essays in honour of his long service to academic understandings of these fields is well deserved, and the editors and contributors to this volume have served up a worthy tribute. Showcasing new work by a stellar cast of China, Japan and Korea experts, in combination the papers collected here yield valuable insights into the issues of nation building, identity, media representation and sport which have been the subject of Professor Mangan's pioneering work over the past several decades. No one has done more to put East Asia on the map in terms of academic research on the manifold socio-political dimensions of sport, and this superbly constructed volume orchestrated by rising Tianwei Ren confirms that we neglect this fascinating, complex region at our peril. Jonathan Sullivan, Director of China Policy Institute and China Soccer Observatory, Associate Professor, School of Politics and IR. University of Nottingham

She is funny, smart, and explosively engaged in the wonders and weirdness of the world. But what makes this memoir more than mere

entertainment is the mature and sophisticated evolution that Alderton describes in these pages. It's a beautifully told journey and a thoughtful, important book. I loved it." —Elizabeth Gilbert, New York Times bestselling author of *Eat, Pray, Love* and *City of Girls* The wildly funny, occasionally heartbreaking internationally bestselling memoir about growing up, growing older, and learning to navigate friendships, jobs, loss, and love along the ride When it comes to the trials and triumphs of becoming an adult, journalist and former Sunday Times columnist Dolly Alderton has seen and tried it all. In her memoir, she vividly recounts falling in love, finding a job, getting drunk, getting dumped, realizing that Ivan from the corner shop might just be the only reliable man in her life, and that absolutely no one can ever compare to her best girlfriends. Everything I Know About Love is about bad dates, good friends and—above all else— realizing that you are enough. Glittering with wit and insight, heart and humor, Dolly Alderton's unforgettable debut weaves together personal stories, satirical observations, a series of lists, recipes, and other vignettes that will strike a chord of recognition with women of every age—making you want to pick up the phone and tell your best friends all about it.
