The Lowell Experiment Cathy Stanton,2006 In the early nineteenth century, Lowell, Massachusetts, was widely studied and emulated as a model for capitalist industrial development. One of the first cities in the United States to experience the ravages of deindustrialization, it was also among the first places in the world to turn to its own industrial and ethnic history as a tool for reinventing itself in the emerging postindustrial economy. The Lowell Experiment explores how history and culture have been used to remake Lowell and how historians have played a crucial, yet ambiguous role in that process. The book focuses on Lowell National Historical Park, the flagship project of Lowell's new cultural economy. When it was created in 1978, the park broke new ground with its sweeping reinterpretations of labor, immigrant, and women's history.

Pork Chop and Other Stories Lowell Green,2007-07-01 On the eve of his 50th year in broadcasting, Lowell Green is the godfather of talk radio. No other talk show host in North America has been doing talk radio as long or as successfully. In the course of his career, Lowell has not only reported on the news of the day, he has helped to create it. From his earliest formative years in small-town Ontario, with its cast of extraordinary characters, through a lifetime of adventure and outspoken service to his community, Lowell's memoir, will touch the hearts and tickle the funny bones of friends and foes alike. From saving the Centennial Flame, speaking out in support of Canada's war veterans and repatriating Canada's flag, to co-founding Big Brothers of Ottawa, founding the Help Santa Claus Parade and helping to raise millions for charities, Lowell Green is known as a man who gets things done... and isn't afraid to ruffle feathers in the process.

EXCESS WAS NOT ENOUGH! Lowell Douglas,2018-06-14 Lowell Clarence Douglas was born in 1939 to parents Lowell Newton Douglas, Athletic director and head baseball coach at Baylor University, and Lois Smith Douglas, professor of English at Baylor University. Lowell attended public schools in the Waco, Texas, school system before entering Baylor University. Lowell moved to Houston, Texas, to work in the computer department of Tennessee Gas Transmission Company and continue his education at night school at South Texas College of Law. Lowell graduated from law school, obtaining a doctor of laws degree.

Hopkinton Dale J. Burnett,2008-05 Hopkinton, NY is a quiet little town in the northeast part of the state, settled by New Englanders and built in the New England style with a village green, white wood frame churches, and large Victorian houses. Life here has generally moved at a leisurely pace; yet

Hopkinton's people have had their dramas - both comedy and tragic - and their stories have been remembered. In 1903, Carlton Sanford had a book published documenting the settling of the town from a wilderness in 1802 through its first hundred years of development and tracing the descendants of the first settlers. Now Dale Burnett has written a folk history of the second hundred years, chronicling the events in the lives of Hopkinton's people and the town itself through the 20th century. Mr. Burnett has researched each separate district of the township and spoken with at least one person from each area to get its history from someone who lived there. In addition to the facts one would expect - businesses, history of the fire department, town officers - he has taken almost every house along each road in the town and listed the residents through the years, along with any tales that may have been told about them. Based mainly on interviews with older Hopkinton folk, some of whom were alive when Sanford's book came out, the stories handed down have been preserved as the old people told them. Facts are supported by newspaper articles, deeds and other documents. Included are tales of Hopkinton's characters, its three or four murders, and its one kidnapping case with still unanswered questions. And, following Mr. Sanford's example, at the end of *The Second Hundred Years* are genealogies submitted by Hopkinton families, many of whom can still trace their ancestry to those early settlers.

The Besel Howard Lowell, 1st, 2018-11-29 These stories shed a glimpse into the unpredictability of human nature and the desires that delve deeply into the human psyche. Most are fun, but some are laced with hillbilly language and situations. *The Besel* is about an imaginary creature, while *The Poke Bath* tells the humorous story of the itch and an attempted remedy, and other stories of mountain life.
