The Beautiful Billionaire Gia Hunter,2023-12-04 Estelle Bladwyn has a certain type— a little older with a little less demanding job and knows his way in bed. When she bumps into a hot thirty-ish man on her not-so-romantic-getaway on an island, he does check two on her checklist, and exactly what she wants for that moment. One thing that doesn't set right— their growing attraction is overwhelming, and her life is already complicated. But who can deny someone like Linden, who held you captive with his eyes, caged you in his arms, and still promised you a good time? Gabe Linden is getting old and still single and done with hookups and doing favors. When some big guns like Moses Braddson, a man he looks up to, he just can't say no to. The only problem is he hasn't taken the job yet— he knows he's already failing it. Looking into her celadon blue eyes, he sees right into her soul. There's no way he's letting her go, even by means of breaking his number one rule— The beautiful billionaire is his to keep.

This Is a Book Demetri Martin,2011-04-25 From the renowned comedian, creator, star and executive producer/multiple title-holder of Comedy Central's Important Things with Demetri Martin comes a bold, original, and rectangular kind of humor book. Demetri's first literary foray features longer-form essays and conceptual pieces (such as Protagonists' Hospital, a melodrama about the clinic doctors who treat only the flesh wounds and minor head scratches of Hollywood action heroes), as well as his trademark charts, doodles, drawings, one-liners, and lists (i.e., the world views of optimists, pessimists and contortionists), Martin's material is varied, but his unique voice and brilliant mind will keep readers in stitches from beginning to end.

Word Problems Using Ratios and Proportions Zella Williams,Rebecca Wingard-Nelson,2016-12-15 Ratios and proportions are good ways to break down and understand really big numbers, and the numbers don't get any bigger than they do in outer space. This book brings young mathematicians on a space odyssey that will ultimately end with them gaining a greater understanding of how to solve word problems using ratios and proportions—and they might even learn a little science along the way. A tips section helps break down the problem-solving process into manageable steps designed to build confidence. These steps are repeated in every problem, helping reinforce the concepts and make them second nature.

Venture Deals Brad Feld,Jason Mendelson,2011-07-05 An engaging guide to excelling in today's venture capital arena Beginning in 2005, Brad Feld and Jason Mendelson, managing directors at Foundry Group, wrote a long series of blog posts describing all the parts of a typical venture capital Term Sheet: a document which outlines key financial and other terms of a proposed investment. Since this time, they've seen the series used as the basis for a number of college courses, and have been thanked by thousands of people who have used the information to gain a better understanding of the venture capital field. Drawn from the past work Feld and Mendelson have written about in their blog and augmented with newer material, Venture Capital Financings puts this discipline in perspective and lays out the strategies that allow entrepreneurs to excel in their start-up companies. Page by page, this book discusses all facets of the venture capital fundraising process. Along the way, Feld and Mendelson touch

on everything from how valuations are set to what externalities venture capitalists face that factor into entrepreneurs' businesses. Includes a breakdown analysis of the mechanics of a Term Sheet and the tactics needed to negotiate Details the different stages of the venture capital process, from starting a venture and seeing it through to the later stages Explores the entire venture capital ecosystem including those who invest in venture capitalist Contain standard documents that are used in these transactions Written by two highly regarded experts in the world of venture capital The venture capital arena is a complex and competitive place, but with this book as your guide, you'll discover what it takes to make your way through it.

Malaysia in the World Economy (1824-2011) Azlan Tajuddin, 2012-06-14 From colonialism to independent statehood, the extent of Malaysia's capitalist development has been dramatically limited by its position in the world economy. This book combines macro- and micro-theoretical approaches in analyzing the relationship between capitalist development in Malaysia within a comparative-historical and world-systemic context.

The Illusion of Conscious Will Daniel M. Wegner, 2003-08-11 A novel contribution to the age-old debate about free will versus determinism. Do we consciously cause our actions, or do they happen to us? Philosophers, psychologists, neuroscientists, theologians, and lawyers have long debated the existence of free will versus determinism. In this book Daniel Wegner offers a novel understanding of the issue. Like actions, he argues, the feeling of conscious will is created by the mind and brain. Yet if psychological and neural mechanisms are responsible for all human behavior, how could we have conscious will? The feeling of conscious will, Wegner shows, helps us to appreciate and remember our authorship of the things our minds and bodies do. Yes, we feel that we consciously will our actions, Wegner says, but at the same time, our actions happen to us. Although conscious will is an illusion, it serves as a guide to understanding ourselves and to developing a sense of responsibility and morality. Approaching conscious will as a

topic of psychological study, Wegner examines the issue from a variety of angles. He looks at illusions of the will—those cases where people feel that they are willing an act that they are not doing or, conversely, are not willing an act that they in fact are doing. He explores conscious will in hypnosis, Ouija board spelling, automatic writing, and facilitated communication, as well as in such phenomena as spirit possession, dissociative identity disorder, and trance channeling. The result is a book that sidesteps endless debates to focus, more fruitfully, on the impact on our lives of the illusion of conscious will.
