The Oxford Handbook of Integrative Health Science Carol D. Ryff,Robert F. Krueger,2018-10-03 Most health research to date has been pursued within the confines of scientific disciplines that are guided by their own targeted questions and research strategies. Although useful, such inquiries are inherently limited in advancing understanding the interplay of wide-ranging factors that shape human health. The Oxford Handbook of Integrative Health Science embraces an integrative approach that seeks to put together sociodemographic factors (age, gender, race, socioeconomic status) known to contour rates of morbidity and mortality with psychosocial factors (emotion, cognition, personality, well-being, social connections), behavioral factors (health practices) and stress exposures (caregiving responsibilities, divorce, discrimination) also known to influence health. A further overarching theme is to explicate the biological pathways through which these various effects occur. The biopsychosocial leitmotif that inspires this approach demands new kinds of studies wherein wide-ranging assessments across different domains are assembled on large population samples. The MIDUS (Midlife in the U.S.) national longitudinal study exemplifies such an integrative study, and all findings presented in this collection draw on MIDUS. The way the study evolved, via collaboration of scientists working across disciplinary lines, and its enthusiastic reception from the scientific community are all part of the larger story told. Embedded within such tales are important advances in the identification of key protective or vulnerability factors: these pave the way for practice and policy initiatives seeking to improve the nation's health.

BMW M3 Ultimate Portfolio 1986-2006 ,2008-02-01 The M3 is based on the prosaic 3 Series family sedan and has 'redefined' the term 'sports saloon'. There were several iterations of the M3 including two EVO versions and a convertible, but BMW shocked the world with the release of the E36 M3 in 1993. It had a new engine with a maximum speed electronically limited to 155mph. Not only was the new M3 quick but the international media was full of praise for the Germany hotrod. Everybody who was anybody simply had to be seen in one. In 2000, BMW released the E46 M3 which was a much more refined car to drive. The E46 M3 was a simply brilliant package that had absolutely

no peers unless you considered the true exotcars. It was a genuine sales success all over the world.

Environmental Pollution and the Media Glenn D. Hook,Libby Lester,Meng Ji,Kingsley Edney,Chris G. Pope,Luli van der Does-Ishikawa,2017-04-07 This book offers a theoretically informed empirical investigation of national media reporting and political discourse on environmental issues in Australia, China and Japan. It illuminates the risks, harms and responsibilities associated with climate change through an analysis of pollution, adopting an interdisciplinary approach drawing on both the social sciences and humanities. A particular strength of the work is the detailed analysis of the data using a range of both quantitative and qualitative techniques, enabling the authors to reveal in rich and compelling detail the complex relationship between risk and responsibility in the climate change discourse. The case studies of Australia, China and Japan are set in the current literature as well as in the historical context of climate change in these three countries. The analysis of the media discourse on the Great Barrier Reef in Australia demonstrates how the mining of coal for overseas markets has led to devastating harm to the life of the reef. A critical discussion of the Chinese documentary, Under the Dome, shows how this medium has played a crucial role in building awareness of the harm from atmospheric pollution among the citizens, shaping attitudes and promoting action. The first case study of Japan elucidates how cross-border atmospheric pollution from China forges a chain of responsibility for responding to climate change, running from the state to society. The other case study of Japan demonstrates how 'smart cities' have emerged as a way to mitigate the risks and harms of climate change. The Conclusion draws together the similarities and differences in how climate change is addressed in the three countries. In all, Environmental Pollution and the Media: Political Discourses of Risk and Responsibility in Australia, China and Japan uncovers the dynamics of the triadic relationship among risk, harm and climate change in Australia, China and Japan. By so doing, the book makes an original and timely contribution to understanding comparative media, discourse and political debates on climate change.

2017 Valuation Handbook - International Industry Cost of Capital Roger J. Grabowski,Carla Nunes,James P. Harrington,Duff & Phelps,2017-10-16 Real-world cost of capital data from across industries and around the globe The 2017 Valuation Handbook – International Industry Cost of Capital offers the same type of rigorous industry-level analysis published in the U.S.-centric Valuation Handbook – U.S. Industry Cost of Capital. It provides industry-level cost of capital estimates (cost of equity, cost of debt, and weighted average cost of capital, or

WACC), plus detailed industry-level statistics for sales, market capitalization, capital structure, various levered and unlevered beta estimates (e.g., ordinary-least squares (OLS) beta, sum beta, peer group beta, downside beta, etc.), valuation (trading) multiples, financial and profitability ratios, equity returns, aggregate forward-looking earnings-per-share (EPS) growth rates, and more. For more information about Duff & Phelps valuation data published by Wiley, please visit www.wiley.com/go/valuationhandbooks. Also Available 2017 Valuation Handbook – International Guide to Cost of Capital 2017 Valuation Handbook – U.S. Guide to Cost of Capital 2017 Valuation Handbook – U.S. Industry Cost of Capital Key Features Four global economic regions: The 2017 Valuation Handbook – International Industry Cost of Capital includes industry-level analyses for four global economic regions: the World, the European Union, the Eurozone, and the United Kingdom. Industries in the book are identified by their Global Industry Classification Standard (GICS) code (at the 2-, 4-, and 6-digit code level). Three currencies: Each of the four global region's industry analyses are presented in three currencies: the Euro, the British pound, and the U.S. dollar.

Follicular Growth Ovulation and Fertilization Anand Kumar,A.K. Mukhopadhyay,2002-06 Covering the subject at both the fundamental and applied levels, Follicular Growth, Ovulation and Fertilization highlights contraception, infertility management, environment, aging, and reproductive processes. Written by experts in their respective fields, the scientific contributions cover the basic aspects of reproductive biology with a special focus on fertility control and treatment of infertility. The book highlights the latest developments in reproductive biology and their connection to the emerging techniques in reproductive medicine including andrology, reproductive biology, and ovarian function.
